Presents contributions in comparative suburban studies for urban regions, not just in Europe and the United States but also metropolitan regions in China, India and other areas of the world. This title examines the patterns of suburban development in metropolitan regions around the globe. It is well known among the curious that Sedona, Arizona, and its surrounding regions have seen some of the world's all-time, most-intense UFO, paranormal and spiritual activity. The question is, why? A union list of serials commencing publication after Dec. 31, 1949. Running title: AusIMM. Ore Reserve Reconciliation Workshop. 28 November 1997. Environmental law envisions ecological systems as existing in an equilibrium state, or a "balance of nature," reinforcing a rigid legal framework unable to absorb rapid environmental changes and innovations in sustainability. For the past three decades, "resilience theory," which embraces uncertainty and nonlinear dynamics in complex adaptive systems, has shown itself to be a robust and invaluable basis for sound environmental management. Reforming American law to account for this knowledge is key to transitioning to sustainability. This volume features top legal and resilience scholars speaking on resilience theory and its legal applications to climate change, biodiversity, national parks, and water law.
