Writing and Rhetoric Book 1: Fable Jan 31 2021 The Writing & Rhetoric series method employs fluent reading, careful listening, models for imitation, and progressive steps. It assumes that students learn the best by reading excellent, whole-story examples of literature and by growing their skills through imitation. Each exercise is intended to impart a skill (or tool) that can be employed in all kinds of writing and speaking. The exercises are arranged from simple to more complex. What's more, the exercises are cumulative, meaning that later exercises incorporate the skills acquired preceding exercises. This series is a step-by-step apprenticeship in the art of writing and rhetoric. Fable, the first book in the Writing & Rhetoric series, teaches students the practice of close reading and comprehension, summarizing a story aloud and in writing, and amplification of a story through description and dialogue. Students learn how to identify different kinds of stories; determine the beginning, middle, and end of stories; recognize point of view; and see analogous situations, among other essential tools. The Writing & Rhetoric series recovers a proven method of teaching writing, using fables to teach beginning writers the craft of writing well.
