Melancholy Sep 29 2020 "Melancholy" takes us deep inside a painter's fragile consciousness, vulnerable to everything but therefore uniquely able to see its beauty and its light.

Mr Lonely Jun 07 2021 A long-overdue reissue of this debut novel from a comedy legend.

Virgin Forest Feb 21 2020 With this remarkable book Eric Zencey changes the way we think about nature by changing how we think about history. "The ecological crisis is also a historical crisis," he writes. "If we are out of place in nature, we are also out of place in time, and the two kinds of exile are related." Zencey's way home takes us many places: to a starlit mountaintop, where a nineteenth-century sect awaits the second coming; to the northern woods during hunting season; to the salt marshes of a Delaware childhood; to the softball games and abandoned mill ponds of his adopted Vermont. Always we are shown a world outside our preconceptions. In the essay "In Search of Virgin Forest" we see that virgin forest is not the pure escape from civilization that romantics make of it. Like the second-growth forest around

it, virgin forest too is a human construct, one whose "different disturbance history" is not natural but is equally the product of human perception and appropriation. A nationally acclaimed novelist, Zencey has brought together autobiography and philosophy to produce a work at once accessible and intellectually rigorous. Perceptive, urgent, and lyrical, these essays are alive with warmth and wit and the occasional glint of melancholy. Virgin Forest is a passionate call for ecological health. It amply demonstrates (as the final essay has it) "Why History Is Sublime": if we suffer a postmodern lack of grounding, only a rooted-in-place ecological sensibility can supply our need, and historical understanding is its inescapable prerequisite.

Loyalty, Love, & Vermouth Apr 05 2021 After a bitter and humiliating breakup, Charlie Vernon lives not-quite-alone in his Capitol Hill town house. He kept Mamie, the cockapoo that he and Freddie adopted together, but he's just arrived home to find he's been visited by thieves...and they've taken Mamie. For the next thirty-six hours, he and his family of choice—a pair of rhyming lesbians, a Georgia-born man who might be married to a sex addict, and the hostess of DC's hottest Drag Bingo—will band together to search for Mamie. What's at stake isn't just a beloved dog, but whether Charlie will be brave enough to love anything or anyone, ever again. "Eric Peterson's debut novel is a heartwarming and charming tale of love, loss, community, and self-discovery featuring man's best friends of the two- and four-legged kind. A delightful read." —Michael Nava, Lambda

When the Sky Is Falling Jun 26 2020 When the Sky is Falling is a gritty true story of pastor and professor Eric Sandras, who gets vulnerable in sharing his own personal Job story and how he kept his faith in the midst of it all. Eric lost his dream job, watched his home get foreclosed,

moved away from his family to support them, contracted cancer, and experienced a lifetime of emotional and physical pain in less than three years.

Coleridge's Melancholia Mar 04 2021 This lively intellectual biography of the second half of Coleridge's life argues that the poet, in his mature work, reveals a brilliant though troubled genius for conveying the ambiguities of psychological limbo. Asserting that the later poetry is the key element of Coleridge's career, Eric G. Wilson proposes that this period of work reflects the poet's ability to imagine and dissect both sides of life's grand antagonisms--many and one, body and soul, fact and dream, flux and permanence. Trapped in a vague region between equally troubled and opposite states, the older Coleridge felt chronically incomplete, confused, dissatisfied. Yet, Wilson writes, this melancholy state brought him to the curious frontier where one achieves double vision, the capacity to perceive two sides of the world at once.

Although this double refraction kept Coleridge from finding peace, Wilson contends that the psychic limbo became a muse--an inspiration to complete works on the impossibility of completion. In revealing the virtues of Coleridge's gloom, Wilson reassesses the trajectory of Coleridge's poetic career and discovers affinities between Coleridge and later Romantics who often criticized him. As a psychologist of limbo, Coleridge tests the spirit of Byron's meditations on the ruins of history and of Keats' broodings over the rifts between fact and fantasy. Wilson also finds a new place for Coleridge in the history of ideas, positioning him as an anxious precursor of Kierkegaard's dread and the abyss of Nietzsche, and offers a well-structured analysis of Coleridge's intellectual development in his later years.

Though committed to Coleridge's poetry, this book is finally a philosophical meditation on the virtues of melancholy--its particular kind of creativity as well as its psychological depths. Exploring a tortured, luminous mind, Coleridge's *Melancholia* offers a primer on the search for the ancient ideal of soul.

Lincoln's Melancholy Aug 21 2022 A nuanced psychological portrait of Abraham Lincoln that finds his legendary political strengths rooted in his most personal struggles. Giving shape to the

deep depression that pervaded Lincoln's adult life, Joshua Wolf Shenk's *Lincoln's Melancholy* reveals how this illness influenced both the President's character and his leadership. Mired in personal suffering as a young man, Lincoln forged a hard path toward mental health. Shenk draws on seven years of research from historical record, interviews with Lincoln scholars, and contemporary research on depression to understand the nature of Lincoln's unhappiness. In the process, Shenk discovers that the President's coping strategies--among them, a rich sense of humor and a tendency toward quiet reflection--ultimately helped him to lead the nation through its greatest turmoil. A New York Times Book Review Editors' Choice **SELECTED AS A BEST BOOK OF THE YEAR**: Washington Post Book World, Atlanta Journal-Constitution, St. Louis Post-Dispatch, Pittsburgh Post-Gazette As Featured on the History Channel documentary *Lincoln* "Fresh, fascinating, provocative."--Sanford D. Horwitt, San Francisco Chronicle "Some extremely beautiful prose and fine political rhetoric and leaves one feeling close to Lincoln, a considerable accomplishment."--Andrew Solomon, New York Magazine "A profoundly human and psychologically important examination of the melancholy that so pervaded Lincoln's life."--Kay Redfield Jamison, Ph.D., author of *An Unquiet Mind*

Melancholia and Maturation Jan 26 2023 "Coming of age" in children's fiction often means achieving maturity through the experience of trauma. In classics ranging from *Old Yeller* to *The Outsiders*, a narrative of psychological pain defies expectations of childhood as a time of innocence and play. In this provocative new book, Eric L. Tribunella explores why trauma, especially the loss of a loved object, occurs in some of the most popular and critically acclaimed twentieth-century American fiction for children. Tribunella draws on queer theory and feminist revisions of Freud's notion of melancholia, which is

described as a fundamental response to loss, arguing that the low-grade symptoms of melancholia are in fact what characterize the mature, sober, and responsible American adult. *Melancholia and Maturation* looks at how this effect is achieved in a society that purports to protect youngsters from every possible source of danger, thus requiring melancholia to be induced artificially. Each of the book's five chapters focuses on a different kind of lost object sacrificed so as to propel the child toward a distinctively gendered, sexual, ethical, and national adulthood—from same-sex friends to the companionship of boy-and-his-dog stories, from the lost ideals of historical fiction about the American Revolution to the children killed or traumatized in Holocaust novels. The author examines a wide spectrum of works—including Jack London's dog tales, the contemporary "realistic" novels of S. E. Hinton, and Newbery Medal winners like Johnny Tremain and *Bridge to Terabithia*. *Tribunella* raises fundamental questions about the value of children's literature as a whole and provides context for understanding why certain books become required reading for youth. Eric L. Tribunella is assistant professor of English at the University of Southern Mississippi. His articles have been published in *Children's Literature Association Quarterly*, *Children's Literature in Education*, *The Lion and the Unicorn: A Critical Journal of Children's Literature*, and *Children's Literature*.

Terrene Aug 09 2021 Within every person lies the power to change one world. Within Flora lies

the hope for two. In the isolated rural valley of Terrene, where technology is grown, not manufactured, Flora Karachi paints her anguish with flowers and yearns to travel outside the mountain walls that guard her village. But in a society which values harmony and symmetry above all else, her dangerous curiosity and her indelicate scars, earned from a lifetime of inexplicable blackouts, make her an outcast with few prospects for adventure. Then the dreams come. Lucid and overpowering, they throw Flora into a fascinatingly advanced world where she lives the life of Jane Ingram, an American scientist fighting global climate change while trying to raise a child in a society where interpersonal interaction is becoming obsolete. Flora's blackouts open a window into knowledge lost long ago and possibilities that are yet to come. To unravel these mysteries, she must travel to the enigmatic Institute, an ancient enclave hidden in the surrounding mountains, where scholars guard the secrets of Terrene. Living two lives, Flora will fight to become an Institute scholar in her own world while struggling to save the planet from humanity's neglect in Jane's. Yet all of Flora's courage combined with all of Jane's experience may not be enough to defeat the powerful forces protecting the secret which ties their two worlds together. To find salvation for both worlds, Jane and Flora must sacrifice their own dreams, conquer their fears, and discover hope for a new beginning. Hailed as a clever blend between science fiction and fantasy, *Terrene* explores the challenges of accelerating technology and global climate change through the stories of two remarkable women in two worlds that are not as distant as they seem.

Keep It Fake Oct 23 2022 Shoot straight from the hip. Tell it like it is. Keep it real. We love these commands, especially in America, because they appeal to what we want to believe: that there's an authentic self to which we can be true. But while we mock Tricky Dick and Slick Willie, we're inventing identities on Facebook, paying thousands for plastic surgeries, and tuning in to news that simply verifies our opinions. Reality bites, after all, and becoming disillusioned is a downer. In his new book *Keep It Fake: Inventing an Authentic Life*, Eric G. Wilson investigates this phenomenon. Hedraws

on neuroscience, psychology, sociology, philosophy, art, film, literature, and his own life to explore the possibility that there's no such thing as unwavering reality. Whether our left brains are shaping the raw data of our right into fabulous stories or we're so saturated by society's conventions that we're always acting out prefab scripts, we can't help but be phony. But is that really so bad? We're used to being scolded for being fake, but Wilson doesn't scold--because he doesn't think we need to be reprimanded. Our ability to remake ourselves into the people we want to be, or at least remake ourselves to look like the people we want to be, is in fact a magical process that can be liberating in its own way. Because if we're all a bunch of fakes, shouldn't we embrace that? And if everything really is fake, then doesn't the fake become real--really? In lively prose--honest, provocative, witty, wide-ranging (as likely to riff on Bill Murray as to contemplate Plato)--Keep It Fake answers these questions, uncovering bracing truths about what it means to be human and helping us turn our necessary lying into artful living.

School of Velocity Jan 02 2021 Oliver Sacks meets Patricia Highsmith in this psychologically taut tale about a virtuoso pianist plagued by unwanted music in his head Jan, an experienced virtuoso pianist, is about to go on stage to perform his solo. But, once again, the music he hears in his head is not what he is supposed to be playing. Will it go away in time, or will it sabotage his performance? As he struggles with this hidden condition, he thinks about his high school friend Dirk - a magnetic, eccentric personality. It began like a game, with Dirk playfully stealing Jan's first girlfriend. And it continued like a game - a very close friendship with an undertone of danger. They go their separate ways after high school, but when they reunite as adults, Jan wonders: is Dirk really the strong character he appeared to be, and was their friendship in fact real, life-long love? The final game Jan plays - a blind ride on a dark country road - is the most dangerous of all. In this powerful debut, Eric Beck Rubin conjures up a moving tale full of music and raw human emotion, with a virtuoso touch. Eric Beck Rubin is a cultural historian who writes on architecture, literature and psychology, and this

novel is his first foray into fiction. He is currently at work on a second: a family saga spanning several generations, from pre-World War II Germany to present-day Los Angeles and Western Canada. He lives in Toronto, Canada. *Melancholy II* Jul 28 2020 Not so much a sequel as an alternate perspective, Jon Fosse's coda to his brilliant and much-lauded *Melancholy*, picks up the story of tormented landscape painter Lars Hertervig in 1902, shortly after his death. In the same meticulous and hypnotic prose for which Fosse is famous, *Melancholy II* serves not only as an investigation into the "collateral damage" of art, but into a master's tools and obsessions. Taking place, like *Melancholy*, over the course of a single day, we are treated to the thoughts of Hertervig's sister Oline, carrying on with her life in the absence of her beloved—if eccentric—brother. She recalls their childhood under a domineering father, recalls Hertervig's difficulties fitting in, and likewise Hertervig the man: poor, always hovering on the brink, fanatical about painting and his own perceived shortcomings both as an artist and human being. In the same meticulous and hypnotic prose for which Fosse is famous, *Melancholy II* serves not only as an investigation into the "collateral damage" of art, but into a master's tools and obsessions.

Dream-Child Jul 20 2022 An in-depth look into the life of Romantic essayist Charles Lamb and the legacy of his work A pioneer of urban Romanticism, essayist Charles Lamb (1775–1834) found inspiration in London's markets, theaters, prostitutes, and bookshops. He prized the city's literary scene, too, where he was a star wit. He counted among his admirers Mary Shelley, William Wordsworth, and Samuel Taylor Coleridge. His friends valued in his conversation what distinguished his writing style: a highly original blend of irony, whimsy, and melancholy. Eric G. Wilson captures Lamb's strange charm in this meticulously researched and engagingly written biography. He demonstrates how Lamb's humor helped him cope with a life-defining tragedy: in a fit of madness, his sister Mary murdered their mother. Arranging to care for her himself, Lamb saved her from the gallows. Delightful when sane, Mary became Charles's muse, and she collaborated with him on children's books. In

exploring Mary's presence in Charles's darkly comical essays, Wilson also shows how Lamb reverberates in today's experimental literature.

Music Through the Floor Oct 19 2019 With *Music Through the Floor*, Pushcart Prize winner and former Wallace Stegner Fellow Eric Puchner makes an extraordinary debut: a collection of nine unforgettable stories -- strikingly original, fiercely funny, and quietly heartbreaking -- portraying a group of cultural misfits attempting to navigate mainstream America. Lost, teetering on the edge of normalcy, Puchner's characters seek to define themselves in a frequently absurd and hostile world -- a world that threatens to make outcasts of us all. Caught up in loneliness or solitude, they can't quite hear the music of their own lives. In "Children of God," a young loner becomes the caretaker and companion for two mentally retarded men, seeking solace in their outsider status. "Essay #3: Leda and the Swan" is told in the forlorn, be-nighted, and tragically funny voice of a high school girl who longs more than anything to be loved. In "Mission," an idealistic ESL teacher is faced with the inscrutable wrath of one of his immigrant students. And in the unsettling "Child's Play," Puchner explores the price of nonconformity by following a pack of boys wreaking havoc on Halloween. Writing from an impressive range of perspectives -- men and women, children and adults, immigrants and tourists -- Puchner deftly exposes the dark, ten-der undersides of his characters with arresting beauty and precision. Here are people fumbling for identity in a

depersonalized world, captured in moments that are hilarious, shocking, and transcendent -- sometimes all at once. Unfailingly true, surprisingly moving, and impossible to forget, these nine stories mark the arrival of a brilliant young writer and one of our most promising literary voices.

How to Make a Soul Jan 14 2022 In this innovative hybrid of biography, memoir, and criticism, Eric G. Wilson describes how John Keats gave him solace during a bout of mental illness in spring 2012. While on a tour of the principal sites in Keats's life—ranging from his London medical school to the small room in Rome where he died—Wilson discovered analogies between the poet's troubles and his own. He was most struck by Keats's enlivening vision of the soul. For Keats, we don't possess but rather make a soul. We do this by imaginatively transforming our suffering into empathy toward humans and nature alike. Tracking this idea in Keats's tumultuous yet exhilarating life and work, Wilson struggles to envision his depression anew, desperate to overcome the apathy alienating him from his family. *How to Make a Soul* offers fresh perspectives on Keats's pragmatism, irony, comedy, ethics, and aesthetics, but is above all a lyrical celebration of those galvanizing instances when life springs into art.

Nein. May 18 2022 In the past society had aphorisms, today we have this hilarious yet deeply profound collection of tweets from the hugely popular @NeinQuarterly. *Nein. A Manifesto* is the brainchild of Eric Jarosinski, the self-described "failed intellectual" behind @NeinQuarterly, a "Compendium of Utopian Negation" that uses the aphoristic potential of Twitter to plumb the existential abyss of modern life—and finds it bottomless. Stridently hopeless and charmingly dour, *Nein. A Manifesto* is an irreverent philosophical investigation into our most urgent questions. And the least. Inspired by the aphorisms of Nietzsche, Karl Kraus, Walter Benjamin, and Theodor W. Adorno, Jarosinski's short-form style reinvents philosophy for a world doomed to distraction. *Nein. A Manifesto* will be packaged as an attractive small-format hardcover, with a handful of Jarosinski's aphorisms laid out on each page. Critical thinkers, lovers of language, bibliophiles, manics and depressives alike will be drawn to this compelling, witty, and often hilarious translation of digital into print. Theory into praxis. And tragedy into farce.

Everyone Loves a Good Train Wreck Nov 24 2022 Why can't we look away? Whether we admit it or not, we're fascinated by evil. Dark fantasies, morbid curiosities, Schadenfreude: As conventional wisdom has it, these are the symptoms of our wicked side, and we succumb to them at our own peril. But we're still compelled to look whenever we pass a grisly accident on the highway, and there's no slaking our thirst for gory entertainments like horror movies and police procedurals. What makes these spectacles so irresistible? In *Everyone Loves a Good Train Wreck*, the scholar Eric G. Wilson sets out to discover the source of our attraction to the caustic, drawing on the findings of biologists, sociologists, psychologists, anthropologists, philosophers, theologians, and artists. A professor of English literature and a lifelong student of the macabre, Wilson believes there's something nourishing in darkness. "To repress death is to lose the feeling of life," he writes. "A closeness to death discloses our most fertile energies." His examples are legion, and startling in their diversity. Citing everything from elephant graveyards and Susan Sontag's *On Photography* to the Tiger Woods sex scandal and *Steel Magnolias*, Wilson finds heartening truths wherever he confronts death. In *Everyone Loves a Good Train Wreck*, the perverse is never far from the sublime. The result is a powerful and delightfully provocative defense of what it means to be human—for better and for worse.

The Melancholia of Class Feb 15 2022 What does it mean to be working-class in a middle-class world? Cynthia Cruz shows us how class affects culture and our mental health and what we can do about it -- calling not for assimilation, but for annihilation. To be working-class in a middle-class world is to be a ghost. Excluded, marginalised, and subjected to violence, the working class is also deemed by those in power to not exist. We are left with a choice between assimilation into middle-class values and culture, leaving our working-class origins behind, or total

annihilation. In *The Melancholia of Class*, Cynthia Cruz analyses how this choice between assimilation or annihilation has played out in the lives of working-class musicians, artists, writers, and filmmakers — including Amy Winehouse, Ian Curtis, Jason Molina, Barbara Loden, and many more — and the resultant Freudian melancholia that ensues when the working-class subject leaves their origins to “become someone,” only to find that they lose themselves in the process. Part memoir, part cultural theory, and part polemic, *The Melancholia of Class* shows us how we can resist assimilation, uplifting and carrying our working-class origins and communities with us, as we break the barriers of the middle-class world. There are so many of us, all of us waiting. If we came together, who knows what we could do.

Fractured Times Mar 24 2020 Eric Hobsbawm, who passed away in 2012, was one of the most brilliant and original historians of our age. Through his work, he observed the great twentieth-century confrontation between bourgeois fin de siècle culture and myriad new movements and ideologies, from communism and extreme nationalism to Dadaism to the emergence of information technology. In *Fractured Times*, Hobsbawm, with characteristic verve, unpacks a century of cultural fragmentation. Hobsbawm examines the conditions that both created the flowering of the belle époque and held the seeds of its disintegration: paternalistic capitalism, globalization, and the arrival of a mass consumer society. Passionate but never sentimental, he ranges freely across subjects as diverse as classical music, the fine arts, rock music, and sculpture. He records the passing of the golden age of the “free intellectual” and explores the lives of forgotten greats; analyzes the relationship between art and totalitarianism; and dissects phenomena as diverse as surrealism, art nouveau, the emancipation of women, and the myth of the American cowboy. Written with consummate imagination and skill, *Fractured Times* is the last book from one of our greatest modern-day thinkers.

and *Melancholy* remains an iconic text in art history, intellectual history, and the study of culture, despite being long out of print in English. Rooted in the tradition established by Aby Warburg and the Warburg Library, this book has deeply influenced understandings of the interrelations between the humanities disciplines since its first publication in English in 1964. This new edition makes the original English text available for the first time in decades. *Saturn and Melancholy* offers an unparalleled inquiry into the origin and development of the philosophical and medical theories on which the ancient conception of the temperaments was based and discusses their connections to astrological and religious ideas. It also traces representations of melancholy in literature and the arts up to the sixteenth century, culminating in a landmark analysis of Dürer's most famous engraving, *Melencolia I*. This edition features Raymond Klibansky's additional introduction and bibliographical amendments for the German edition, as well as translations of source material and 155 original illustrations. An essay on the complex publication history of this pathbreaking project - which almost did not see the light of day - covers more than eighty years, including its more recent heritage. Making new a classic book that has been out of print for over four decades, this expanded edition presents fresh insights about *Saturn and Melancholy* and its legacy as a precursor to modern interdisciplinary studies.

America Aug 29 2020 A Los Angeles Times Best Non-Fiction Book of 2007 A Boston Globe Best Non-Fiction Book of 2007 Amazon.com Editors pick as one of the 10 best history books of 2007 Winner of the 2007 John Lyman Award for U. S. Maritime History, given by the North American Society for Oceanic History "The best history of American whaling to come along in a generation." —Nathaniel Philbrick The epic history of the "iron men in wooden boats" who built an industrial empire through the pursuit of whales. "To produce a mighty book, you must choose a mighty theme," Herman Melville proclaimed, and this absorbing history demonstrates that few things can capture the sheer danger and desperation of men on the deep sea as dramatically as whaling. Eric Jay

Dolin begins his vivid narrative with Captain John Smith's botched whaling expedition to the New World in 1614. He then chronicles the rise of a burgeoning industry—from its brutal struggles during the Revolutionary period to its golden age in the mid-1800s when a fleet of more than 700 ships hunted the seas and American whale oil lit the world, to its decline as the twentieth century dawned. This sweeping social and economic history provides rich and often fantastic accounts of the men themselves, who mutinied, murdered, rioted, deserted, drank, scrimshawed, and recorded their experiences in journals and memoirs. Containing a wealth of naturalistic detail on whales, *Leviathan* is the most original and stirring history of American whaling in many decades.

The Mercy of Eternity Dec 01 2020 Recounts the author's continuing struggle with bipolar depression and finds, within the very illness that causes so much suffering, the resources for hope, forgiveness, and love.

The Manifested Melancholy Magnificent

May 26 2020 While watching his childhood friend put on makeup My Boy notices something different about her face. There is a bruise, perhaps placed there by her boyfriend. Impulsively he asks her to marry him. She says yes. *The Manifested Melancholy Magnificent* is the first-person telling of the life of a young man known to all as "My Boy." Through the eyes of family and friends over the course of a week's time his impulsive, inebriated, and yet often courageous life is on display for all to bare witness. Characters of his life include a mother and best friend who adore him, a father and aunt who loathe him, a self-conscious new bride, and additional madcaps and sages who offer hilarity, wisdom, and their own personal perspectives on life's tragedies and triumphs. This fictional tale of recklessness, psychosis, desperation, and opportunity is rolled into a darkly humorous account of Chicago's South Side in an almost ancient and unforgettable era. For many - nocturnal street urchins, clubbing dance hall kings and queens, and the proletarian populace - the 1980s were fraught with the pain and neglect of the unrealized dream of becoming a Huxtable numbed by alcohol, drugs, and the grinding, bass-thumping pulse of a new melodic sound known as House Music. Each chapter is

intricately linked creating a seamless tale between characters picking up from where the previous leaves off. Each character speaks directly to the reader without scene set-up or author interruption as if the character and the reader are in the same room. *The Manifested Melancholy Magnificent* contributes both historical and sociological perspectives of the oft-viewed superficial and fast-paced decade that at its heart was harsh, rhythmic, and beautifully somber.

Turkey Feb 03 2021 Starting with the basic question "what is this place?", award-winning journalist and novelist Ece Temelkuran guides us through her "beloved country". In challenging the authoritarian AKP government - for which she lost her job as a journalist - Temelkuran draws strength and wisdom from people, places and artistic expression. The result is a beautifully rendered account of the struggles, hopes and tragedies which make Turkey what it is today. Lamenting the commercialisation and authoritarianism which increasingly characterises Turkish society, Temelkuran sees hope in the Gezi Park protests of 2013, the electoral breakthrough of the progressive HDP party in 2015 and in the simple kindness of ordinary people. Much more than either straightforward history or memoir, *Turkey: the Insane the Melancholy* is like sitting with a friendly stranger who, over raki or coffee, reveals the secrets of this rich and complex country - the historic "bridge" between east and west.

"If The Little Prince had crash-landed, instead of in the Sahara, into a middle-class Jewish home in Maplewood, N.J. in the late 1960s, it might feel something like I Was a Child."—The Hollywood Reporter Bruce Eric Kaplan, also known as BEK, is one of the most

celebrated and admired cartoonists in America. *I Was a Child* is the story of his childhood in suburban New Jersey, detailing the small moments we all experience: going to school, playing with friends, family dinners, watching TV on a hot summer night, and so on. It would seem like a conventional childhood, although Kaplan's anecdotes are accompanied by his signature drawings of family outings and life at home—road trips, milk crates, hamsters, ashtrays, a toupee, a platypus, and much more. Kaplan's cartoons, although simple, are never straightforward; they encompass an easy irony and dark humor that often cuts straight to the truth of experience. Brilliantly relatable and genuinely moving, *I Was a Child* is about our attempts to understand the mysteries that are our parents, our families, and ourselves.

[Against Happiness](#) Feb 27 2023 Americans are addicted to happiness. When we're not popping pills, we leaf through scientific studies that take for granted our quest for happiness, or read self-help books by everyone from armchair philosophers and clinical psychologists to the Dalai Lama on how to achieve a trouble-free life: *Stumbling on Happiness*; *Authentic Happiness: Using the New Positive Psychology to Realize Your Potential for Lasting Fulfillment*; *The Art of Happiness: A Handbook for Living*. The titles themselves draw a stark portrait of the war on melancholy. More than any other generation, Americans of today believe in the transformative power of positive thinking. But who says we're supposed to be happy? Where does it say that in the Bible, or in the Constitution? In *Against Happiness*, the scholar Eric G. Wilson argues that melancholia is necessary to any thriving culture, that it is the muse of great literature, painting, music, and innovation—and that it is the force underlying original insights. Francisco Goya, Emily Dickinson, Marcel Proust, and Abraham Lincoln were all confirmed melancholics. So enough Prozac-ing of our brains. Let's embrace our depressive sides as the wellspring of creativity. What most people take for contentment, Wilson argues, is living death, and what the majority takes for depression is a vital force. In *Against Happiness: In Praise of Melancholy*, Wilson suggests it would be better to relish the blues that make humans people.

On Creaturely Life Apr 17 2022 In his *Duino Elegies*, Rainer Maria Rilke suggests that animals enjoy direct access to a realm of being—the open—concealed from humans by the workings of consciousness and self-consciousness. In his own reading of Rilke, Martin Heidegger reclaims the open as the proper domain of human existence but suggests that human life remains haunted by vestiges of an animal-like relation to its surroundings. Walter Benjamin, in turn, was to show that such vestiges—what Eric Santner calls the creaturely—have a biopolitical aspect: they are linked to the processes that inscribe life in the realm of power and authority. Santner traces this theme of creaturely life from its poetic and philosophical beginnings in the first half of the twentieth century to the writings of the enigmatic German novelist W. G. Sebald. Sebald's entire oeuvre, Santner argues, can be seen as an archive of creaturely life. For Sebald, the work on such an archive was inseparable from his understanding of what it means to engage ethically with another person's history and pain, an engagement that transforms us from indifferent individuals into neighbors. An indispensable book for students of Sebald, *On Creaturely Life* is also a significant contribution to critical theory.

My Business Is to Create Jul 08 2021 For William Blake, living is creating, conforming is death, and “the imagination . . . is the Human Existence itself.” But why are imagination and creation—so vital for Blake—essential for becoming human? And what is imagination? What is creation? How do we create? Blake had answers for these questions, both in word and in deed, answers that serve as potent teachings for aspiring writers and accomplished ones alike. Eric G. Wilson's *My Business Is to Create* emulates Blake, presenting the great figure's theory of creativity as well as the practices it implies. In both his life and his art, Blake provided a powerful example of creativity at any cost—in the face of misunderstanding, neglect, loneliness, poverty, even accusations of insanity. Just as Los cries out in *Jerusalem: The Emanation of the Giant Albion*, “I must Create a System, or be enslav'd by another Man's; / I will not Reason and Compare: my business is to Create,” generations of writers and artists as

diverse as John Ruskin, William Butler Yeats, Allen Ginsberg, Philip K. Dick, songwriter Patti Smith, the avant-garde filmmaker Jim Jarmusch, and the underground comic-book artist R. Crumb have taken Blake's creed as inspiration. Unwilling to cede his vision, Blake did more than simply produce iconoclastic poems and paintings; he also cleared a path toward spiritual and ethical enlightenment. To fashion powerful art is to realize the God within and thus to feel connected with enduring vitality and abundant generosity. This is Blake's everlasting gospel, distilled here in an artist's handbook of interest to scholars, writing teachers, and those who have made writing their way of life. My Business Is to Create is indispensable for all serious artists who want to transform their lives into art and make their art more alive.
