More Questions & Answers With Rick Renner Most of us have questions about God, the Bible, and life that we wonder about and keep on the "back burner" of our hearts and minds. Rick Renner has taught a Q & A series in the past, but in this brand-new five-part series, he tackles more questions that have been sent to him by people around the world. In his typical direct style backed by solid teaching from the Bible, Rick answers such questions as: Are we in pre-Tribulation times right now, or are we actually in the Tribulation? What is the "falling away" in Second Thessalonians 2:3? Does the Bible make any references to UFOs? What is the Judgment Seat of Christ? Is there any such thing as a generational curse? Can people be translated by the Spirit from one location to another? And more! In this series, Rick answers six questions about the end times; seven questions about faith and Bible doctrine; six questions relating to supernatural manifestations; four questions about prayer; and five questions about miscellaneous topics, such as hell and whether believers should consume alcohol. This series is chock-full of intelligent answers based on God's Word. Maybe you'll find the answer to one of your questions! Grade 6 Science Study Guide with Answer Key: Trivia Questions Bank,

What if your job was to thwart humans and to keep those humans from finding God? How would you do it? CS Lewis' devious little book "The Screwtape Letters" records the fictitious letters between two demons discussing this very issue. What the story is REALLY about is what makes humans succeed or fail in their search for God. It is about where, how, and why humans are weak. It is about the sneaky, unexpected parts of our lives that can either destroy us or lead us to fulfillment in God. This Best-Selling study guide and workbook unpacks the major lessons Lewis emphasizes and applies these lessons to our daily lives. A sound understanding of public international law is indispensable for any lawyer, whether working in an international or domestic context. It is therefore important that students have a thorough theoretical understanding of international law issues, and are able to apply the relevant international legal rules to a given set of facts, so as to arrive at a legally coherent conclusion. This practical aspect of learning international law is often neglected in favour of more theoretical aspects - which is where this book comes in. The book offers a series of hypothetical practical cases in public international law, including some of its specialised branches, such as international human rights law and international criminal law. It challenges students to practise and familiarise themselves with the methodology and to write solutions to practical international legal questions. The book is in two parts: part one contains practical (exam-like) questions, while part two contains the solutions. The practical questions in part one are organised by subject, such as treaty law or state responsibility. One chapter is dedicated to more complex 'interconnected' cases, where students are asked to tackle problems which span multiple potential cases and topics. ENDORSEMENT 'An extremely interesting and innovative text that students studying Public International Law should find invaluable.' Associate Professor Joanne Sellick Associate Dean for Teaching and Learning, University of
