of one student, "Subject & Strategy made my freshman year of college much easier. I learned how to actually read, not just say the words but to look deep into them and understand what the writer is trying to tell us." The classic reader that has introduced millions of students to the essay as a genre. For courses in first-year composition. This version of *The Prose Reader: Essays for Thinking, Reading and Writing* has been updated to reflect the 8th Edition of the *MLA Handbook* (April 2016)* Organized by rhetorical modes to showcase contemporary works by diverse authors Lucid writing follows lucid thinking - and *The Prose Reader, Eleventh Edition* helps students think more clearly and logically in their minds and on paper. Organized by rhetorical pattern, this reader builds upon critical thinking as the foundation for close reading and effective writing. Numerous discussion questions and writing assignments for each selection lead students from literal-level responses to interpretation and analysis. These questions, and the essays they frame, immerse students in some of the best examples of professional prose available today. * The 8th Edition introduces sweeping changes to the philosophy and details of MLA works cited entries.

Responding to the "increasing mobility of texts," MLA now encourages writers to focus on the process of crafting the citation, beginning with the same questions for any source. These changes, then, align with current best practices in the teaching of writing which privilege inquiry and critical thinking over rote recall and rule-following. *Marketing: Real People, Real Choices* brings you and your students into the world of marketing through the use of real companies and the real-life marketing issues that they have faced in recent times. The authors explain core concepts and theories in *Marketing*, while allowing the reader to search for the information and then apply it to their own experiences as a consumer, so that they can develop a deeper understanding of how marketing is used every day of the week, in every country of the world. The new third edition is enhanced by a strong focus on Value Creation and deeper coverage of modern marketing communications practices. For over forty years, *Theories of Human Communication* has facilitated the understanding of the theories that define the discipline of communication. The authors present a comprehensive summary of major communication theories, current research, extensions, and applications in a thoughtfully organized and engaging style. Part I of the extensively updated twelfth edition sets the stage for how to think about and study communication. The first chapter establishes the foundations of communication theory. The next chapter reviews four frameworks for organizing the theories and their contributions to the nature of inquiry. Part II covers theories centered around the communicator, message, medium, and communication with the nonhuman. Part III addresses theories related to communication contexts—relationship, group, organization, health, culture, and society. "From the Source" contributions from theorists provide insight into the inspirations, motivations, and goals behind the theories. Online instructor's resource materials include sample syllabi, key terms, exam questions, and text graphics. The theories include those important for their

continuing influence in the field as well as emerging theories that encourage thinking about issues in new ways. For a reasonable price, readers are able to explore the patterns, trends, trajectories, and intricacies of the landscape of communication theory and will have an invaluable resource for future reference. *Ideals and Ideologies: A Reader* is a comprehensive compilation of classic and contemporary readings representing all of the major "isms." It offers students a generous sampling of key thinkers in different ideological traditions and places them in their historical and political contexts. Used on its own or with *Political Ideologies and the Democratic Ideal*, the anthology accounts for the different ways people use ideology and conveys the continuing importance of ideas in politics. New to this 11th Edition: Alexander Keyssar, "Voter Suppression, Then and Now" (a distinguished historian traces the tawdry history of attempts, successful and unsuccessful, to disenfranchise voters). Andrew Sullivan, "Democracies End When They Become Too Democratic" (an eminent conservative commentator and author argues that, under certain circumstances, democracies pose a danger to their very own existence). Timothy Egan, "The Dumbed Down Democracy" (a prominent author and columnist argues that American democracy has been "dumbed down" due, in large part, to the absence of civic education in the public school curriculum). Max Boot and David Brooks, "Conservatives Assess Trump" (two leading contemporary conservatives ponder the fundamental ideological problems the current president poses for the movement, and consider the ways in which Donald Trump is—and isn't—a true conservative). Eugene V. Debs, "Speech to the Conference for Progressive Political Action" (an early 20th-century American socialist and former presidential candidate articulates his vision for a new workers' party that would challenge capitalism in the United States). Robert Kagan, "This is How Fascism Comes to America" (a prominent neoconservative historian detects disturbing parallels between the rise of Donald

Trump and that of various interwar fascists). Erik Loomis, "A New Chapter in the Black Liberation Movement" (an American historian makes the case for Black Liberation with a particularly compelling case study: how prisoners (mainly black) work essentially as slaves in both public and for-profit prisons in the United States). Black Lives Matter, "A Vision for Black Lives: Demands for Black Power, Freedom & Justice" (leaders of the Black Lives Matter movement set forth their basic ideological beliefs and public policy prescriptions). Josephine Livingstone, "The Task Ahead for Feminism" (the author argues that much remains to be done after the #MeToo movement).
