Governments have always endured economic woes, but the increasing severity of such challenges, from the Great Recession starting in 2008 to the unprecedented impact of the COVID-19 pandemic, highlights the need for better-developed fiscal analysis capacity in governments of all sizes using the most practical—yet robust—techniques available. The 4 States of Consciousness Aug 05 2021 Every living thing with a brain has some form of Consciousness, or an awareness of who or what they are and the role they play in the universe. But few of the living really know what to do with that information. Electrons make up the first state of Consciousness. We now know that they can learn about each other and bind together for life like a marriage in what's known as 'Entanglements.' Whenever the state of one 'Entangled' electron is changed, the other one in the pair knows about it and it changes instantly to show unification. This happens instantly no matter how far away the two may be from one another. How do they know? The only answer is 'Consciousness'. From there, the forces of Nature allow the Electrons to pass their subatomic level of Consciousness up to the level of Atoms, structured out of the building blocks of the electrons, protons, etc. From there, the Atoms, or Elements are able to pass up their form of Consciousness to the molecular level. Remember the Avogadro's Number? From the molecular level, molecules are able to pass on their level of Consciousness to all living things, the 4th and highest State of Consciousness for all living things - what I call the Feedback Loop. We are all part of that loop. It's a loop because even at the highest level of Consciousness, we still use Electrons to create and transport our thoughts throughout our brains. This book is an answer to some of the greatest questions of all time and they are: 'Where do we come from?' 'Why are we

here?' and 'What can we do about it?'

American Civil War Armies (4) Aug 25 2020 "The War between the States" is the term used for the American Civil War (1861-1865) throughout much of the South even today. Many on both sides – not just the South – felt that they were serving their states as much, if not more, than their central governments. Many of the states agreed; the state governments raising their own units, commissioning their officers, and supplying their men. Indeed, many of the units that fought the Civil War were supplied in

large part by their own states rather than by the central government's quartermasters. Philip Katcher's fascinating text explores the uniforms of 32 states; from Alabama to Wisconsin. Pedophilia & Empire Jun 22 2020 This book is also available free online at <https://pedoempire.org> where all chapters appear in full text so that they may be easily read in multiple foreign languages. A tag cloud and videos are also available at <https://pedoempire.org>. When Lin Wood, one of the top defamation lawyers in America talks opening about the possibility that both Mike Pence and Chief Justice John Roberts may be pedophiles who have been blackmailed by foreign powers, the world has changed. Pedophilia, child abuse including torture, and murderous pedophilia have been the most "taboo" topic in the civilized world. This five book series that will also be converted into a documentary video, ends forever the secrecy that has been maintained by the Deep State as it has used pedophilia and Satanic Ritual Abuse (SRA) to recruit and control key individuals in government (both executive and legislative) and in the judiciary, at national, state, and local levels. Pedophilia and murderous pedophilia have -- along with bribery and outright extortion (do what we say or die) -- been used to control all international organizations including all elements of the United Nations, particularly UNICEF and WHO, and all major financial institutions including the World Bank, the IMF, and all Central Banks that are in fact private enterprises whose primary purpose is to "legally" steal hundreds of trillions of dollars from pension funds and small businesses. This book, Book 4 in the series, focuses on North America. The United Kingdom, covered in Book 2 and the Rothchilds covered in Book 3, remain the center of the Satanic Ritual Abuse ((SRA) and murderous pedophilia regime, but the "colonies" have been deeply corrupted by the UK and the Rothchilds. Book 5 will focus on

the rest of the world including Australia, where the Prime Ministers at the national and provincial levels are richly deserving of measured public scrutiny. The truth at any cost lowers all other costs. What has changed in 2016-2020 is the Great Awakening. The public now understands, from Australia to Zimbabwe, that the truth is not to be had from academia, the government, media, or non-profits. The truth can only emerge from the Collective Intelligence of the public, in conversation, deeply rooted in the ethical conviction that faith, family, farms, and freedom are central to the human experience. What has been done to children has systematically and with great impunity subverted human civilization. The Great Awakening is rooted in public appreciation of the crimes against humanity by the Commonwealth governments and their covert partner the USA, and a public commitment to #SaveTheChildren for the future.
