"This three-volume Manual on International Maritime Law presents a systematic analysis of the history and contemporary development of international maritime law by leading contributors from across the world. Prepared in cooperation with the International Maritime Law Institute, the International Maritime Organization's research and training institute, this a uniquely comprehensive study of this fundamental area of international law. Volume I: The Law of the Sea addresses the major issues which arise in the law of the sea. It provides a detailed understanding of the historical development of the law of the sea; the role of the International Maritime Organization; the law surrounding maritime zones; the legal regime of islands; the international sea-bed area; the legal regime governing marine scientific research; the rights and obligations of land-locked and geographically disadvantaged states; the legal regime of Arctic and Antarctic; and the settlements of disputes. This volume also considers the ways in which human rights and the law of the sea interact." -- Over 36,000 total pages Just a SAMPLE of the CONTENTS by File Number and TM Number:: 013511 TM 5-6115-323-24P 4 GENERATOR SET, GASOLINE ENGINE DRIVEN, SKID MOUNTED, TUBULAR FRAME, 1.5 K SINGLE PHASE, AC, 120/240 V, 28 VDC (LESS ENGINE) DOD MODELS MEP-015A, 60 HZ (NSN 6115-00-889-1446) AND (DOD MODEL MEP-025A) 28 VDC (6115-00-017-8236) (TO 35C2-3-385-4; SL 4-07609A/07610A) 013519 TM 5-6115-329-25P 1 GENERATOR SET, GASOLINE ENGINE DR (LESS ENGINE) 0.5 KW, AC, 120/240 V, 60 HZ, 1 PHASE (DOD MODEL (FSN 6115-923-4469); 400 HZ (MODEL MEP-019A) (6115-940-7862) AN DC (MODEL MEP-024A) (6115-940-7867) (TO 35C2-3-440-14) 013537 TM 5-6115-457-12 7 GENERATOR SET, ENGINE DRIVEN, TACTICAL, SKID MTD; 100 KW, 3 PHASE, 4 WIRE, 120 240/416 V (DOD MODELS MEP-007A), UTILITY CLASS, 50/60 HZ (NSN 6115-00-133-9101), (MODEL MEP-106A) PRECISE CLASS, 50/60 H (6115-00-133-9102), (MODEL MEP-116A) PRECISE CLASS, 400 KW (6115-00-133-9103) INCLUDING OPTIONAL KITS (MODEL MEP-007 AWF) WINTERIZATION KIT, FUEL BURNING (6115-00-463-9082), (MEP-007AWE WINTERIZATION KIT, ELECTRIC (6115-00-463-9084), (MODEL MEP-007A DUMMY LOAD KIT (6115-00-463-9086) AND (MODEL MEP-007AWM) WHEEL 013538 TM 5-6115-457-34 12 GENERATOR SET, DIESEL ENGINE DRIVEN, TACTICAL SKID 100 KW, 3 PHASE, 4 WIRE, 120/208 AND 240/416 V (DOD MODELS MEP0 UTILITY CLASS, 50/60 HZ (NSN 6115-00-133-9101); (MODEL MEP106A) CLASS, 50/60 HZ (6115-00-133-9102) AND (MODEL MEP116A), PRECISE 400 HZ (6115-00-133-9103); INCLUDING OPTIONAL KITS (DOD MODELS MEP007AWF) WINTERIZATION KIT, FUEL BURNING (6115-00-463-9082); MEP007AWE) WINTERIZATION KIT,

A possible life-saving reference to keep around the house or in the car, DK's First Aid Manual looks at more than 100 different conditions, from splinters and sprained ankles to strokes and unconsciousness, and shows exactly what to do with step-by-step photographic sequences. Every condition is clearly explained, outlining causes, symptoms, and signs, and action plans. The updated design makes the instructions easier to follow, whether you need information on emergency first aid, first aid for babies and children, or tips on resuscitation. This ACEP First Aid Manual is an invaluable resource to keep you and your loved ones safe and healthy. The U.S. detention center at Guantánamo Bay has long been synonymous with torture, secrecy, and the abuse of executive power. It has come to epitomize lawlessness and has sparked protracted legal battles and political debate. For too long, however, Guantánamo has been viewed in isolation and has overshadowed a larger, interconnected global detention system that includes other military prisons such as Bagram Air Base in Afghanistan, secret CIA jails, and the transfer of prisoners to other countries for torture. Guantánamo is simply—and alarmingly—the most visible example of a much larger prison system designed to operate outside the law. Habeas Corpus after 9/11 examines the rise of the U.S.-run global detention system that emerged after 9/11 and the efforts to challenge it through habeas corpus (a petition to appear in court to claim unlawful imprisonment). Habeas expert and litigator Jonathan Hafetz gives us an insider's view of the detention of "enemy combatants" and an accessible explanation of the complex forces that keep these systems running. In the age of terrorism, some argue that habeas corpus is impractical and unwise. Hafetz advocates that it remains the single most important check against arbitrary and unlawful detention, torture, and the abuse of executive power. The Sea Survival Manual is the definitive book on the subject for anyone aboard an ocean-going boat of any size. It is aimed at the yachtsman or seafarer who is likely to proceed to sea out of the sight of land, whether for pleasure or professional reasons. The book includes chapters on safety and survival equipment, Global Maritime Distress and Safety Systems (GMDS), life

rafts, grab bags, medical equipment and advice, first aid and emergency treatment, abandoning ship, survival in a life raft and rescues at sea. Fully compliant with the IMO (International Maritime Organization) resolutions and United States Coast Guard (USCG) regulations. It is completely international in its appeal. This three-volume Manual on International Maritime Law presents a systematic analysis of the history and contemporary development of international maritime law by leading contributors from across the world. Prepared in cooperation with the International Maritime Law Institute, the International Maritime Organization's research and training institute, this a uniquely comprehensive study of this fundamental area of international law. Volume I: The Law of the Sea addresses the major issues which arise in the law of the sea. It provides a detailed understanding of the historical development of the law of the sea; the role of the International Maritime Organization; the law surrounding maritime zones; the legal regime of islands; the international sea-bed area; the legal regime governing marine scientific research; the rights and obligations of land-locked and geographically disadvantaged states; the legal regime of Arctic and Antarctic; and the settlements of disputes. This volume also considers the ways in which human rights and the law of the sea interact. The forthcoming Volume II will address shipping law; Volume III will provide analysis of marine environmental law and maritime security law. The full three-volume Manual will set out the entirety of international maritime law, re-stating and re-examining its fundamental principles, how it is enacted, and the issues that are shaping its future. It will be a superlative resource for those working with or studying this area of law. The Manual of Biocorrosion explains the microbiology, electrochemistry, and surface phenomena involved in biocorrosion and biofouling processes. Written primarily for non-specialists, the information in this manual is practical and offers a comprehensive look at the three components of biocorrosion: the microorganisms, the metal, and the aqueous environment. It also addresses methods for the monitoring, prevention, and control of biocorrosion. The first part of the book covers the fundamental aspects of microbiology, electrochemistry, and biofouling of metal surfaces. The second half describes biocorrosion assessment in the laboratory and the field, the main control and mitigation procedures used, practical case studies, and laboratory methods and formulations. The Manual of Biocorrosion is the book the industrial sector (water treatment plants, oil refineries, etc.) has been waiting for, providing the basics for implementing prevention, control, and mitigation procedures. In addition, it covers the latest industry trends with discussions of biocide selection, strategies for treating biocorrosion without harming the environment, and the latest monitoring programs. The academic sector will benefit as well from the up-to-date information on mechanisms and recent advances in all biocorrosion aspects and technology. Research trends such as the application of surface analysis techniques and modern electron microscopy, the use of conventional and innovative electrochemical techniques for assessment, and microbial inhibition of corrosion are all considered. Features 100 illustrations provide you with a visual understanding of the problems and techniques discussed 30 tables give you quick access to data 46 suggested readings provide references on books, conference and workshop proceedings, and special issues of scientific journals and technical publications specifically devoted to biocorrosion and biofouling 454 references offer a wide selection of up-to-date sources on specific subjects Laboratory methods and formulations provide practical information for research and field work Combination of information from a number of specialized fields presents a comprehensive view of biocorrosion Chapters contain a "Key Features" section that summarizes conclusions and highlights key points A glossary of terms presents easy-to-understand explanations of terms used in biocorrosion for the non-specialist This three-volume Manual on International Maritime Law presents a systematic analysis of the history and contemporary development of international maritime law by leading contributors from across the world. Prepared in cooperation with the International Maritime Law Institute, the International Maritime Organization's research and training institute, this a uniquely comprehensive study of this fundamental area of international law. Volume II: Shipping Law provides a detailed understanding of the historical development of shipping law looking at concepts, sources, and international organisations relating to shipping law; nationality, registration and ownership of ships; ship sale and shipping contracts; ship management and ship finance; arrest of ships; international trade and shipping documents; carriage of goods, passengers and their luggage by sea; maritime labour law; law of maritime safety; law of marine collisions; law of salvage; law of wrecks; law of general average; law of towage; law of harbours and pilotage; limitation of liability for maritime claims; and law of marine insurance. Volume II published in October 2014 addresses the major issues which arise in the law of the sea. The forthcoming Volume III will provide analysis of marine environmental law and maritime security law. The full three-volume Manual will set out the entirety of international maritime law, re-stating and re-

examining its fundamental principles, how it is enacted, and the issues that are shaping its future. It will be a superlative resource for those working with or studying this area of law. Annual. Continues United States Government organization manual. This manual, first published in 1918, was prepared for the guidance and instruction of Apprentices on the Training Ships. It covers any aspect of traditional seamanship. This book continues to tell the story of the U.S. Marine Corps' involvement in what were called "Small Wars" beginning after World War II with their advisory efforts with the Netherlands Marine Corps (1943-1946); Marine Corps' Counterinsurgency efforts during the Korean War (1950-1953); the development of vertical assault in the late 1940s, 1950s, and 1960s in Vietnam; Marine Corps Counterinsurgency in Southeast Asia, 1962 thru 1975; involvement in Central America 1983-1989; and the current conflicts including the War on Terror, Operations Iraqi Freedom and 'Enduring Freedom', Libya; U.S. marine Corps force structure, 1980-2015, and a special chapter on marines and War Dogs in combat operations. Based on extensive research and analysis, the book illustrates the Marine Corps' contribution to the current, on-going efforts in the Middle East and Africa in combatting global terrorism. The only book of its kind with in-depth coverage of the most common exotic species presented in practice, this comprehensive guide prepares you to treat invertebrates, fish, amphibians and reptiles, birds, marsupials, North American wildlife, and small mammals such as ferrets, rabbits, and rodents. Organized by species, each chapter features vivid color images that demonstrate the unique anatomic, medical, and surgical features of each species. This essential reference also provides a comprehensive overview of biology, husbandry, preventive medicine, common disease presentations, zoonoses, and much more. Other key topics include common health and nutritional issues as well as restraint techniques, lab values, drug dosages, and special equipment needed to treat exotics. Brings cutting-edge information on all exotic species together in one convenient resource. Offers essential strategies for preparing your staff to properly handle and treat exotic patients. Features an entire chapter on equipping your practice to accommodate exotic species, including the necessary equipment for housing, diagnostics, pathology, surgery, and therapeutics. Provides life-saving information on CPR, drugs, and supportive care for exotic animals in distress. Discusses wildlife rehabilitation, with valuable information on laws and regulations, establishing licensure, orphan care, and emergency care. Includes an entire chapter devoted to the emergency management of North American wildlife. Offers expert guidance on treating exotics for practitioners who may not be experienced in exotic pet care. "An immensely useful manual with many attractive features: comprehensive and lucid keys, precise diagrams, annotated checklists and up-to-date references. ... there is no doubt that it should be seen as an example of the type of manual which is so badly needed in the study of the fauna of many shores around the world."--Journal of Animal Ecology "Congratulations to the editors, contributors, and publisher for a job well done. The third edition has been rewritten, corrected, and enlarged, so that while retaining the basic organization of the earlier ones, it is more useful, informative and up-to-date. The meticulous scholarship of Smith and Carlton is just what the revision needed."--Systematic Zoology "This revision should serve for many years. It is therefore particularly commendable that the editing has been meticulous, perhaps flawless. ... thanks are due to the many contributors for a job well done."--The Quarterly Review of Biology "As the Pacific Coast intertidal zone undergoes increasingly profound changes, knowing the sentinel invertebrates can foretell the future of the sea, and hence, of our species. Jim Carlton's hefty new update of The Light & Smith Manual, the comprehensive compendium of who's who between the tides, is the best and quickest way to do so."--Elliot A. Norse, President, Marine Conservation Biology Institute "This much-anticipated modernization of "Light's Manual" is an astonishing accomplishment, blending state-of-the-art taxonomy with profusely illustrated and user-friendly keys to who's whom on marine shores from its stated boundaries of mid-California through Oregon, and clearly, much further north. It's also an informative, well referenced read. Marine biologists should not leave home without it."--Robert Paine, Professor Emeritus of Biology, University of Washington "At this time of environmental change and loss of biodiversity, species identification has never been more important. The fourth edition of Light and Smith is more than just a field guide--it is a masterwork of research and description with a strong focus on morphological detail. No other book has such a broad scope, newly expanded to include even the most obscure taxa. The revised keys and beautiful anatomical illustrations make this classic guide more indispensable than ever. As taxonomists become extinct, there are fewer students to receive the vast body of knowledge accumulated by generations of careful study. I hope that the beauty and depth of this guide will inspire a generation of young scientists to continue this critical taxonomic work. It will have a place of honor in all marine labs."--Paul K. Dayton, Scripps Institution of Oceanography

Eventually, you will agreed discover a additional experience and completion by spending more cash. yet when? reach you acknowledge that you require to get those all needs in the same way as having significantly cash?
