Such a Good Girl Feb 19 2020 Pretty Little Liars meets Luckiest Girl Alive in this riveting novel about a practically perfect girl who is willing to do anything to

make sure it stays that way. Absolutely anything. Things to know about Riley Stone: Riley Stone is just about perfect. (Ask anyone.) She has a crush on her French teacher, Alex Belrose. (And she suspects he likes her, too.) Riley has her entire life planned out. (The plan is nonnegotiable.) She's never had a secret she couldn't keep. (Not ever.) Riley is sure that her life is on the right track. (And nothing will change that.) She's nothing like a regular teenager. (But she doesn't have any problem admitting that.) Riley doesn't usually play games. (But when she does, she always wins.) She thinks a game is about to start... But Riley always has a plan... And she always wins.

Current Controversies in Epistemology Jun 17 2022 Epistemology is one of the oldest, yet still one of the most active, areas of philosophical research today. There currently exists many annotated tomes of primary sources, and a handful of single-authored introductions to the field, but there is no book that captures epistemology's dynamic growth and lively debates for a student audience. In this volume, eight leading philosophers debate four topics central to recent research in epistemology: The A Priori: C. S. I. Jenkins and Michael Devitt The A Posteriori: Richard Fumerton and Nicholas Silins The Regress of Justification: Declan Smithies and Peter Klein Skepticism: Anthony Brueckner and Ernest Sosa Ram

Neta's introduction to the volume, descriptions of each chapter, annotated bibliographies for each controversy, and supplemental guide to further controversies in epistemology (with bibliographies) help provide clearer and richer views of active controversies for all readers.

The Netflix Effect Oct 17 2019 Netflix is the definitive media company of the 21st century. It was among the first to parlay new Internet technologies into a successful business model, and in the process it changed how consumers access film and television. It is now one of the leading providers of digitally delivered media content and is continually expanding access across a host of platforms and mobile devices. Despite its transformative role, however, Netflix has drawn very little critical attention-far less than competitors such as YouTube, Apple, Amazon, Comcast, and HBO. This collection addresses this gap, as the essays are designed to critically explore the breadth and diversity of Netflix's effect from a variety of different scholarly perspectives, a necessary approach considering the hybrid nature of Netflix, its inextricable links to new models of media production, distribution, viewer engagement and consumer behavior, its relationship to existing media conglomerates and consumer electronics, its capabilities as a web-based service provider and data

network, and its reliance on a broader technological infrastructure.

Multipoint Methods for Solving Nonlinear Equations

Jun 24 2020 This book is the first on the topic and explains the most cutting-edge methods needed for precise calculations and explores the development of powerful algorithms to solve research problems. Multipoint methods have an extensive range of practical applications significant in research areas such as signal processing, analysis of convergence rate, fluid mechanics, solid state physics, and many others. The book takes an introductory approach in making qualitative comparisons of different multipoint methods from various viewpoints to help the reader understand applications of more complex methods. Evaluations are made to determine and predict efficiency and accuracy of presented models useful to wide a range of research areas along with many numerical examples for a deep understanding of the usefulness of each method. This book will make it possible for the researchers to tackle difficult problems and deepen their understanding of problem solving using numerical methods. Multipoint methods are of great practical importance, as they determine sequences of successive approximations for evaluative purposes. This is especially helpful in achieving the highest computational efficiency. The rapid

development of digital computers and advanced computer arithmetic have provided a need for new methods useful to solving practical problems in a multitude of disciplines such as applied mathematics, computer science, engineering, physics, financial mathematics, and biology. Provides a succinct way of implementing a wide range of useful and important numerical algorithms for solving research problems Illustrates how numerical methods can be used to study problems which have applications in engineering and sciences, including signal processing, and control theory, and financial computation Facilitates a deeper insight into the development of methods, numerical analysis of convergence rate, and very detailed analysis of computational efficiency Provides a powerful means of learning by systematic experimentation with some of the many fascinating problems in science Includes highly efficient algorithms convenient for the implementation into the most common computer algebra systems such as Mathematica, MatLab, and Maple

The Divine in Modern Hebrew Literature Feb 13 2022
Demonstrating the pervasive presence of God in modern Hebrew literature, this book explores the qualities that twentieth-century Hebrew writers attributed to the divine, and examines their functions against the simplistic dichotomy between religious and

secular literature. The volume follows both chronological and thematic paths, offering a panoramic and multilayered analysis of the various strategies in which modern Hebrew writers, from the turn of the nineteenth century through the twenty-first century pursued in their attempt to represent the divine in the face of metaphysical, theological, and representational challenges. Modern Hebrew literature emerged during the nineteenth century as part of the Haskalah (Jewish Enlightenment) movement, which attempted to break from the traditional modes of Jewish intellectual and social life. The Hebrew literature that arose in this period embraced the rebellious nature of the Haskalah and is commonly characterized as secular in nature, defying Orthodoxy and rejecting God. Nevertheless, this volume shows that modern Hebrew literature relied on traditional narratological and poetic norms in its attempt to represent God. Despite its self-declared secularity, it engaged deeply with traditional problems such as the nature of God, divine presence, and theodicy. Examining these radical changes, this volume is a key text for scholars and students of modern Hebrew literature, Jewish studies and the intersection of religion and literature.

Who Was Amelia Earhart? Dec 19 2019 Amelia Earhart was a woman of many "firsts." In 1932, she

became the first woman to fly solo across the Atlantic Ocean. In 1935, she also became the first woman to fly across the Pacific. From her early years to her mysterious 1937 disappearance while attempting a flight around the world, readers will find Amelia Earhart's life a fascinating story.

Failure Sep 27 2020 Wall Street and Silicon Valley - the two worlds this book examines - promote the illusion that scarcity can and should be eliminated in the age of seamless "flow." Instead, Appadurai and Alexander propose a theory of habitual and strategic failure by exploring debt, crisis, digital divides, and (dis)connectivity. Moving between the planned obsolescence and deliberate precariousness of digital technologies and the "too big to fail" logic of the Great Recession, they argue that the sense of failure is real in that it produces disappointment and pain. Yet, failure is not a self-evident quality of projects, institutions, technologies, or lives. It requires a new and urgent understanding of the conditions under which repeated breakdowns and collapses are quickly forgotten. By looking at such moments of forgetfulness, this highly original book offers a multilayered account of failure and a general theory of denial, memory, and nascent systems of control.

Who Is My Shelter? Dec 23 2022 Gabby knows God is the God of second chances. But can she give one to

the man who betrayed her? When she was thrown out of the penthouse she shared with her husband and their sons, Gabby didn't know if she'd ever find a soft place to land. But after seeking refuge at the shelter where she works, extraordinary things happen as she is reintroduced to God. From the ashes of her marriage comes the House of Hope—a safe haven for homeless moms and their children. But now those ashes of her destroyed marriage are being stirred again. When her long-gone husband's life hits rock bottom, he reappears and asks for one more chance. And Gabby faces what feels like an impossible choice. Take him back. Or keep moving forward without him. Toward someone new who hasn't betrayed her. Is God redeeming what Gabby thought was gone forever? Or is He leading her down a different path and giving her something—and someone—new?

Exotic Fruits Reference Guide Nov 17 2019 Exotic Fruits Reference Guide is the ultimate, most complete reference work on exotic fruits from around the world. The book focuses on exotic fruit origin, botanical aspects, cultivation and harvest, physiology and biochemistry, chemical composition and nutritional value, including phenolics and antioxidant compounds. This guide is in four-color and contains images of the fruits, in addition to their regional names and geographical locations. Harvest and post-harvest

conservation, as well as the potential for industrialization, are also presented as a way of stimulating interest in consumption and large scale production. Covers exotic fruits found all over the world, described by a team of global contributors Provides quick and easy access to botanical information, biochemistry, fruit processing and nutritional value Features four-color images throughout for each fruit, along with its regional name and geographical location Serves as a useful reference for researchers, industrial practitioners and students

Heparanase Mar 02 2021 Written by internationally recognized leaders in Heparanase biology, the book's eight chapters offer an opportunity for scientists, clinicians and advanced students in cell biology, tumor biology and oncology to obtain a comprehensive understanding of Heparanase's multifaceted activities in cancer, inflammation, diabetes and other diseases, as well as its related clinical applications. Proteases and their involvement in cancer progression have been well addressed and documented; however, the emerging premise presented within this book is that Heparanase is a master regulator of aggressive cancer phenotypes and crosstalk with the tumor microenvironment. This endoglycosidase contributes to tumor-mediated remodeling of the extracellular matrix and cell surfaces, augmenting the

bioavailability of pro-tumorigenic and pro-inflammatory growth factors and cytokines that are bound to Heparan sulfate. Compelling evidence ties Heparanase with all steps of tumor progression including tumor initiation, growth, angiogenesis, metastasis, and chemoresistance, supporting the notion that Heparanase is an important contributor to the poor outcome of cancer patients and a validated target for therapy. Unlike Heparanase, heparanase-2, a close homolog of Heparanase, lacks enzymatic activity, inhibits Heparanase, and regulates selected genes that promote normal differentiation and tumor suppression. Written by internationally recognized leaders in Heparanase biology, this volume presents a comprehensive understanding of Heparanase's multifaceted activities in cancer, inflammation, diabetes and other diseases, as well as its related clinical applications to scientists, clinicians and advanced students in cell biology, tumor biology and oncology.

Arguing About Knowledge Jun 05 2021 What is knowledge? What are the sources of knowledge? What is the value of knowledge? What can we know? Arguing About Knowledge offers a fresh and engaging perspective on the theory of knowledge. This comprehensive and imaginative selection of readings examines the subject in an unorthodox and

entertaining manner whilst covering the fundamentals of the theory of knowledge. It includes classic and contemporary pieces from the most influential philosophers from Descartes, Russell, Quine and G.E. Moore to Richard Feldman, Edward Craig, Gilbert Harman and Roderick Chisholm. In addition, students will find fascinating alternative pieces from literary and popular work such as Lewis Carroll, Jorge Luis Borges and Paul Boghossian. Each article selected is clear, interesting and free from unnecessary jargon. The editors provide lucid introductions to each section in which they give an overview of the debate and outline the arguments of the papers. Arguing About Knowledge is an inventive and stimulating reader for students new to the theory of knowledge.

Uphill Both Ways May 16 2022 UPHILL BOTH WAYS
He left her a bike and a map-but why? Maggie Cooper and her husband had been looking forward to retirement together-but everything changed when "Coop" Cooper died suddenly of a heart attack while restoring his vintage motorcycle and sidecar. After decades of marriage and following God's call to get out of their comfort zone and immerse themselves in multi-cultural friendships and ministry . . . now what? Then Maggie discovers that Coop had had plans for a cross-country trip on that motorcycle to revisit the various stops on their life journey, though she

wasn't sure why. Nostalgia? A trip down memory lane? That didn't sound like Coop. Maybe the only way to find out was to honor her husband's wishes and take that trip-against everybody's advice. After all, she was sixty-five! Her kids thought she ought to just sell the bike, sell the house, and settle into a retirement village. But she knew at least two people who would say, "Go Maggie!" Her now-departed husband and her estranged youngest son. And God. Yes, Maggie had a sense God was up to something. Accompanied by her dog and an unexpected runaway, Maggie sets out on an unforgettable journey, and invites YOU to come along for the ride. "It's okay to look behind you. Sometimes it's the best way to get yourself home." -An African saying

Applications of Work Integrated Learning Among Gen Z and Y Students Mar 22 2020 It has become evident within higher education and within (or in partnership with) the workplace that there is a growing demand for an integration of learning within the workplace. Formal and intentional models and processes utilizing experiential learning methods and pedagogy are often referred to as work integrated learning. However, there is a vast cross-conceptualization evident within the field between concepts such as work-related learning (WRL), workplace learning (WPL), work-based learning (WBL), work integrated learning (WIL),

and experiential learning (EL). Furthermore, there are vast differences between different applications such as apprenticeships, higher degree apprenticeships (HDA), co-operative education (Coop), internships, placements, projects, sandwich courses, practicums, and more. There is a new focus on the impact of WIL on the future labor force, specifically of generations Z and Y. Applications of Work Integrated Learning Among Gen Z and Y Students presents educational and theoretical concepts related to WIL and Gen Z and Y students as a workforce. The chapters include coverage not only on these concepts, but in-depth research on the implications of WIL on these generations, educational themes in WIL, and WIL innovation. The topic of WIL and all its applications are covered in a global context and for all fields of work, focusing on the skills and expertise gained from the students of work-based learning along with insights on how work-based learning is implemented by teachers and educational administrations. This book is a valuable reference tool for in-service and preservice teachers, administrators, teacher educators, human resources and career development management, practitioners, stakeholders, researchers, academicians, and students interested in insight, theory, and practical examples of WIL from around the world and the impact these have within the workplace

as related to generations Y and Z.

Degrowth Jul 26 2020 Degrowth is a rejection of the illusion of growth and a call to repoliticize the public debate colonized by the idiom of economism. It is a project advocating the democratically-led shrinking of production and consumption with the aim of achieving social justice and ecological sustainability. This overview of degrowth offers a comprehensive coverage of the main topics and major challenges of degrowth in a succinct, simple and accessible manner. In addition, it offers a set of keywords useful for intervening in current political debates and for bringing about concrete degrowth-inspired proposals at different levels - local, national and global. The result is the most comprehensive coverage of the topic of degrowth in English and serves as the definitive international reference. More information at: vocabulary.degrowth.org View the author spotlight featuring events and press related to degrowth at <http://t.co/k9qbQpyuYp>.

The Maid Dec 11 2021 #1 NEW YORK TIMES BESTSELLER • GOOD MORNING AMERICA BOOK CLUB PICK • “A heartwarming mystery with a lovable oddball at its center” (Real Simple), this cozy whodunit introduces a one-of-a-kind heroine who will steal your heart. “The reader comes to understand Molly’s worldview, and to sympathize with her longing

to be accepted—a quest that gives The Maid real emotional heft.”—The New York Times Book Review (Editors’ Choice) “Think Clue. Think page-turner.”—Glamour ONE OF THE TEN BEST BOOKS OF THE YEAR: Reader’s Digest ONE OF THE BEST BOOKS OF THE YEAR: The Washington Post, The Guardian, Glamour, PopSugar, She Reads, Kirkus Reviews In development as a major motion picture produced by and starring Florence Pugh Molly Gray is not like everyone else. She struggles with social skills and misreads the intentions of others. Her gran used to interpret the world for her, codifying it into simple rules that Molly could live by. Since Gran died a few months ago, twenty-five-year-old Molly has been navigating life’s complexities all by herself. No matter—she throws herself with gusto into her work as a hotel maid. Her unique character, along with her obsessive love of cleaning and proper etiquette, make her an ideal fit for the job. She delights in donning her crisp uniform each morning, stocking her cart with miniature soaps and bottles, and returning guest rooms at the Regency Grand Hotel to a state of perfection. But Molly’s orderly life is upended the day she enters the suite of the infamous and wealthy Charles Black, only to find it in a state of disarray and Mr. Black himself dead in his bed. Before she knows what’s happening, Molly’s unusual demeanor has the

*police targeting her as their lead suspect. She quickly finds herself caught in a web of deception, one she has no idea how to untangle. Fortunately for Molly, friends she never knew she had unite with her in a search for clues to what really happened to Mr. Black—but will they be able to find the real killer before it's too late? A Clue-like, locked-room mystery and a heartwarming journey of the spirit, *The Maid* explores what it means to be the same as everyone else and yet entirely different—and reveals that all mysteries can be solved through connection to the human heart.*

Regulating a Revolution Jan 12 2022 In recent years, small satellites have taken the space industry by storm. Their short development times, low cost, significant miniaturisation, standardisation and commercial availability have truly revolutionised the space industry. They make space accessible to non-professionals and on an individual level. This book is the first to explore the status of small satellites vis-à-vis international space law, examining which provisions are applicable and what kind of legal issues the traditional definitions pose when considering novel small satellites activities. The author sheds clear light on current regulatory challenges raised by the commercial and research activities of small satellites as well as by governmental and military applications. She covers the legal implications in such aspects of

the small satellites revolution as the following: liability for damage caused or suffered by small satellites; State responsibility for non-governmental space activities employing small satellites; registration of space objects; launch practices; online availability of components and launch slots; the connection between small satellites and space debris; the role of space insurance; and legal challenges posed by large constellations of small satellites. In the course of the description and analysis, the author provides case studies showing how these challenges can be dealt with, offers deeply informed insights on emerging trends and future developments and indicates which jurisdictions may be most favourable to small satellite activities. The small satellites market is booming, and both States and industry are in need of guidance relating to the regulatory situation. Accordingly, this book will help stakeholders in the industry – universities, business entities and individuals, as well as non-commercial entities engaged in small satellites operations – understand what kind of regulatory challenges exist and what should be done in order to solve these challenges in the future.

War and Peace in the Ancient World Aug 27 2020 This book is the first to focus on war and peace in the ancient world from a global perspective. The first book to focus on war and peace in the ancient world Takes

a global perspective, covering a large number of early civilizations, from China, India and West Asia, through the Mediterranean to the Americas Features contributions from nineteen distinguished scholars, all of whom are experts in their fields Offers remarkable insights into the different ways in which ancient societies dealt with a common human challenge Requires no prior historical knowledge, making it suitable for non-specialists

Lucy Come Home Sep 20 2022 "Lucy Tucker, the crotchety old bag lady from the popular Yada Yada House of Hope series, is a veteran of the Chicago streets and not about to give up her independence, even as she approaches her 80th birthday. Until, that is, a young displaced woman with her gentle ageing mother and a dog named Dandy seem to need her--unsettling the secretive Lucy, who doesn't let anyone get too close. But just when it seems her past is catching up with her to bring her in out of the cold, Lucy disappears again"--Back cover.

Facing the Giants Apr 22 2020 IT'S BEEN SIX YEARS without a winning season and Coach Grant Taylor's job is on the line. Unless the Shiloh Christian Eagles turn things around—and fast—he's history. Unfortunately, their leading scorer has just left for a rival school and the team has lost its drive. The pressure is on. On the home front, things aren't much

better for Grant. His house is falling apart. His old clunker of a car keeps dying, and the coach and his wife have been unsuccessful in their attempts to start a family. But God is on the move—in many ways. When Grant receives a message from an unexpected visitor, he searches for a stronger purpose for his football team. When faced with unbelievable odds, Grant and his Shiloh Eagles must rise above their fear and step up to their greatest test of strength and courage.

Who Do I Lean On? Mar 14 2022 You can only walk forward when you learn how to lean. Just months after her husband threw her out of their penthouse and sent their two sons away, Gabrielle Fairbanks is finally getting back on her feet. She has a job she loves at the homeless shelter, an apartment for her and the boys, caring friends, and even a new love interest. Best of all, an unexpected windfall has given her a brand-new dream--a House of Hope for homeless mothers and their children. Piece by piece, Gabby's new life is coming together--but the old one keeps dragging her back. First her husband Philip hints at a reconciliation...then hits her up for a loan to pay his gambling debts. And when Gabby tells him no, he makes a desperate move that puts them all in harm's way. How can she even think of embarking on a new venture when so much is up in the air? Gabby is realizing that she needs something far greater than

her own strength or even that of her friends. That to move forward, she must first lean on the only One who knows what the future holds.

Pandemic Media Dec 31 2020 With its unprecedented scale and consequences the COVID-19 pandemic has generated a variety of new configurations of media. Responding to demands for information, synchronization, regulation, and containment, these "pandemic media" reorder social interactions, spaces, and temporalities, thus contributing to a reconfiguration of media technologies and the cultures and politics with which they are entangled.

Highlighting media's adaptability, malleability, and scalability under the conditions of a pandemic, the contributions to this volume track and analyze how media emerge, operate, and change in response to the global crisis and provide elements toward an understanding of the post-pandemic world to come.

To Seek Out New Worlds Sep 08 2021 This volume explores the science fiction/world politics intertext. Through detailed analyses of such texts as Blade Runner, Stalker, Star Trek, and Buffy the Vampire Slayer, the chapters in this volume examine the complex and sometimes contradictory relations between world politics, both as discipline and as practice, and discourses of science fiction. Offering a novel combination of popular culture analysis with

major theoretical and empirical issues concerning world politics, Science Fiction and World Politics provides insights into the discursive constitution of both science fiction and world politics while highlighting the occasional challenges that the science fiction/world politics intertext launches at our common sense.

Hero Tales Jul 18 2022 In this beautifully illustrated treasury, Dave and Neta Jackson present the true-life stories of fifteen key Christian heroes. Each hero is profiled in a short biography and three educational yet exciting and thought-provoking anecdotes from his or her life. Ideal for family devotions, homeschooling, and more, this inspiring collection includes stories from the lives of Amy Carmichael, Martin Luther, Dwight L. Moody, John Wesley, Samuel Morris, Gladys Aylward, and nine others.

The Red Address Book Jul 06 2021 The global fiction sensation—published in 32 countries around the world—that follows 96-year-old Doris, who writes down the memories of her eventful life as she pages through her decades-old address book. But the most profound moment of her life is still to come... Meet Doris, a 96-year-old woman living alone in her Stockholm apartment. She has few visitors, but her weekly Skype calls with Jenny—her American grandniece, and her only relative—give her great joy

*and remind her of her own youth. When Doris was a girl, she was given an address book by her father, and ever since she has carefully documented everyone she met and loved throughout the years. Looking through the little book now, Doris sees the many crossed-out names of people long gone and is struck by the urge to put pen to paper. In writing down the stories of her colorful past—working as a maid in Sweden, modelling in Paris during the '30s, fleeing to Manhattan at the dawn of the Second World War—can she help Jenny, haunted by a difficult childhood, unlock the secrets of their family and finally look to the future? And whatever became of Allan, the love of Doris's life? A charming novel that prompts reflection on the stories we all should carry to the next generation, and the surprises in life that can await even the oldest among us, *The Red Address Book* introduces Sofia Lundberg as a wise—and irresistible—storyteller. "Written with love, told with joy. Very easy to enjoy."—Fredrik Backman, author of *A Man Called Ove**

Imprisoned in the Golden City Nov 29 2020

IMPRISONED IN THE GOLDEN CITY Introducing Adoniram and Ann Judson The two young Burmeze girls had dreaded leaving their father but he told them that the only safe thing was for the two of them to go live with the American missionaries, Adoniram and Ann Judson. May-Lo and Len-Lay really aren't sure

what the danger is, and they don't know what to believe about their American foster parents. Could the accusations that the missionaries were English spies be true? When the Judsons leave the city of Rangoon to establish a mission work in Ava, the Golden City, the girls are taken along on the dangerous river trip that will separate them from their father by 350 miles. Will they ever see him again? Will they even make it to their destination? How will the emperor of Burma respond to Mr. Judson's petitions to give religious freedom to Christian converts? Their arrival is followed by eventual disaster. When the British attack the Burmese, all the white foreigners, including Adoniram Judson, are hauled off to the terrible Death Prison. Every clue indicates that the Judsons are spies, and a Burmese-English boy named Myat Rodgers is determined to prove their guilt. Should the girls tell the authorities what they know? Or will they all end up in the Death Prison? Without their father's help, whom could they trust?

Collaborative Governance May 04 2021 This book is the first to explore collaborative governance arrangements in Israel. It offers a new, modular definition of collaborative governance, focusing on its contributions toward public values and democracy. The book discusses different kinds of collaborations, their scope, implications and impact on governability

in Israel, a country which provides an interesting setting for learning about collaborative governance, given its heterogenous population and the nature of the relationship between the state's civil service, the business sector and the civil society. The book presents examples derived from local, and central government levels, and from policy areas such as education, regulation and local government.

Come to the Table Jan 24 2023 Kat Davies finds a practical way to channel her passion for healthy eating by starting a food pantry at the church, but it is not until she looks beyond food as an issue that she sees the deeper significance of inviting people to "come to the table." (religious fiction).

Come to the Table Aug 19 2022 Kat Davies is suddenly wondering if her good deed was a bad idea. Kat may be new in her faith, but she's embraced the more radical implications of Christianity with reckless abandon. She invited Rochelle—a homeless mother—and her son to move in the apartment she shares with two other housemates. And she's finally found a practical way to channel her passion for healthy eating by starting a food pantry at the church. Her feelings for Nick are getting harder to ignore. The fact that he's the interning pastor at SouledOut Community Church and one of her housemates makes it complicated enough. But with Rochelle showing

interest in Nick as a father-figure for her son, their apartment is feeling way too small. But not everyone thinks the food pantry is a good idea. When the woman she thought would be her biggest supporter just wants to “pray about it,” Kat is forced to look deeper at her own motives. Only when she begins to look past the surface does she see people who are hungry and thirsty for more than just food and drink and realizes the deeper significance of inviting them to “come to the table.” “. . . the plot and characters remain fresh and vibrant, shining spiritual truth from each page.” —Romantic Times TOP PICK for Stand by Me

Believing Against the Evidence Oct 29 2020 The question of whether it is ever permissible to believe on insufficient evidence has once again become a live question. Greater attention is now being paid to practical dimensions of belief, namely issues related to epistemic virtue, doxastic responsibility, and voluntarism. In this book, McCormick argues that the standards used to evaluate beliefs are not isolated from other evaluative domains. The ultimate criteria for assessing beliefs are the same as those for assessing action because beliefs and actions are both products of agency. Two important implications of this thesis, both of which deviate from the dominant view in contemporary philosophy, are 1) it can be

permissible (and possible) to believe for non-evidential reasons, and 2) we have a robust control over many of our beliefs, a control sufficient to ground attributions of responsibility for belief.

How Sanctions Work Feb 01 2021 How Sanctions Work surveys theories of international sanctions and offers detailed analyses of the effect of sanctions on apartheid South Africa. Chapters by respected international experts cover cultural isolation, oil and military embargoes, trade boycotts, financial sanctions and divestment, consequences for black South Africans, and regional effects. The book shows how sanctions both directly and indirectly hurt the apartheid regime while in some cases offering succour to the anti-apartheid movement.

Hero Tales Apr 15 2022 These inspiring true tales and beautiful illustrations make up two powerful treasuries, each featuring stories of excitement and adventure from influential Christian heroes??? lives.

Pound Foolish Apr 03 2021 Greg Singer's job puts tremendous stress on his marriage with Nicole, who for the first time notices the handsome lawyer at the end of the block. When the recession hits Greg's industry, he thinks the crisis is merely an opportunity for God to bless him with unmatched prosperity, and he steps out in bold faith. But is he being "pound foolish"? Intersecting with Penny wise, (book three)

Pound foolish returns us to Beecham Street, a typical American neighborhood, where a growing friendship brings new meaning to prosperity.

The American Way of Bombing Jan 20 2020 Aerial bombardment remains important to military strategy, but the norms governing bombing and the harm it imposes on civilians have evolved. The past century has seen everything from deliberate attacks against rebellious villagers by Italian and British colonial forces in the Middle East to scrupulous efforts to avoid "collateral damage" in the counterinsurgency and antiterrorist wars of today. The American Way of Bombing brings together prominent military historians, practitioners, civilian and military legal experts, political scientists, philosophers, and anthropologists to explore the evolution of ethical and legal norms governing air warfare. Focusing primarily on the United States—as the world's preeminent military power and the one most frequently engaged in air warfare, its practice has influenced normative change in this domain, and will continue to do so—the authors address such topics as firebombing of cities during World War II; the atomic attacks on Hiroshima and Nagasaki; the deployment of airpower in Iraq, Afghanistan, and Libya; and the use of unmanned drones for surveillance and attacks on suspected terrorists in Pakistan, Yemen, Sudan, Somalia, and

elsewhere.

Nanosatellites Aug 07 2021 Nanosatellites: Space and Ground Technologies, Operations and Economics
Rogerio Atem de Carvalho, Instituto Federal Fluminense, Brazil Jaime Estela, Spectrum Aerospace Group, Germany and Peru Martin Langer, Technical University of Munich, Germany

Covering the latest research on nanosatellites *Nanosatellites: Space and Ground Technologies, Operations and Economics* comprehensively presents the latest research on the fast-developing area of nanosatellites. Divided into three distinct sections, the book begins with a brief history of nanosatellites and introduces nanosatellites technologies and payloads, also explaining how these are deployed into space. The second section provides an overview of the ground segment and operations, and the third section focuses on the regulations, policies, economics, and future trends. Key features:

- Payloads for nanosatellites
- Nanosatellites components design
- Examines the cost of development of nanosatellites.
- Covers the latest policies and regulations.
- Considers future trends for nanosatellites.

Nanosatellites: Space and Ground Technologies, Operations and Economics is a comprehensive reference for researchers and practitioners working with nanosatellites in the aerospace industry.

Who Do I Talk To? Nov 22 2022 In the last place she

ever imagined she'd be, Gabby will discover what she's made of--and for. Gabrielle Fairbanks knew her husband was upset with her. But she never expected him to change the locks on their Chicago penthouse, cancel her credit cards, and disappear with their two boys. Now she's literally on the streets with her elderly mother, her mom's dog...and \$220 to her name. Thank goodness she has somewhere to go--Manna House, the women's shelter where she works. But even in the bustling shelter--surrounded by residents and the Yada Yada Prayer Group--Gabby feels more alone than ever. She longs for someone she can really talk to, someone to help mend together the pieces of her broken life. Her warm-hearted lawyer seems ready to offer more than legal counsel...but is he the answer to prayer or just a pleasant distraction? As her fragile plans fall apart, Gabby hits on a possibility so wild and wonderful it has to be one of those "God things." Something she's only seen happen to other Christians. Until now. For everyone who loves the best-selling Yada Yada Prayer Group novels...The Yada Yada House of Hope series features familiar faces and places, with a fresh new life all its own.

Stand by Me Oct 21 2022 Kathryn Davies--an eccentric young woman from a prominent Phoenix family--makes a leap of faith at a Christian music fest, dropping out of med school and moving to inner city

Chicago where she yearns to join the SouledOut Community Church, of which reserved Avis Douglass is a founding member. Original.

Toward a Theory of Peace Nov 10 2021 Military analyst, peace activist, teacher, and social theorist Randall Caroline Watson Forsberg (1943-2007) founded the Nuclear Freeze campaign and the Institute for Defense and Disarmament Studies. In "Toward a Theory of Peace," completed in 1997 and published for the first time here, she delves into a vast literature in psychology, anthropology, archeology, sociology, and history to examine the ways in which changing moral beliefs came to stigmatize forms of "socially sanctioned violence" such as human sacrifice, cannibalism, and slavery, eventually rendering them unacceptable. Could the same process work for war? Edited and with an introduction by political scientists Matthew Evangelista (Cornell University) and Neta C. Crawford (Boston University), both of whom worked with Forsberg.

Come to the Table Feb 25 2023 Kat Davies finds a practical way to channel her passion for healthy eating by starting a food pantry at the church, but it is not until she looks beyond food as an issue that she sees the deeper significance of inviting people to "come to the table." Original.

Penny Wise Oct 09 2021 "Introduces us to yet another

family in "the neighborhood"--the Jaspers, busy with demanding jobs, busy with church, busy volunteering, parents of three active teenagers, juggling sometimes crazy schedules. All good things. Until all those "good things" fed into a series of crises that affects the whole family. Something's gotta change"!--Cover page [4].

The Unity of Perception May 24 2020 Perception is our key to the world. It plays at least three different roles in our lives. It justifies beliefs and provides us with knowledge of our environment. It brings about conscious mental states. It converts informational input, such as light and sound waves, into representations of invariant features in our environment. Corresponding to these three roles, there are at least three fundamental questions that have motivated the study of perception. How does perception justify beliefs and yield knowledge of our environment? How does perception bring about conscious mental states? How does a perceptual system accomplish the feat of converting varying informational input into mental representations of invariant features in our environment? This book presents a unified account of the phenomenological and epistemological role of perception that is informed by empirical research. So it develops an account of perception that provides an answer to the first two questions, while being sensitive to scientific accounts

that address the third question. The key idea is that perception is constituted by employing perceptual capacities - for example the capacity to discriminate instances of red from instances of blue. Perceptual content, consciousness, and evidence are each analyzed in terms of this basic property of perception. Employing perceptual capacities constitutes phenomenal character as well as perceptual content. The primacy of employing perceptual capacities in perception over their derivative employment in hallucination and illusion grounds the epistemic force of perceptual experience. In this way, the book provides a unified account of perceptual content, consciousness, and evidence.
