Passionate Learners Nov 23 2020 Would you want to be a student in your own classroom? In Passionate Learners: How to Engage and Empower Your Students, author Pernille Ripp challenges both novice and

seasoned teachers to create a positive, interactive learning environment where students drive their own academic achievement. You'll discover how to make fundamental changes to your classroom so learning becomes an exciting challenge rather than a frustrating ordeal. Based on the author's personal experience of transforming her approach to teaching, this book outlines how to:

- Build a working relationship with your students based on mutual trust, respect, and appreciation***
- Be attentive to your students' needs and share ownership of the classroom with them***
- Break out of the vicious cycle of punishment and reward to control student behaviour***
- Use innovative and creative lesson plans to get your students to become more engaged and intellectually-invested learners, while still meeting your state standards***
- Limit homework and abandon traditional grading so that your students can make the most of their learning experiences without unnecessary stress***
- And much more!***

New to the second edition, you'll find practical tools, such as teacher and student reflection sheets, parent questionnaires, and parent conference tools, available in the book and as eResources on our website (<http://www.routledge.com/9781138916920>) to help you build your own classroom of passionate learners.

Fundamentals of Radio Astronomy May 30 2021 As evidenced by five Nobel Prizes in physics, radio astronomy in its 80-year history has contributed greatly to our understanding of the universe. Yet for too long, there has been no suitable textbook on radio astronomy for undergraduate students. Fundamentals of Radio Astronomy: Observational Methods is the first undergraduate-level textbook exclus

**WAEC in Review Feb 19 2023 WAEC in Review is a practical intervention strategy in transforming the weakening educational system of Liberia where academic excellence is unceasingly diminishing. LIPACE Pilot Study Guide is not only a landmark achievement in the educational history of Liberia but a remarkable stride towards the proper preparation of Liberian students for future diets of the WAEC exam. As a member of the National Committee of the West African Examinations Council and a Stakeholder in the Liberian Education System, I wish to recommend the use of this study guide to adequately prepare each and every Liberian student for future examinations thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam.—David S. Massaquoi, Sr., director of Education, The Salvation Army-Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure and this fear lead to them failing massively. We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the “Turning the Tide” project, we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam.—Lartey Bemah, principal of Bopolu Public School (2012-2013), Gbarpolu County, Liberia
Preparing Teachers for a Changing World Dec 25 2020**

Based on rapid advances in what is known about how people learn and how to teach effectively, this important book examines the core concepts and central pedagogies that should be at the heart of any teacher education program. Stemming from the results of a commission sponsored by the National Academy of Education, Preparing Teachers for a Changing World recommends the creation of an informed teacher education curriculum with the common elements that represent state-of-the-art standards for the profession. Written for teacher educators in both traditional and alternative programs, university and school system leaders, teachers, staff development professionals, researchers, and educational policymakers, the book addresses the key foundational knowledge for teaching and discusses how to implement that knowledge within the classroom. Preparing Teachers for a Changing World recommends that, in addition to strong subject matter knowledge, all new teachers have a basic understanding of how people learn and develop, as well as how children acquire and use language, which is the currency of education. In addition, the book suggests that teaching professionals must be able to apply that knowledge in developing curriculum that attends to students' needs, the demands of the content, and the social purposes of education: in teaching specific subject matter to diverse students, in managing the classroom, assessing student performance, and using technology in the classroom.

Propagation and Reflection of Shock Waves Jan 06

2022 This volume deals with the propagation of three-dimensional shock waves and their reflection from

curved walls. It is divided into two parts. The first part presents a ray method. This is based on the expansion of fluid properties in power series at an arbitrary point on the shock front. Continuous fractions are used. Results for shock propagation in non-uniform fluids are given. The second part discusses the shock reflection from a concave body. The important shock-focusing problem is included. The work is supported by both numerical and experimental results. Many interesting features, such as formation of a jet, vortices and the appearance of disturbances on the shock front, are discussed. Besides shock waves in gases, the distinctive features of shock propagation through a weakly ionized plasma are considered.

The Selfless Leader Oct 23 2020 A brand new textbook that explores leadership from the perspective of collective leadership. It provides a brief historical background to the development of leadership as a discipline and then discusses the evolution and applications of collective leadership. Women of Owu Dec 17 2022 This is an African retelling of Euripides: an unnervingly topical story of a people and a beloved city destroyed by the brutality of war. The play was first performed in Lagos in 2003 under the distinguished director Chuck Mike, and subsequently toured the UK.

The Structural Crisis of Capital Dec 13 2019 Lays bare the exploitative structure of modern capitalism. Argues that the economies of the world are on a social and ecological precipice, and that unless we take decisive

action to radically transform our societies we will find ourselves thrust headfirst into barbarism and environmental catastrophe. From publisher description.

A Woman in Her Prime Jun 11 2022

The Wake Oct 15 2022 "A work that is as disturbing as it is empathetic, as beautiful as it is riveting." —Eimear McBride, New Statesman In the aftermath of the Norman Invasion of 1066, William the Conqueror was uncompromising and brutal. English society was broken apart, its systems turned on their head. What is little known is that a fractured network of guerrilla fighters took up arms against the French occupiers. In The Wake, a postapocalyptic novel set a thousand years in the past, Paul Kingsnorth brings this dire scenario back to us through the eyes of the unforgettable Buccmaster, a proud landowner bearing witness to the end of his world. Accompanied by a band of like-minded men, Buccmaster is determined to seek revenge on the invaders. But as the men travel across the scorched English landscape, Buccmaster becomes increasingly unhinged by the immensity of his loss, and their path forward becomes increasingly unclear. Written in what the author describes as "a shadow tongue"—a version of Old English updated so as to be understandable to the modern reader—The Wake renders the inner life of an Anglo-Saxon man with an accuracy and immediacy rare in historical fiction. To enter Buccmaster's world is to feel powerfully the sheer strangeness of the past. A tale of lost gods and haunted visions, The Wake is both a sensational, gripping story and a major literary achievement.

Teaching Thinking Jul 20 2020 Originally published in 1990, this title attempts to provide for the educational practitioner an overview of a field that responded in the 1980s to a major educational agenda. This innovative 'agenda' called for teaching students in ways that dramatically improved the quality of their thinking. Its context is a variety of changes in education that brought the explicit teaching of thinking to the consciousness of more and more teachers and administrators.

Purple Hibiscus Aug 13 2022 "One of the most vital and original novelists of her generation." —Larissa MacFarquhar, The New Yorker From the bestselling author of Americanah and We Should All Be Feminists

Fifteen-year-old Kambili and her older brother Jaja lead a privileged life in Enugu, Nigeria. They live in a beautiful house, with a caring family, and attend an exclusive missionary school. They're completely shielded from the troubles of the world. Yet, as Kambili reveals in her tender-voiced account, things are less perfect than they appear. Although her Papa is generous and well respected, he is fanatically religious and tyrannical at home—a home that is silent and suffocating. As the country begins to fall apart under a military coup, Kambili and Jaja are sent to their aunt, a university professor outside the city, where they discover a life beyond the confines of their father's authority. Books cram the shelves, curry and nutmeg permeate the air, and their cousins' laughter rings throughout the house. When they return home, tensions within the family escalate, and Kambili must find the strength to keep her loved ones together. Purple Hibiscus is an exquisite novel about the emotional turmoil of adolescence, the powerful bonds of family, and the bright promise of freedom.

Unexpected Joy at Dawn Jun 18 2020 Fifteen years ago, Mama said, starting her story, I came to Lagos from Ghana. I came to Nigeria because I was considered an alien in that country. The government of Ghana passed a law asking all aliens without resident permits to regularise their stay in the country'. This story of migration, identities and lives undermined by cynical and xenophobic politics pushed to its logical and terrible conclusion pertains to the Ghanaian orders of 'alien compliance' issued in 1970-1971, which determined to force all non-ethnic Ghanaians, so called illegal immigrants, to return to their - so stipulated - 'home'. The novel thus touches on concerns of deeper

relevance to the politics of race and migration of the twenty first century.

FDA Investigations Operations Manual May 10 2022 Available now to FDA-regulated organizations, this manual allows facility managers to look at their operation's regulatory compliance through the eyes of the government. Because this is the primary reference manual used by FDA personnel to conduct field investigation activities, you can feel confident you are preparing appropriate planning or action. This manual includes revised instructions regarding the release of information and covers FDA's policies and expectations on a comprehensive range of topics: FDA's authority to enter and inspect, inspection notification, detailed inspection procedures, recall monitoring, inspecting import procedures, computerized data requests, federal/state inspection relationships, discussions with management regarding privileged information, seizure and prosecution, HACCP, bioengineered food, dietary supplements, cosmetics, bioterrorism, and product disposition. The manual also includes a directory of Office of Regulatory Affairs offices and divisions.

It Started in Wisconsin Feb 13 2020 In the spring of 2011, Wisconsinites took to the streets in what became the largest and liveliest labor demonstrations in modern American history. Protesters in the Middle East sent greetings—and pizzas—to the thousands occupying the Capitol building in Madison, and 150,000 demonstrators converged on the city. In a year that has seen a revival of protest in America, here is a riveting account of the first great wave of grassroots resistance

to the corporate restructuring of the Great Recession. It Started in Wisconsin includes eyewitness reports by striking teachers, students, and others (such as Wisconsin-born musician Tom Morello), as well as essays explaining Wisconsin's progressive legacy by acclaimed historians. The book lays bare the national corporate campaign that crafted Wisconsin's anti-union legislation and similar laws across the country, and it conveys the infectious esprit de corps that pervaded the protests with original pictures and comics.

"You Can't Fire the Bad Ones!" Sep 14 2022 Overturns common misconceptions about charter schools, school "choice," standardized tests, common core curriculum, and teacher evaluations. Three distinguished educators, scholars, and activists flip the script on many enduring and popular myths about teachers, teachers' unions, and education that permeate our culture. By unpacking these myths, and underscoring the necessity of strong and vital public schools as a common good, the authors challenge readers--whether parents, community members, policy makers, union activists, or educators themselves--to rethink their assumptions.

The Sacred Romance Jan 26 2021 If you're feeling lost, disconnected, or longing for something more, join bestselling authors John Eldredge and Brent Curtis as they explore the greatest love of our lives: our faith. The Sacred Romance invites us to find the peace and purpose we crave by slowing down, asking questions, and deepening our relationship with God. Eldredge and Curtis believe that modern Christians have lost touch with our hearts. We've left that essential part of ourselves behind in the pursuit of efficiency, success, and the busyness of our lives. The Sacred Romance will

guide you through a journey to getting to know yourself and your creator even better, asking you: What is this restlessness and emptiness I feel, sometimes after years into my Christian journey? How will my spiritual life touch the rest of my life? What is it that is set so deeply in my heart, that simply will not leave me alone? When did I stop listening to God's leading? The Sacred Romance is a journey of the heart. It is a journey full of intimacy, adventure, and beauty, that will guide you to your fondest memories, your greatest loves, your noblest achievements, and even your deepest hurts--but the reward is worth the risk.

This book is the ideal source for teaching oral language, reading, writing, and the content areas in English to K-12 English learners. In an approach unlike most other books in the field, Reading, Writing, and Learning in ESL looks at contemporary language acquisition theory as it relates to instruction and provides detailed suggestions and methods for motivating, involving, and teaching English language learners. Praised for its strong research base, engaging style, and inclusion of specific teaching ideas, the book offers thorough coverage of oral language, reading, writing, and academic content area instruction in English for K-12 English learners. Thoroughly updated throughout, the new edition includes a new chapter on using the Internet and other digital technologies to engage students and promote learning, many new teaching strategies, new and revised activities, and new writing samples.***

Faceless Apr 28 2021 Street life in the slums of Accra is realistically portrayed in this socially-committed, subtle novel about four educated women who are inspired by the plight of a 14-year old girl, Fofu. As the main characters convert their library center into a practical street initiative, the novel invokes the squalor, health risks, and vicious cycles of poverty and violence that drive children to the streets and women to prostitution; and, from which, ultimately, no one in the society is free.

Pigs of Paradise Sep 21 2020 “The Bahamas are famous for sun, sand—and swimming pigs.” —National Geographic In the middle of paradise, with billionaires and celebrities for neighbors, is an island populated only by swimming pigs. For decades, this archipelago of 365 islands would remain largely unknown to the world. It would not be a ruthless pirate, pioneering loyalists, a notorious drug kingpin, or the infamous Fyre Festival that would unveil Exuma to the world, but rather the most unlikely of creatures. Appearing in magazines, videos, newspapers, commercials, TV shows, and countless selfies, the Swimming Pigs of Exuma, in the Bahamas, have become a bucket-list sensation and have been named one of the marvels of the universe. But how did they reach this celebrity status? What made them so famous? And why, in February 2017, did so many of them die? Pigs of Paradise is an unlikely story of humble beginnings and a swift rise to stardom. With interviews from historians, world-renowned ecologists, famous pig owners, and boat captains, it thoughtfully considers what this phenomenon says about not only these animals but also about us.

Toward a Science of Translating Sep 02 2021 Toward a Science of Translating, first published in 1964, is still very much in demand today. Written by a linguist and anthropologist with forty years of experience in the field of language and religion, this work describes the major components of translating; setting the translating into the context of historical changes in principles and procedures over the last two centuries. With an emphasis on texts being understood within their cultural contexts, one of the reasons for its continuing relevance is the broad number of illustrative examples taken from field experience of translators in

America, Africa, Europe and Asia.

Little Cold Warriors Jul 12 2022 Both conservative and liberal Baby Boomers have romanticized the 1950s as an age of innocence--of pickup ball games and Howdy Doody, when mom stayed home and the economy boomed. These nostalgic narratives obscure many other histories of postwar childhood, one of which has more in common with the war years and the sixties, when children were mobilized and politicized by the U.S. government, private corporations, and individual adults to fight the Cold War both at home and abroad. Children battled communism in its various guises on television, the movies, and comic books; they practiced safety drills, joined civil preparedness groups, and helped to build and stock bomb shelters in the backyard. Children collected coins for UNICEF, exchanged art with other children around the world, prepared for nuclear war through the Boy and Girl Scouts, raised funds for Radio Free Europe, sent clothing to refugee children, and donated books to restock the diminished library shelves of war-torn Europe. Rather than rationing and saving, American children were encouraged to spend and consume in order to maintain the engine of American prosperity. In these capacities, American children functioned as ambassadors, cultural diplomats, and representatives of the United States. Victoria M. Grieve examines this politicized childhood at the peak of the Cold War, and the many ways children and ideas about childhood were pressed into political service. Little Cold Warriors combines approaches from childhood studies and diplomatic history to understand the cultural Cold War through the activities and experiences of young Americans.
