The Radical and the Republican: Frederick Douglass, Abraham Lincoln, and the Triumph of Antislavery Politics

Sep 19 2022 "A great American tale told with a deft historical eye, painstaking analysis, and a supple clarity of writing."—Jean Baker "My husband considered you a dear friend," Mary Todd Lincoln wrote to Frederick Douglass in the weeks after Lincoln's assassination. The frontier lawyer and the former slave, the cautious politician and the fiery reformer, the President and the most famous black man in America—their lives traced different paths that finally met in the bloody landscape of secession, Civil War, and emancipation. Opponents at first, they gradually became allies, each influenced by and attracted to the other. Their three meetings in the White House signaled a profound shift in the direction

of the Civil War, and in the fate of the United States. James Oakes has written a masterful narrative history, bringing two iconic figures to life and shedding new light on the central issues of slavery, race, and equality in Civil War America.

The Way of the Physician Aug 26 2020 The Way of the Physician brims with rich stories, telling observations, trenchant analysis, tough questions, and high drama, all a result of philosopher Jacob Needleman's intense discussions with doctors and other health professionals about the ideals and challenges of their profession. Needleman addresses the spiritual issues that, in the past, were much more in the foreground of doctor/patient relationships. He confronts difficult topics, including physician responsibility, the overwhelming technological innovations which have changed medicine, and the ever-more-prominent financial issues inherent in contemporary healthcare. In the book's final section, the author addresses the reader, through a series of stories that reflect a real patient's issues with respect to all aspects of healthcare, with special focus on the spiritual dimension. The new introduction for this special edition specifically addresses the contemporary medical world of complex technology, specialization and commercialization.

Conflict and Compromise Jun 04 2021 In this book Professor Roger Ransom examines the economic and political factors that led to the attempt by Southerners to dissolve the Union in 1860, and the equally determined effort of Northerners to preserve it. Ransom argues that the system of capitalist slavery in the South not only "caused" the Civil War by producing tensions that could not be resolved by compromise; it also played a crucial role in the outcome of that war by crippling the southern war effort at the same time that emancipation became a unifying issue for the North. Ransom also carefully examines the impact that four years of war and the emancipation of slaves had both on the defeated South and the victorious North. -- From publisher's description.

Informed Societies Nov 28 2020 This book explains how and why information literacy can help to foster critical thinking and discerning attitudes, enabling citizens to play an informed role in society and its democratic processes. In early 21st century societies, individuals and organisations are deluged with information, particularly online information. Much of this is useful, valuable or enriching. But a lot of it is of dubious quality and provenance, if not downright dangerous. Misinformation forms part of the mix. The ability to get the most out of the information flow, finding, interpreting and using it, and particularly developing a critical mindset towards it, requires skills, know-how, judgement and confidence – such is the premise of information literacy. This is true for many aspects of human endeavour, including education, work, health and self-enrichment. It is notably true also for acquiring an understanding of the wider world, for reaching informed views, for recognising bias and misinformation, and thereby for playing a part as active citizens, in democratic life and society. This ground-breaking and uniquely multi-disciplinary book explores how information literacy can contribute to fostering attitudes, habits and practices that underpin an informed citizenry. The 13 chapters each come from a particular perspective and are authored by international experts representing a range of disciplines: information literacy itself, but also political science, pedagogy, information science, psychology. **Informed Societies: Why Information literacy matters for citizenship, participation and democracy** covers: - why information literacy and informed citizens matter for healthy, democratic societies - information literacy's relationship with political science - information literacy's relationship with human rights - how information literacy can help foster citizenship, participation, empowerment and civic engagement in different contexts: school students, refugees, older people and in wider society - information literacy as a means to counter misinformation and fake news - the challenges of addressing information literacy as part of national public policy. The book will be essential reading for librarians and information professionals working in public libraries, schools, higher education institutions and public bodies; knowledge and information managers in all sectors and student of library and information science students, especially those at postgraduate/Masters level who are planning dissertations. Because of the topicality and political urgency of the issues covered, the book will also be of interest to students of political science, psychology, education and media studies/journalism; policy-makers in the public, commercial and not-for-profit sectors and politicians implications of information use and information/digital literacy.

Law of Confession Apr 14 2022 Just like natural laws, there are spiritual laws with cause and effect. God set the universe in motion with the power of His words and established the law of confession, but many believers have suffered needlessly by misunderstanding the power of their words. Dr. Bill Winston, pastor, Bible teacher, and host of the national television program Believer's Walk of Faith broadcast to over 100 million homes, reveals scriptural examples and vital teaching on the importance of the spoken word. Believers will uncover the enemy's deceptive plan to use their own words against them and what they can do to turn their situation around. 'One of the best things that ever happened to me, my family, and my church, was the revelation of the law of confession - we learned that the moment we win the battle over our words, we win the battle!' Dr. Bill Winston Controlling your words is one of the biggest challenges anyone will face in this life; the Bible reveals that the power of life and death are in the words you say. As you begin to change the words you speak, you will rewrite their future and revolutionize your life.

Cradle of Islam Jul 17 2022 Is Saudi Arabia really a homogeneous Wahhabi dominated state? In 1932 the Al Saud family incorporated the kingdom of Hijaz, once the cultural hub of the Arabian world, in to the kingdom of Saudi Arabia. The urban, cosmopolitan Hijazis were absorbed in to a new state whose codes of behavior and rules were determined by the Najdis, an ascetic desert people, from whom the Al Saud family came. But the Saudi rulers failed to fully integrate the Hijaz, which retains a distinctive identity to this day. In "Cradle of Islam", the product of years spent in Mecca, Medina, Jeddah and Taif, Mai Yamani traces the fortunes of the distinctive and resilient culture of the Hijazis, from the golden age of Hashemite Mecca to Saudi domination to its current resurgence. The Hijazis today emphasise their regional heritage in religious ritual, food, dress and language as a response to the 'Najdification' of everyday life. The Hijazi experience shows the vitality of cultural diversity in the face of political repression in the Arab world.

Spirit Recovery Medicine Bag Nov 21 2022 Feeling limited by circumstances, substances, or behaviors often leads to the simple, yet profound question, "Is this all there is?" This question is an opportunity to rediscover one's truth and live life more fully and authentically. Spirit Recovery Medicine Bag offers readers a path to finding their personal answer to this question in an engaging two-part format. In Part One, readers will join Lee McCormick as he reflects on his personal journey of recovery and transformation—a journey that initiated him into a life of helping others recover their own sense of self and purpose. Part Two is a medicine bag of healing practices designed to guide readers in developing self-awareness and awakening their sense of power—specifically the power of choice rooted in personal values and commitment to living those values. Covering a variety of topics addressing spirituality, awareness, and consciousness, the authors pose questions for reflection and self-investigation along the way. Spirit Recovery Medicine Bag is not a negation of Twelve-Step recovery, but a tool for expanding awareness and increasing involvement regardless of the path one is walking. In Twelve-Step language, it builds on Step 12's direction to practice these principles in all one's affairs. The authors believe that the inner journey to one's truth and the creative expression of that truth make for a good definition of spirituality, and they offer readers a very real message of the possibility of living "happy, joyous, and free" through spirit recovery.

As an artist faithfully recording the world around him, Obata's work from this period gives us a view into the camps that is at once honest and strikingly lyrical. *Topaz Moon* brings together more than 100 paintings and sketches from Obata's internment period, from the stables at Tanforan, California, to the barracks in Topaz, Utah. Edited by his granddaughter Kimi Kodani Hill, these images are accompanied by a text that draws heavily upon the letters of Obata and his wife, Haruko, family documents, and interviews with family and friends.
