"Book one of an Armageddon Duology" -- Maturin Ballou was settled in Providence, Rhode Island as early as 1646, where he married Hannah Pike. Four of their six or seven children survived. Descendants are scattered throughout eastern United States. Where survival is the meaning of life. A speculative fiction serial of adventure novellas set in a strange and punishing world. In Book 3, "Cult," missionaries arrive on a holy quest to fulfill their scriptures. But the desert has other plans. Will they escape with their faith, or even their lives, intact? Daemons: computer programs that silently run in the background, waiting for a specific event or time to execute. They power almost every service. They make our networked world possible. But they also make it vulnerable... When the obituary of legendary computer game architect Matthew Sobol appears online, a previously dormant daemon activates, initiating a chain of events that begins to unravel our interconnected world. This daemon reads news headlines, recruits human followers, and orders assassinations. With Sobol's secrets buried with him, and as new layers of his daemon are unleashed, it's up to Detective Peter Sebeck to stop a self-replicating virtual killer before it achieves its ultimate purpose—one that goes far beyond anything Sebeck could have imagined... "CHINA GIRL" SPINS TALE OF A FAR-RIGHT TRUPLANDIAN DYSTOPIA "Raw and powerful writing...passionate and unafraid...edgy, powerful and filled with non-stop tension. A politically charged nightmare that explodes off the pages in a terrifying tale. This one deserves a spot on that must read shelf. Just save room for the entire series." -Tome Tender "Erec Stebbins is back with easily the best and most frightening book in the series. The riveting story moves at a lightning pace and is impossible to put down. A chilling parable." -Internet Review of Books NEW THRILLER ASKS "WHAT IF?" IN EXPLOSIVE READ ?? NEVER AGAIN. A fascist administration rounds up undesirables. Terrorist groups strike governmental and religious targets. The Constitution is under assault. Erec Stebbins's China Girl is a controversial look at an America that is all too close to reality, radioactive in its timely examination of extremism in the nation. "Stebbins is the master of the thinking reader's techno-thriller" -The Internet Review of Books Imagine an America where Donald Trump was competent and disciplined. Where the Democratic Party succumbed to internal divisions and badly lost the 2018 House elections. Where the most extreme policies of the Far Right were implemented with little opposition across the nation. Mix in the extreme action and unusual plots for which author Erec Stebbins is known. "A monster new talent in the thriller genre" -author Allan Leverone This is the dystopian world of China Girl. It's a contemporary thriller that asks a controversial "what if?" The plot immerses a diverse and unusual cast of characters into a nightmarish scenario. When the government goes rogue and commits atrocities, who is the terrorist and who the hero? China Girl is a political techno-thriller with international and crime elements, very topical to current events, touching on biotechnology, anti-democratic movements, and the rights of marginalized groups (especially immigrants) in Western societies. It picks up four years after the election of white nationalist and demagogue Daniel Suite. A novel--inspired by the most celebrated regiment in the Red Army--about a woman's sacrifice, courage, and love in a time of war. Russia, 1941. Katya Ivanova is a young pilot in a far-flung military academy in the Ural Mountains. From childhood, she's dreamed of taking to the skies to escape her bleak mountain life. With the Nazis on the march across Europe, she is called on to use her wings to serve her country in its darkest hour. Not even the entreaties of her new husband--a sensitive artist who fears for her safety--can dissuade her from doing her part as a proud daughter of Russia. After years of arduous training, Katya is assigned to the 588th Night Bomber Regiment--one of the only Soviet air units composed entirely of women. The Germans quickly learn to fear nocturnal raids by the daring fliers they call "Night Witches." But the brutal campaign will exact a bitter toll on Katya and her sisters-in-arms. When the smoke of war clears, nothing will ever be the same--and one of Russia's most decorated military heroines will face the most agonizing choice of all. When Dr. Karen Raymond makes the medical breakthrough of the century--an AIDS vaccine--her laboratory is destroyed and her colleagues murdered, and she must unravel a diabolical scheme that threatens to hold the entire country hostage.
