Soul Shapers Feb 19 2020 Shaping young minds--coaxing fledglings to fly--is the most complex job in the world. In this volume Jim Roy offers a new model for teachers and parents seeking to break out of the rote memory assembly-line approach to education. This book offers a method of homing in on excellence in the same way that a blindfolded dolphin seeks a ring tossed into the water. using echo location, the dolphin beats an indirect path to the ring, yet every turn, every correction, brings it closer to the goal. What Monty Roberts (the horse whisperer) does--gently but firmly--with horses, you can do with children.
