Few figures in modern American anthropology have been more controversial or influential than Leslie A. White (1900-1975). Between the early 1940s and mid-1960s, White's work was widely discussed, and he was among the most frequently cited American anthropologists in the world. After writing several respected ethnographic works about the Pueblo Indians, White broke ranks with anthropologists who favored such cultural histories and began to radically rethink American anthropology. As his political interest in socialism grew, he revitalized the concept of cultural evolution and reinvigorated comparative studies of culture. His strident political beliefs, radical interpretive vision, and often combative nature earned him enemies inside and outside the academy. His trip to the Soviet Union and participation in the Socialist Labor Party brought him to the attention of the FBI during the height of the Cold War, and near-legendary scholarly and political conflicts surrounded him at the University of Michigan. Placing White's life and work in historic context, William J. Peace documents the broad sociopolitical influences that affected his career, including many aspects of White's life that are largely unknown, such as the reasons he became antagonistic toward Boasian anthropology. In so doing, Peace sheds light on what made White such a colorful figure as well as his enduring contributions to modern anthropology. This diverse collection of lectures honors the pioneering work in Byron studies of Leslie Alexis Marchand. Their varied approaches—literary and cultural, historical and political, scientific and artistic—exemplify how his biographies of Byron and his edition of the letters and journals attract both academic and popular audiences. Start today living boldly without fear or worries. Dear King's Woman is an empowering devotion filled with letters to a woman who is ready for a new chapter. This new chapter is filled with hope, strength, healing and restoration from God. Dear King's Woman gives you life and fulfilment each day to develop into the woman you were called to be. Begin a new day everyday with letters from Dear King's Woman. Beyond the undergraduate and graduate levels, education has traditionally ceased when students enter the workforce as professionals in their respective fields. However, recent trends in

*education have found that adult students beyond the traditional university age often benefit greatly from returning to further their education. Adult and Continuing Education: Concepts, Methodologies, Tools, and Applications investigates some of the most promising trends in furthering education and professional development in a variety of settings and industries. With an extensive array of chapters on topics ranging from non-traditional students to online and distance education for adult learners, this multi-volume reference book will provide students, educators, and industry professionals with the tools necessary to make the most of their return to the classroom. The author of An Embarrassment of Mangoes offers “a mouthwatering slice of Caribbean culture” in this blend of travel memoir and cookbook (New York Post). While sailing around the Caribbean, Ann Vanderhoof and her husband Steve track wild oregano-eating goats in the cactus-covered hills of the Dominican Republic, gather nutmegs on an old estate in Grenada, make searing-hot pepper sauce in a Trinidadian kitchen, cram for a chocolate-tasting test at the University of the West Indies, and sip moonshine straight out of hidden back-country stills. Along the way, they are befriended by a collection of unforgettable island characters: Dwight, the skin-diving fisherman who always brings them something from his catch and critiques their efforts to cook it; Greta, who harvests sea moss on St. Lucia and turns it into potent Island-Viagra; sweet-hand Pat, who dispenses hugs and impromptu dance lessons along with cooking tips in her Port of Spain kitchen. Back in her galley, Ann practices making curry like a Trini, dog sauce like a Martiniquais, and coo-coo like a Carriacouan. And for those who want to take these adventures into their own kitchens, she pulls 71 delicious recipes from the stories she tells, which she places at the end of the relevant chapters. The Spice Necklace is a wonderful escape into a life filled with sunshine (and hurricanes), delicious food, irreplaceable company, and island traditions. Published in two parts, the General Index of all Washington descendants and their spouses completes a ten-volume history that traces the “Presidential Line” of the Washington family in America. Volume one began with the immigrant John Washington who settled in Westmoreland County, Va., in 1657, married Anne Pope, and became the great-grandfather of President George Washington. It contained the record of their descendants for a total of seven generations. Subsequent volumes two through eight continued this family history for an additional eight*

**generations, also highlighting most notable members (volume two) and tracing lines of descent from the royalty and nobility of England and continental Europe (volume three). Volume nine treated in detail the recently discovered line of William Wright (died in Franklin County, Va., ca. 1809). It also provided briefer accounts of five other Southern Wright families that have often been mentioned by researchers as close kinsmen of George Washington. ADVANCE PRAISE “At long last the Washingtons have a published history worthy of their place in history. Glenn has done a masterful job. . . . I am convinced that his work will be of wide interest to historians and academics as well as members of the Washington family itself. Although the surname Washington is perhaps the best known in American history and much has been written about the Washington family for well over a century, it is surprising that no comprehensive family history has been published. Justin M. Glenn’s *The Washingtons: A Family History* finally fills this void for the branch to which General and President George Washington belonged, identifying some 63,000 descendants. This is truly a family history, not a mere tabulation of names and dates, providing biographical accounts of many of the descendants of John Washington who settled in Westmoreland County, Virginia, in 1657.” — John Frederick Dorman, editor of *The Virginia Genealogist* (1957-2006) and author of *Adventurers of Purse and Person* “Decades of reviewing Civil War books have left me surprised and delighted when someone applies exhaustive diligence to a topic not readily accessible. Dr. Glenn surely meets that standard with the meticulous research that unveils the Washington family in gratifying detail—many of them Confederates of interest and importance.” — Robert K. Krick, author of *The Smoothbore Volley that Doomed the Confederacy* and *Stonewall Jackson at Cedar Mountain***

**Complexity theory aims to understand and classify computational problems, especially decision problems, according to their inherent complexity. This book uses new techniques to expand the theory for use with counting problems. The authors present dichotomy classifications for broad classes of counting problems in the realm of P and NP. Classifications are proved for partition functions of spin systems, graph homomorphisms, constraint satisfaction problems, and Holant problems. The book assumes minimal prior knowledge of computational complexity theory, developing proof techniques as needed and gradually increasing the generality and abstraction of the**

***theory. This volume presents the theory on the Boolean domain, and includes a thorough presentation of holographic algorithms, culminating in classifications of computational problems studied in exactly solvable models from statistical mechanics. Volume I of Playing Outside the Lines is the first of a comprehensive four-part method book series offering beginning to advanced Irish traditional flute instruction for Boehm and simple system flutists in graduated books, chapters, and exercises. Volume I provides foundations for playing within the framework of Irish traditional music and the basis for the remaining three volumes of the series. This four-part series is the first of its kind, containing more than 600 technical exercises, rich and nuanced discussions of Irish flute style and cultural context, previously undocumented techniques, side-by-side explanations for Boehm and simple system flutists (as well as information for musicians transitioning between the two instruments), audio excerpts, simple system flute care and purchasing information, and resources for further study. By the end of the four-part series, Boehm and simple system flutists of any background will have the tools necessary to play Irish music with a deep understanding of the tradition as well as with individual creativity. Brook Ferguson, Principal Flutist of the Colorado Symphony Orchestra, calls Playing Outside the Lines "an invaluable resource for any flutist." Renowned performer and author Robert Dick says, "Leslie Anne Harrison's Playing Outside the Lines is a marvelous gift to all interested in Irish music. Her clear and detailed writing is a huge boon to those embracing the traditional Irish flute and is truly enlightening to those (like me) who want to delve into this music while playing the Boehm flute. From tiniest detail to largest form, Leslie Anne Harrison is there every step of the way. Playing Outside the Lines is a major contribution to flute pedagogy." Includes access to online audio. This book constitutes the refereed proceedings of the Eighth Annual Symposium on Combinatorial Pattern Matching, CPM 97, held in Aarhus, Denmark, in June/July 1997. The volume presents 20 revised full papers carefully selected from 32 submissions received; also included are abstracts of two invited contributions. The volume is devoted to the issue of searching and matching strings and more complicated patterns, such as trees, regular expressions, graphs, point sets and arrays. The results presented are particularly relevant to molecular biology, but also to information retrieval, pattern recognition, compiling, data compression and program analysis. A***

**frank, gripping and moving - and controversial - autobiography from one of the most idiosyncratic and effective politicians of the last fifty years. His political convictions, his distance from New Labour, and his direct, plain-speaking style and personality have allowed him to survive longer than any of his contemporaries as a man of principle and influence. From his eccentric South London working class childhood to running one of the biggest cities in the world, Livingstone is one of the very few politicians to have scored a major victory over the Thatcher Government and has championed issues as diverse as the environment, gay rights and anti-racism. Written in Livingstone's unmistakable voice, by turns angrily sincere about social justice, wickedly droll and gossipy, and surprisingly wistful about people he has known and loved, this is a hugely important and remarkable book from one of the very few respected politicians at work today. Children will delight in this charming collection of stories featuring plants and animals often seen in Hawaii's gardens. A lone orchid finds friendship among roses; a kind albatross teaches a young frog about the joy of discovery; two greedy mynahs learn about sharing; a lazy blue ginger is encouraged to blossom. As a good fable should, each of these wondrous tales offers a valuable lesson at the end -- but it's one that goes down with a smile. Here are ten stories from a Hawaiian garden that will entertain and guide young and old, all illustrated in brilliant watercolors. Recommended for ages 4 and up. Moore's novel tells of a young, orphaned woman who is scorned by society for her mixed human and elven blood. She discovers that she possesses a mysterious magical power and when she travels to Elven lands in search of answers, she discovers a shocking truth about her identity that will have epic consequences for an entire nation. Volume II of Playing Outside the Lines is the second of a comprehensive four-part Irish flute method book series offering beginning to advanced Irish traditional flute instruction for Boehm and simple system flutists in graduated books, chapters, and exercises. Building on the foundation provided in Volume I and providing the framework for the remaining two volumes of the series, Volume II offers a detailed introduction to Irish traditional flute ornamentation. Volume II contains ornamentation fingering charts, 40 tune versions, 69 accompanying audio tracks, and nearly 200 exercises. Playing Outside the Lines is the first Irish flute method book series of its kind, containing more than 600 technical exercises, rich and nuanced**

*The making of modern Thailand is grounded in specific political institutions, Brahmanical tropes, and sacred Buddhist traditions stylized with Hindu rituals. Over and above these mysterious practices and ancient customs, modern Thailand is a product of the late Great Rama IX Bhumibol Adulyadej. Most Thai people have only known one King. Born in Europe and educated during World War II, Bhumibol was the son of a Harvard medical doctor who had a penchant for jazz music and fast cars. When he returned to Thailand in 1951 to assume his royal duties, he could hardly speak Thai but his French and German were remarkable. Bhumibol had inherited an impoverished country with nothing but a symbolic role as a figurehead monarch. He was surrounded by envious courtiers and royals from other families now sidelined by the rise of the Chakri. Scheming generals and authoritarian field marshals were emptying the Kingdom's coffers. Using guile and wit, Bhumibol had turned the tide by 1973. He became the most powerful modern warlord in the history of the Kingdom. He survived attempted murder, crafty politicians, corrupt generals, sycophantic courtiers and impoverished masses. When he died on October 13 2016, Bhumibol was already the longest standing monarch*

***in the world. King Bhumibol was deeply respected and well-liked by farang and locals alike. Despite his massive social and economic achievements many problems continue to plague the Kingdom. These are prostitution, human rights issues, pollution, corruption, cronyism in Chinese businesses, border conflicts with Cambodia, and the refugee problem. This book examines the role of Rama IX and the variegated set of problems that persist in life under the great white elephant and mango trees. Rappa draws from his primary research that includes interviews, surveys and first-hand observations of a remarkable kingdom and a uniquely remarkable king to reveal the internal security threats to democracy and civil society in the oldest Southeast Asian kingdom in late modernity. Appendices of: To Escape Into Dreams are companion books - second and third volumes of To Escape Into Dreams. Lineages for the following family names are compiled in Volume III the Appendices of: To Escape Into Dreams. -Eagle (Egle, Egli, Egley) -Eller -Euker -Lucas -Morgan -Mjller (Miller) -Scholter -Staley -Stoner -Watkins - Wyatt (Wiatt), among others. \* Volume III appendices also include lineages of the 12th U.S. President Zachary Taylor. Winner of the Illinois State Historical Society Outstanding Achievement Award Efforts to preserve wild places in the United States began with the allure of scenic grandeur: Yosemite, Yellowstone, the Grand Canyon. But what about the many significant natural sites too small or fragile to qualify as state or federal parks? Force of Nature reveals how George Fell initiated the natural areas movement to save those areas. Fell transformed a loose band of ecologists into The Nature Conservancy, drove the passage of the influential Illinois Nature Preserves Act, and helped spark allied local and national conservation organizations in the United States and beyond. A genealogical compilation of the descendants of Henry & Margareth Crook and their seven children. The couple was married circa 1812 in South Carolina and by 1828 could be found in Rankin County, Mississippi. Many of the descendants are traced to the present, including biographies and photographs when available. Children of all ages will delight in this captivating collection of fables featuring creatures found in Hawai'i's waters and tropical oceans worldwide. In its depths and on its shores, you'll meet many of the sea's inhabitants--from manta rays to moray eels, from colorful cowries to fish of every size and color in the rainbow. Like its companion, Fables from the Garden (UH Press, 1998), this book offers***

**valuable lessons at the end of each story. A tiny shrimp remembers an act of kindness, a seabird learns to respect the property of others, a young hermit crab understands the importance of being polite, a family of limpets perseveres in the face of stormy seas.
