**Fences Jun 05 2021 From legendary playwright August Wilson comes the powerful, stunning dramatic bestseller that won him critical acclaim, including the Tony Award for Best Play and the Pulitzer Prize. Troy Maxson is a strong man, a hard man. He has had to be to survive. Troy Maxson has gone through life in an America where to be proud and black is to face pressures that could crush a man, body and soul. But the 1950s are yielding to the new spirit of liberation in the 1960s, a spirit that is changing the world Troy Maxson has learned to deal with the only way he can, a spirit that is making him a stranger, angry and afraid, in a world he never knew and to a wife and son he understands less and less. This is a modern classic, a book that deals with the impossibly difficult themes of race in America, set during the Civil Rights Movement of the 1950s and 60s. **Forging Alberta's Constitutional Framework Feb 13 2022 Forging Alberta's Constitutional Framework analyzes the principal events and processes that precipitated the emergence and formation of the law and legal culture of Alberta from the foundation of the Hudson's Bay in 1670 until the eve of the centenary of the Province in 2005. The formation of Alberta's constitution and legal institutions was by no means a simple process by which English and Canadian law was imposed upon a receptive and passive population. Challenges to authority, latent lawlessness, interaction between indigenous and settler societies, periods (pre- and post-1905) of jurisdictional confusion, and demands for individual, group, and provincial rights and recognitions are as much part of Alberta's legal history as the heroic and mythic images of an emergent and orderly Canadian west patrolled from the outset by red coated mounted police and peopled by peaceful and law-abiding subjects of the Crown. Papers focus on the development of criminal law in the Canadian west in the nineteenth century; the Natural Resources Transfer Agreement of 1930; the National Energy Program of the 1980s; Federal-Provincial relations;**

***A Sales Tax for Alberta* Dec 11 2021 The days of buoyant capital investment, jobs, and wealth are passing Alberta by as the boom-and-bust cycle runs its course and the global climate crisis becomes more acute. As the province scrambles to boost the dying oil economy and curb spending, one solution is all but ignored—a sales tax. In this collection, Alberta scholars and policy experts map out why and how a provincial sales tax can and should be implemented. They examine energy revenues, household incomes, and political support as well as opportunities for improving democracy and reducing the volatility of government revenues. Finally, this volume offers recommendations on structuring a consultative review process to improve Alberta's long-term fiscal sustainability. Contributions by Ergete Ferede, Ian Glassford, Kenneth J. McKenzie, Melville McMillan, Elizabeth Smythe, and Graham Thomson.**

**The Territorial Dimension Of Politics Jul 26 2020 This comparative study examines the dialectical tensions between global and regional interdependence and the fragmentation of humankind into territorial entities. Political authority may remain territory-bound, but borders increasingly are penetrated by pollutants, individuals, noncentral governments in search of foreign trade and investment, and transnational corporations, as well as the traditional exchanges of trade, media, and culture. The result of these transborder flows, accelerated by new technologies, is a new variety of international relations among “perforated sovereignties.” Dr. Duchacek analyzes**

**the territorial organization of political authority in both democratic and authoritarian frameworks as well as in unitary and federal systems. Case studies focus on new forms of transborder interactions between neighboring countries, especially in North America and in Western Europe. The book is of major interest to scholars in the fields of political science and political economy. Quotations from a variety of political theorists and practitioners, illustrative diagrams, and maps make the book suitable for students of comparative politics, international relations, comparative federalism, and public policy.**
