He needs to open up. Jake Miller likes his life. It's simple and quiet. Solitary. He's taking the last thing his mother truly cared about before she died, the properties she owned, and making them his purpose. His time in the Army hadn't allowed him to be there for her before, but this is something he can do now. Just him and his dog. Exactly how he wants it. Until her, his first tenant. With her innate openness and blinding smiles, the opposite of everything he thought he could possibly want. She needs to grow up. Casey Steadman has less to show for her twenty-nine years than she'd hoped. No white picket fence. No 2.5 kids. And definitely no loving husband. Just a few lukewarm relationships, an exceedingly crappy apartment, and a fabulous shoe collection (and the credit card debt to prove it). Moving into her new place is one big, high heeled step towards a new life. The stable, make-boring-mature-decisions kind of life that she needs to be able to prove to her family that she can live. What she wasn't planning on was her hotter-than-Hades new landlord. Sparks are a-flying, and they're the kind that can only come from a stiletto-loving, dog-hating, budget-repelling, relentlessly optimistic, youngest of five becoming the tenant and next door neighbor to a stoically silent, slightly pessimistic, 'my only friend is my dog', only child and former Army Ranger. Casey and Jake are total opposites. But when they come together, it just might be true love. Jackson "The Beast" Boudreaux is rich, gorgeous, and unbelievably rude to the staff at Chef Bianca Hardwick's New Orleans restaurant. Bianca would sooner douse herself in hot sauce than cook for Jackson again, but when he asks her to cater his fundraiser, Bianca can't refuse, knowing the cash will help pay her mother's medical bills. Then Jackson makes another outrageous request: Marry me. The unconventional offer includes an enormous sum--money Bianca desperately needs, even if it does come with a contract--and a stunning ring. One woman learns that the price of belonging is often steeper than expected in this heart-wrenching yet hopeful romantic novel and first in the Seoul duology by USA Today bestselling author Jen

Frederick. As a Korean adoptee, Hara Wilson doesn't need anyone telling her she looks different from her white parents. She knows. Every time Hara looks in the mirror, she's reminded that she doesn't look like anyone else in her family—not her loving mother, Ellen; not her jerk of a father, Pat; and certainly not like Pat's new wife and new "real" son. At the age of twenty-five, she thought she had come to terms with it all, but when her father suddenly dies, an offhand comment at his funeral triggers an identity crisis that has her running off to Seoul in search of her roots. What Hara finds there has all the makings of a classic K-drama: a tall, mysterious stranger who greets her at the airport, spontaneous adventures across the city, and a mess of familial ties, along with a red string of destiny that winds its way around her, heart and soul. Hara goes to Korea looking for answers, but what she gets instead is love—a forbidden love that will either welcome Hara home...or destroy her chance of finding one. In exchange, he gave me more of his secrets too. The more he let me into his heart, the more I loved him, but I'm afraid that some secrets may be too big to overcome. Keeping a secret this big is going to take lots of balls. Specifically, rugby balls. THE CAD Bryan Leech is a cad. Or, he *was* a cad. No one is quite certain. Pixie: When I was afraid of the dark, he would shine a light in my window. We shared our popsicles and I taught him how to get a good swing on the playground. X and I were probably doomed from the start. That's what happens when you meet in court-mandated group therapy and then try to steal from him to pay off your blackmailing drug dealer. Former drug dealer, thank you very much. I'm turning over a new leaf and all that. Which is why I should leave him alone. Except he tempts me to do things I swore I'd stop doing. It's that whole gruff, grumbly, anti-social thing he has going on. Him, flame. Me, moth. Something about him calls to me, makes the blood hum in my body. And I don't want that feeling to end. Lucy Connors is straight-up insane. She looks like a Disney princess and tries my patience in more ways than I thought possible. Besides the fact that I have to save her cute little ass from jail, I can't quite figure out how to leave her alone.

An exhilarating memoir about one woman's globe-trotting journey of inspiring awakening and self-discovery. Shaken by the loss of her father, drained by her job at the United Nations, and conflicted over failed relationships, Natasha Scripture asked herself the question at the heart of her anxiety: What is my purpose? The answer was not about finding love; it was about recognizing its source. The result is *Man Fast*, a true and intimate spiritual detective story. With courage, honesty, and wit, Natasha shares the story of her awakening. Starting with the decision to fast from dating, she embarks on a journey that takes her from New York to an ashram in southern India to toiling in a vineyard on Mount Etna to a solo safari in southern Tanzania. In stepping away from the modern demand to couple up, Natasha finally finds a reflective space where she can be fully aware: of her grief, of her identity, and of love as a mystical, ever-present force. An antidote to a culture that prizes finding the right man, *Man Fast* is an emotionally charged journey that leaves us with a greater understanding of ourselves and the world around us. Revised edition: This edition of *Man Fast* includes editorial revisions. Don't fall for your coworker...especially when he's your roommate. Did I mention he's also my new roommate? It's all because I can't turn down a challenge. I never have, and I won't start now. When Sutton bets me I can't live in the same apartment as him and resist the "temptation"...well, game on. He'll be the first to cave. There is no way I'm falling for his charm...not again. "Skylar is my name, tragically." Sixteen-year-old Skylar is witty, empathetic, sensitive--and mute. Skylar hasn't uttered a single word since his mother died eleven years ago, a senseless tragedy he's grateful he doesn't have to talk about. When Skylar's father mysteriously vanishes one summer afternoon, Skylar is placed in the temporary custody of his only remaining relative, an

estranged grandmother living on an Indian reservation in the middle of arid Arizona. Adapting to a brand new culture is the least of Skylar's qualms. Because Skylar's mother did not die a peaceful death. Skylar's mother was murdered eleven years ago on the Nettlebush Reserve. And her murderer left behind a son. And he is like nothing Skylar has ever known."--Page 4 of cover. When I was seventeen, I disappeared. I walked out of my apartment with a backpack and never looked back. I could have said my dog, or my books, or yoga - but I just stared. And then, I got in his car. It was crazy to take a road trip with a stranger, but after years of standing still, he was my one-way ticket to a new life, and I wasn't going to miss it. We shared the same space, the same car, the same hotel room - and still, we were strangers. One day we'd be laughing, the next, we wouldn't speak. Emery was surrounded by impenetrable walls, but I wanted in. Discovering his journal changed everything. I read his thoughts, words not meant for anyone's eyes, and the more I learned about him, the harder I fell. It turned out nothing made Emery Reed happy, and I wanted to change that. I earned his trust by violating his privacy, and as wrong as it was, it worked - until one entry revealed a darkness I never knew existed, a timer I never knew was ticking. Suddenly, what made me happy was saving Emery from himself. I just didn't know if I could. A novel about the adventures and regrets of a Texas Oil Princess's quest for finding love... Melanie St. John is a beautiful, smart, rich Texan daddy's girl born to a bold, high-powered lawyer in the oil business who helps Melanie grow into someone who is both worldly and capable. But once she leaves college and enters the privileged world of dating highly sought-after "men of leisure," she is catapulted in and out of the wealthiest places on the globe while hoping to get married and start a family with one of them. But these mostly destructive love affairs soon become a dynamic exploration of wealth and love, with all the highs and lows. And to complicate matters she is surrounded by her older, free-wheeling, wildcat sister (and her sister's exotic but destructive best friend) as well as her own two completely opposite best friends, and each of them also hopes to find their own

Prince Charming-which all only adds to the competition, adventures, and scandals. But throughout each relationship Melanie explores the deeper, more prevalent themes of family, friendship, love, intimacy, freedom, betrayal, motherhood, and most of all, inner strength. Have a book club? Stupid By Choice would be a great topic of discussion about love, family, and relationships! You could even have a themed "T.O.P. I always choose a dare. And no matter the dare, I always follow through. Even if it means walking down a busy street in my bathrobe and hair curlers. Or recreating that iconic When Harry Met Sally deli scene while on a crowded subway. Or hitting on a handsome stranger in a bar. And then ... marrying that stranger. While in Vegas. But the one thing I'm not supposed to do is fall in love with this man. That wasn't part of the dare. Only my heart never got that memo. Mila "Don't let go." Those were my first words to him, as I hung over the side of a London bridge. The words I would soon say again, in a moment that didn't involve bridges, but something much more fragile: my heart. He held onto me for three weeks, in a time when I needed to be held. Needed to connect to someone who understood how loss tunneled unrepentantly through the fabric of your soul. Although he said he'd stay, we both knew he wouldn't. I had already survived one loss-I didn't know if I'd survive another. Ames She spun into my life like a tornado of smiles and chatter and everything else I'd long avoided, with a persistence that I admired, albeit begrudgingly. She broke down each neat wall I'd constructed without even trying. Her presence alone caused me to remember what it felt like to smile, to look forward to what the day would bring. But it was only supposed to last three weeks. "Don't let go," she'd pleaded. I'd promised her I wouldn't-but I would. I didn't have a choice. Six was always there, even when I didn't want him. But he couldn't hold me together, and I couldn't be his penance.Loss is a phantom limb. No one can see it, but the ache torments you in the night, distracts you during the day, and leaves you fragmented. I'm half a heart, half a soul, and nothing could cure the pieces he'd left behind.Losing him was safer than

loving him. Because the love that kept us coming back again and again was nothing short of madness.But then, isn't mad love the most honest?--  
-Pieces of Eight is the sequel to Six Feet Under and the final book in the Mad Love duet. It should not be read as a standalone. Triggers include mental illness, self-harm, and addiction. Temptation has never come in a hotter package. You know how people say you can never believe what you read on the interwebs? That a hot guy online is probably a creeper with a beer gut and a shoe fetish, not the sexy beast he pretends to be? So I had no clue that the anonymous blogger who contacted my law firm about his naughty website would be droolworthy in real life. Not that I'm interested in him in that way. Attorneys can't go around sleeping with their clients. Not even if he is the most beautiful man I've ever met and so ridiculously smart he makes my nerdy-girl heart sigh. Besides, he has too much on the line to risk taking a chance on the insane chemistry building between us. We both do. I've always followed the rules. Too bad he makes me want to break each and every one of them. A SMALL HOTEL A new novel from Suanne Laqueur, author of The Fish Tales An American Family. A World War. A First Love. A Small Hotel. It's the summer of 1941. Europe is at war, but New York's Thousand Islands are at the height of the tourist season. Kennet Fiskare, son of a hotel proprietor, is having the summer of a lifetime, having fallen deeply in love with a Swedish-Brazilian guest named Astrid Virtanen. But the affair is cut short and the young lovers permanently parted, first by Astrid's family obligations, then by America's entry into the war. The rigors of military life help dull his heartache, but when Kennet's battalion reaches France, he is thrown into the crucible of front line combat. As his unit crosses Europe, from the Battle of the Bulge in Belgium to Mauthausen concentration camp in Austria, Kennet falls into a different kind of love: the intense camaraderie between soldiers. It's a bond fierce yet fragile, vital yet expendable, here today and gone tomorrow. Sustained by his friendships, Kennet both witnesses and commits the unthinkable atrocities of warfare, altering his view of the world and himself. To the point where a second chance with Astrid in peacetime might be the most terrifying and consequential battle he's ever fought. With her signature

blend of soul-stirring prose and emotional complexity, Laqueur takes readers on a journey through events that shape an American family's weakest moments and finest hours. *A Small Hotel* illuminates the experience of ordinary people thrown into extraordinary circumstances, and their once-in-a-generation camaraderie, courage and resiliency. It's a novel for the world, a heartbreaking, uplifting story of family, love and human endurance. Gideon always has a plan. It includes running for class president, becoming head of the yearbook committee, and having his choice of colleges. It does NOT include falling head over heels for his best friend, Kyle. It's a distraction, it's pointless—Kyle is already dating the head cheerleader, Ruby—and Gideon doesn't know what to do. Kyle finally feels like he has a handle on life. He has a wonderful girlfriend, a best friend willing to debate the finer points of *Lord of the Rings*, and social acceptance as captain of the basketball team. So when both Ruby and Gideon start acting really weird, just as his spot on the team is threatened, Kyle can't quite figure out what he did wrong. Sandy Hall, the author of *A Little Something Different*, is back with her signature wit in this quirky and heartfelt LGBT YA novel. Axel Rooney Sullivan is sunshine incarnate. Warm, bright, always smiling, she's the last person I have any business desiring. I've done everything possible to keep my distance... until a charades game gone wrong brought that to a grinding halt. Since then, steering clear of Rooney has been impossible, and the woman who was once avoidable has become the last thing I needed—temptingly within reach. Rooney Axel Bergman is a gorgeous grump who doesn't have the time of day for me. Somehow, I've kept my crush hidden ... well, until I kissed him. My life is a mess, and the last thing I need is to embarrass myself further with the man who avoids me like it's his job rather than painting modern masterpieces. But it seems the universe has a different plan as we unexpectedly find our paths - and problems - converging. And we've come up with one very unexpected solution... ----

Praise for Chloe Liese: 'I could curl up in Liese's writing for days, I love it so' Helen Hoang, author of *The Kiss Quotient* 'Absolute romantic perfection' Christina Lauren, author of *The Unhoneymooners* Adam Oliver hated me. Loathed my very existence. He had every right to, but that didn't make my life any easier the afternoon I had to rescue him on the side of the road. But worse than rescuing a guy who hated me to his core was the lie I told my parents. Because I'd just told them that my long-term boyfriend was finally back in town. My long-term boyfriend who didn't actually exist. The one named Adam Oliver—the guy I'd crushed on all through high school. So the real Adam had no idea that he and I were engaged in a years-long, committed, serious

relationship. And, somehow, some way, I needed to convince him to play along with my one little lie. "Me and you. It'll never happen. Not today, not tomorrow, not five years from now. Not when some idiot breaks your heart, or when you realise what your little sundresses do to everyone. Not when you're thirty, not when you're fifty. I'm going to push your limits, break you down, make you cry, and in the end ... I'll save you." Some people exist in the blessed light of day, but I'm not one of those people. I exist in the bleak grey of a post-twilight world, where the warmth is sucked from the air and the weightless shadows come out to play. I will never be free, because I have a demon. It wasn't always with me, but something happened, something bad. I lost a year of my life, and now here I am, just me and my demon. Maybe the demon is him: Nikolai Fell. He exists in the horrible darkness of a moonless night: quiet, full of mystery, completely unreachable. He might be in the profession of saving people, but it isn't going to work this time. Not even when he starts to break all of his own rules. Because maybe ... Just maybe ... My demon is me. Bakery owner Willow Dalton's friendship with Zane Walker has always been a bit complicated. Now a scrumptiously hot A-list actor, Zane's always had a reputation as a player. He's arrogant, and he's definitely not boyfriend material. Sure, he did Willow a favor by agreeing to take her virginity before college, but is that reason enough for her to go along with a fake engagement a decade later—even if it comes with a real diamond ring? Zane should have known better. Nothing involving Willow has ever been easy. Still, he knows her better than anyone, and becoming America's hottest new leading man means cleaning up his reputation. An "engagement" to curvy, sass-mouthed Willow is the perfect PR move...provided no one gets hurt. Now Zane and Willow's little white lie has turned into an irresistible recipe for sweet temptation. And soon no one will be able to tell the difference between their fake engagement and the real thing—including them. Logan Crowne needs one year from Ella. Twelve months living in his house, holding his hand, wearing his ring on her finger, and in exchange, she'll get her father's company in the divorce settlement. They have one year to convince his skeptical parents that they're happily in love, and he's settled enough to

run Crowne Industries. Ella wants the company badly enough to live with a man who will never love her. She'll sleep in his room and kiss him for show. Her heart may melt whenever he's around, and his touch may ignite a fire inside her, but surrender will break her heart. She's sure she can last a year without giving him her body. She's wrong. Sarah O'Brien is only alive because of the pact she and her brother made twelve years ago—James will protect her from their violent father if she promises never to leave him. For years, she's watched James destroy his life to save hers. If all he asks for in return is her affection, she'll give it freely. Until, with a tiny kiss and a broken mind, he asks for more than she can give. Sam Donavon has been James's best friend—and the boy Sarah's had a crush on—for as long as she can remember. As their forbidden relationship deepens, Sarah knows she's in trouble. Quiet, serious Sam has decided he's going to save her. Neither of them realizes James is far more unstable than her father ever was, or that he's not about to let Sarah forget her half of the pact...
