Alone in the big city, girl on the rise, Vivian Anderson was making it by herself. She didn't need a man or a relationship. She had her family and friends convinced that flying solo was her only option because of her demanding career. Of course, she had dates but not one person appealed to her. All of her previous romances left her dead in the water. Was it possible that she had overlooked the man of her dreams? Once Vivian stopped searching, her knight in shining armor fell into her lap (she almost tossed him aside from sheer annoyance). Now what to do? If only life was simple and uncomplicated. Vivian didn't want to make the same mistakes that her parents made, yet they were the only examples she had. Vivian needed counseling and a role model. Would she be able to salvage her relationship with Robert Taylor or would she run from true love as she had done so many times before? Vivian finds love but she decides to go against the grain. She wants love her way because that is the only way she will agree to it. Will she be successful or fail once again? This manual, published by the Illinois Association of School Boards, was designed to be used as a teaching tool and reference source for overseeing effective school maintenance. Section 1 describes the basics of good school maintenance, including managing the program, using computers, controlling energy costs, ensuring safe practices, designing buildings for efficient maintenance, and being informed about environmental issues. Section 2 details guidelines for operating cleaning and general building services, such as custodial operations, area cleaning programs, and equipment and supplies. A custodian's glossary is included. The third section provides guidelines for building maintenance, specifically, caring for the exterior and roof. Procedures for maintaining school grounds are detailed in the fourth section. The fifth section describes the maintenance of mechanical equipment, including heating and air conditioning systems, sanitary systems and fixtures, sewage treatment plants, and electrical systems. A management tools appendix contains a list of environmental resources; sections on cleaning and general building services, grounds maintenance, and mechanical equipment; and annual inspection checklists.
