Handbook Command Philosophy My philosophy is basic...provide the
highest quality service possible to every person you encounter. We
are an institution of higher learning; we need to be the best with
everything we do. We are preparing the next generation of heroes for
the greatest fighting force on the planet - the 8404 Hospital
Corpsman assigned to the United States Marine Corps. They operate
at the tip-of-the spear providing combat medicine to our operational
forces; they are critical to the success of the Navy & Marine Corps
Medicine Team. What each one of us does on a daily basis matters,
regardless of our job. We all contribute to the mission. No one job is
more important than the other. If just one link (team member) in this
chain fails to perform a portion of the mission to standard, we all fail.
You have the ability to make a positive difference in peoples' lives
every day. Every member of this team should ask themselves, "Am I
living by our core values and making decisions that are consistent
with these values when I interact with students, staff and the
American public." Key points: - Know your chain of command and
how to use it. You have not exhausted your chain of command at
FMTB-West until the issue reaches me. - If you are lacking something
to perform your mission, bring it to the attention of leadership so we
can promptly address it. - Any safety issue should immediately be
brought to leadership. - Continually strive to improve processes; ask
for help before it's too late (in all aspects of your life and career). -
If you see a problem, fix it or bring it to the attention of someone who
can. Don't ignore it. - Supporting each other is just as important as*

supporting the mission. - Continue the relentless pursuit of customer satisfaction; feedback is a valuable tool in life and career. - Basic military courtesy should be a part of everyday life. - Always strive to do the right thing, even when no one is looking or when tempted to take the “easy” wrong. As a leader, I believe all members of the team are important. Our civilian shipmates are essential to the success of our mission. As a military leader, I believe, as the Sailor creed says, “I proudly serve my country's Navy combat team with Honor, Courage and Commitment. I am committed to excellence and the fair treatment of all”. I cannot over emphasize the importance of leadership from E-1 to O-6, everyone has a part; I expect officers to lead from the front by setting the example. Be sure that regularly scheduled performance counseling sessions are conducted for military and civilian employees. Cover the good which should be sustained as well as the areas which need improvement. Although I like to be informed, I believe in allowing leaders to lead, managers to manage. A big part of my job is to provide you the support systems necessary for you to accomplish your mission. Tell me what you need and don't worry how it will be resourced. Let me worry about that.

NOTE: NO FURTHER DISCOUNT FOR THIS PRINT PRODUCT-- OVERSTOCK SALE -- *Significantly reduced list price while supplies last A comprehensive source of the information available on chemical agents, this book will increase the level of preparedness and response capability of military and civilian practitioners responsible for chemical casualty care. Includes detailed explanations of chemical detectors and protection equipment, diagnosis, decontamination techniques, established and emerging countermeasures, and therapy techniques, as well as the history of chemical warfare and casualty management. This book content will primarily appeal to military healthcare providers. Emergency first providers and responders,*

specialists in chemical warfare, industrial accidents, and terrorism may also have an interest in this authoritative material. Related products: Medical Management of Chemical Casualties Handbook is available here:
