**Division Zero 2** Jan 19 2023 Some soldiers don't let anything sway them from their mission, not even death from high explosives. Free from her troubled past, Agent Kirsten Wren finds happiness mentoring Evan, a boy with similar talents with whom she soon forms a strong bond. Her efforts to help Dorian settle his past become complicated when a team of corporate "issue resolution consultants" continue their mission to kill a man in the afterlife. Kirsten gets involved when their postmortem grudge match spills into the realm of the living. At the scene of a surgical explosion that gutted only one floor of a residential tower, she discovers a strange arcane circle drawn in silver. There, she senses energy darker than any wraith she has yet encountered; a force that questions everything she believes about the world. Vikram Medhi, the hacker targeted by Lyris Corporation for elimination, begs her to protect him from undead out to destroy him. With no way to track these spirits, she seeks help from an enigmatic billionaire who offers her more than a simple translation of ancient Sumerian pictographs. Chasing down a dangerous psionic criminal in the oldest lawless zone in the city, trying to protect a man on a corporate death list, and trying to keep both of them from hurting the one person in the world she loves, Kirsten must reach deep within herself to accept her destiny.

**An American Political Archives Reader** Sep 15 2022 The personal papers of former members of Congress, which constitute at least half of the documentation of the legislative branch of government, are held in over 500 different institutions. An American Political Archives Reader performs the vital task of making these collections more accessible by presenting the best and most recent scholarship on congressional collections. The articles contained in this volume guide archivists through the challenges of dealing with these voluminous, complex collections. For institutions developing their political documentary resources and working toward greater accessibility of political archives, this book provides much needed information and is a welcome handbook on the appraisal and preservation of political collections.
