The beloved guidebook for first-year students seeking a successful college experience is now available in a new edition "This book SHOULD be required. The authors] have created a lively, insightful, and tangible source that students can utilize in the classroom and in life. They want to read the book because it speaks to them, and it provides me with a classroom full of hungry, alert minds." - Melanie C. Klein, California State University, Northridge

The Fourth Edition of the classic *This Book is Not Required: A Success Manual for First-Year Students* breaks new ground in participatory education, offering insight and inspiration to help undergraduates make the most of their college years. This edition continues to teach about the college experience as a whole looking at the personal, social, intellectual, and spiritual demands and opportunities while incorporating new material highly relevant to today's students. The material is presented in a personable and straightforward manner, maintaining Dr. Inge Bell's illuminating writing style throughout, and inviting students to take responsibility for, and make the most of, their educational experiences. New to This Edition Features two new chapters, "Technology (Chapter 3) and "Survival Skills" (Chapter 12), as well as new material on academic integrity, including the increased prevalence of cheating through the Internet. Key Features Offers real-life student vignettes that address current issues facing college

students Encourages a participatory college education and personal reflection for students in many different disciplines Includes three bonus appendices: For Teachers and Students Using this Book; A Primer on Buddhist Sociology' Pioneered by Inge Bell; and Short Biographies of the Team Bell' Members This Book Is Not Required is a valuable guidebook for any student new to the college experience. It is also an excellent text for freshman orientation programs and for a number The award-winning title has now been revised to offer the most up-to-date information and consumer protection advice available. The Online Teaching Survival Guide offers faculty a wide array of theory-based techniques designed for online teaching and technology-enhanced courses. Written by two pioneers in distance education, this guidebook presents practical instructional strategies spread out over a four-phase timeline that covers the lifespan of a course. The book includes information on a range of topics such as course management, social presence, community building, and assessment. Based on traditional pedagogical theory, The Online Teaching Survival Guide integrates the latest research in cognitive processing and learning outcomes. Faculty with little knowledge of educational theory and those well versed in pedagogy will find this resource essential for developing their online teaching skills. Praise for The Online Teaching Survival Guide "At a time when resources for training faculty to teach online are scarce, Judith Boettcher and Rita-Marie Conrad have presented a must-read for all instructors new to online teaching. By

tying best practices to the natural rhythms of a course as it unfolds, instructors will know what to do when and what to expect. The book is a life raft in what can be perceived as turbulent and uncharted waters." —Rena M. Palloff and Keith Pratt, program directors and faculty, Teaching in the Virtual Classroom Program, Fielding Graduate University

"Developed from years of experience supporting online faculty, Judith Boettcher and Rita-Marie Conrad's book provides practical tips and checklists that should especially help those new to online teaching hit the ground running." —Karen Swan, Stukel Distinguished Professor of Educational Leadership, University of Illinois Springfield

"This book blends a fine synthesis of research findings with plenty of practical advice. This book should be especially valuable for faculty teaching their first or second course online. But any instructor, no matter how experienced, is likely to find valuable insights and techniques." —Stephen C. Ehrmann, director, Flashlight Program for the Study and Improvement of Educational Uses of Technology; vice president, The Teaching, Learning, and Technology Group

From the acclaimed author of *Black Hole Blues and Other Songs from Outer Space*—an authoritative and accessible guide to the most alluring and challenging phenomena of contemporary science. "[Levin will] take you on a safe black hole trip, an exciting travel story enjoyed from your chair 's event horizon. " —Boston Globe Through her writing, astrophysicist Janna Levin has focused on making the science she studies not just comprehensible but also, and perhaps more important, intriguing to the nonscientist. In this book, she helps us to understand and find delight in the black hole—perhaps the most opaque theoretical construct ever imagined by physicists—illustrated with original artwork by American painter and photographer Lia Halloran. Levin takes us on an evocative exploration of black holes, provoking us to imagine the visceral

experience of a black hole encounter. She reveals the influence of black holes as they populate the universe, sculpt galaxies, and even infuse the whole expanse of reality that we inhabit.
