Sundial Aug 19 2022 “DO NOT MISS THIS BOOK. Authentically terrifying.” —Stephen King A Bram Stoker Award nominee • LibraryReads Top 10 Pick • A GoodReads Choice Award Finalist for Best Horror • Starred review from Publishers Weekly! Sharp as a snakebite, *Sundial* is a gripping novel about the secrets we bury from the ones we love most, from Catriona Ward, the author of *The Last House on Needless Street*. Rob has spent her life running from Sundial, the family’s ranch deep in the Mojave Desert, and her childhood memories. But she’s worried about her daughter, Callie, who collects animal bones and whispers to imaginary friends. It reminds her of a darkness that runs in her family, and Rob knows it’s time to return. Callie is terrified of her mother. Rob digs holes in the backyard late at night, and tells disturbing stories about growing up on the ranch. Soon Callie begins to fear that only one of them will leave Sundial alive...

*Horrid* Mar 14 2022 From the author of *You Must Not Miss* comes a haunting contemporary horror novel that explores themes of mental illness, rage, and grief, twisted with spine-chilling elements of Stephen King and Agatha Christie. Following her father's death, Jane North-Robinson and her mom move from sunny California to the dreary, dilapidated old house in Maine where her mother grew up. All they want is a fresh start, but behind North Manor's doors lurks a history that leaves them feeling more alone . . . and more tormented. As the cold New England autumn arrives, and Jane settles in to her new home, she finds solace in old books and memories of her dad. She steadily begins making new friends, but also faces bullying from the resident "bad seed," struggling to tamp down her own worst nature in response. Jane's mom also seems to be spiraling with the return of her childhood home, but she won't reveal why. Then Jane discovers that the "storage room" her mom has kept locked isn't for storage at all -- it's a little

girl's bedroom, left untouched for years and not quite as empty of inhabitants as it appears . . . Is it grief? Mental illness? Or something more . . . horrid?

NATØ: Narrative Architecture in Postmodern London Jul 18 2022 Chronicling the last radical architectural group of the twentieth century - NATØ (Narrative Architecture Today) - who emerged from the Architectural Association at the start of the 1980s, this book explores the group's work which echoed a wider artistic and literary culture that drew on the specific political, social and physical condition of 1980s London. It traces NATØ's identification with a particular stream of post-punk, postmodern expression: a celebration of the abject, an aesthetic of entropy, and a do-it-yourself provisionality. NATØ has most often been documented in reference to Nigel Coates (the instigator of NATØ), which has led to a one-sided, one-dimensional record of NATØ's place in architectural history. This book sets out a more detailed, contextual history of NATØ, told through photographs, drawings, and ephemera, restoring a truer polyvocal narrative of the group's ethos and development.

*Finding Latinx Sep 20 2022 Latinos across*

*the United States are redefining identities, pushing boundaries, and awakening politically in powerful and surprising ways. Many—Afrolatino, indigenous, Muslim, queer and undocumented, living in large cities and small towns—are voices who have been chronically overlooked in how the diverse population of almost sixty million Latinos in the U.S. has been represented. No longer. In this empowering cross-country travelogue, journalist and activist Paola Ramos embarks on a journey to find the communities of people defining the controversial term, “Latinx.” She introduces us to the indigenous Oaxacans who rebuilt the main street in a post-industrial town in upstate New York, the “Las Poderosas” who fight for reproductive rights in Texas, the musicians in Milwaukee whose beats reassure others of their belonging, as well as drag queens, environmental activists, farmworkers, and the migrants detained at our border. Drawing on intensive field research as well as her own personal story, Ramos chronicles how “Latinx” has given rise to a sense of collectivity and solidarity among Latinos unseen in this country for decades. A vital and inspiring work of reportage, Finding Latinx calls on all of us to expand our*

*understanding of what it means to be Latino and what it means to be American. The first step towards change, writes Ramos, is for us to recognize who we are.*

To determine whether the heart of humankind is pure and good, two godlike beings engage in an otherworldly wager during Mexico's annual Day of the Dead celebration. They tether two friends, Manolo and Joaquin, into vying for the heart of the beautiful and fiercely independent Maria, with comical and sometimes dangerous consequences. This volume is an inspirational behind-the-scenes look at the making of the animated feature film The Book of Life, from visionary producer Guillermo del Toro (Pan's Labyrinth) and director Jorge R. Other Plays Dec 19 2019 This innovative collection, featuring three plays by Carlos Morton, spans five centuries of Mexican and Mexican American history. In the tradition of teatro campesino, these plays present provocative revisions of historical events. The first play, *La Malinche*, challenges the historical record of the tragic clash between Indians and Spaniards. The near-mythical *La Malinche*, who betrayed her country for love of Hernan Cortez but was then betrayed by him, is freed from the bonds of history to have her vengeance. She saves her legacy and destroys the legacy of the conquistador. In the second play, *Dreaming on a Sunday in the Alameda*, characters from a mural by painter Diego Rivera come to life to depict four centuries of Mexican history. Among these, *Frida Kahlo*, Rivera's wife, finally steps out of his shadow as a woman and artist in her own right. *Esperanza*, a libretto for an opera, tells the story of Mexican miners who labored in twentieth-century Silver City, New Mexico. Based on the classic movie *Salt of the Earth*, this play deftly portrays the crisis that foretold the rise of the Chicano movement.

2020 In the summer of 2016, Disney introduced its first Latina princess, Elena of Avalor. *Princesa of the Periphery* explores this Disney property using multiple case studies to understand its approach to girlhood and Latinidad. Following the circuit of culture model, author Diana Leon-Boys teases out moments of complex negotiations by Disney, producers, and audiences as they navigate Elena's circulation. Case studies highlight how a flexible Latinidad is deployed through corporate materials, social media pages, theme park experiences, and the television series to create a princess who is both marginal to Disney's normative vision of princesshood and central to Disney's claims of diversification. This multi-layered analysis of Disney's mediated Latina girlhood interrogates the complex relationship between the U.S.'s largest ethnic minority and a global conglomerate that stands in for the U.S. on the global stage.

*Scenes of Subjection: Terror, Slavery, and Self-Making in Nineteenth-Century America*  
Aug 07 2021 The groundbreaking debut by the award-winning author of *Wayward Lives, Beautiful Experiments*, revised and updated. Saidiya Hartman has been praised as “one of our most brilliant contemporary thinkers” (Claudia Rankine, *New York Times Book Review*) and “a lodestar for a generation of students and, increasingly, for politically engaged people outside the academy” (Alexis Okeowo, *The New Yorker*). In *Scenes of Subjection*—Hartman’s first book, now revised and expanded—her singular talents and analytical framework turn away from the “terrible spectacle” and toward the forms of routine terror and quotidian violence characteristic of slavery, illuminating the intertwining of injury, subjugation, and selfhood even in abolitionist depictions of enslavement. By attending to the withheld and overlooked at the margins of the historical archive, Hartman radically reshapes our understanding of history, in a work as resonant today as it was on first publication, now for a new generation of readers. This 25th anniversary edition features a new preface by the author, a

foreword by Keeanga-Yamahtta Taylor, an afterword by Marisa J. Fuentes and Sarah Haley, notations with Cameron Rowland, and compositions by Torkwase Dyson.

*Temporomandibular Disorders* May 04 2021 Temporomandibular disorders (TMDs), are a set of more than 30 health disorders associated with both the temporomandibular joints and the muscles and tissues of the jaw. TMDs have a range of causes and often co-occur with a number of overlapping medical conditions, including headaches, fibromyalgia, back pain and irritable bowel syndrome. TMDs can be transient or long-lasting and may be associated with problems that range from an occasional click of the jaw to severe chronic pain involving the entire orofacial region. Everyday activities, including eating and talking, are often difficult for people with TMDs, and many of them suffer with severe chronic pain due to this condition. Common social activities that most people take for granted, such as smiling, laughing, and

kissing, can become unbearable. This dysfunction and pain, and its associated suffering, take a terrible toll on affected individuals, their families, and their friends. Individuals with TMDs often feel stigmatized and invalidated in their experiences by their family, friends, and, often, the health care community.

Misjudgments and a failure to understand the nature and depths of TMDs can have severe consequences - more pain and more suffering - for individuals, their families and our society. Temporomandibular Disorders:

Priorities for Research and Care calls on a number of stakeholders - across medicine, dentistry, and other fields - to improve the health and well-being of individuals with a TMD. This report addresses the current state of knowledge regarding TMD research, education and training, safety and efficacy of clinical treatments of TMDs, and burden and costs associated with TMDs. The recommendations of Temporomandibular Disorders focus on the actions that many organizations and agencies should take to improve TMD research and care and improve the overall health and well-being of individuals with a TMD.

*Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara's older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Only then would she wonder if she'd traveled too far, if there was still a way home. "Beautiful and propulsive . . . *The Case for Marriage* Feb 01 2021 A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. *The Case for Marriage* is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing

instead that by a broad range of indices, marriage is actually better for you than being single or divorced— physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. *The Case for Marriage* combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. “A compelling defense of a sacred union. *The Case for Marriage* is well written and well argued, empirically rigorous and learned, practical and commonsensical.” -- William J. Bennett, author of *The Book of Virtues* “Makes the absolutely critical point that marriage has been misrepresented and misunderstood.” -- *The Wall Street Journal*

Homesick Nov 22 2022 The story of a personal housing crisis that led to a discovery of the true value of home.

'Incredibly moving. To find peace and a sense of home after a life so profoundly affected by the housing crisis, is truly inspirational' Raynor Winn, bestselling author of *The Salt Path* Aged thirty-one, Catrina Davies was renting a box-room in a house in Bristol, which she shared with four other adults and a child. Working several jobs and never knowing if she could make the rent, she felt like she was breaking apart.

*Homesick for the landscape of her childhood, in the far west of Cornwall, Catrina decides to give up the box-room and face her demons. As a child, she saw her family and their security torn apart; now, she resolves to make a tiny, dilapidated shed a home of her own. With the freedom to write, surf and make music, Catrina rebuilds the shed and, piece by piece, her own sense of self. On the border of civilisation and wilderness, between the woods and the sea, she discovers the true value of home, while trying to find her place in a fragile natural world. This is the story of a personal housing crisis and a country-wide one, grappling with class, economics, mental health and nature. It shows how housing can trap us or set us free, and what it means to feel at home.*

*The Shock Doctrine* Jun 05 2021 The bestselling author of *No Logo* shows how the global "free market" has exploited crises and shock for three decades, from Chile to Iraq. In her groundbreaking reporting, Naomi Klein introduced the term "disaster capitalism." Whether covering Baghdad after the U.S. occupation, Sri Lanka in the wake of the tsunami, or New Orleans post-Katrina, she witnessed something remarkably similar. People still reeling from catastrophe were being hit again, this time with economic "shock treatment," losing their land and homes to rapid-fire corporate takeovers. *The Shock Doctrine* retells the story of the most dominant ideology of our time, Milton Friedman's free market economic revolution. In contrast to the popular myth of this movement's peaceful global victory, Klein

shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South Africa, Russia, and Iraq. At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself. Klein argues that by capitalizing on crises, created by nature or war, the disaster capitalism complex now exists as a booming new economy, and is the violent culmination of a radical economic project that has been incubating for fifty years.

*Musicology and Dance* Dec 31 2020 Long treated as peripheral to music history, dance has become prominent within musicological research, as a prime and popular subject for an increasing number of books, articles, conference papers and special symposiums. Despite this growing interest, there is a need for thorough-going critical examination of the ways in which musicologists might engage with dance, thinking not only about specific repertoires or genres, but about fundamental commonalities between the two, including embodiment, agency, subjectivity and consciousness. This volume begins to fill this gap. Ten chapters illustrate a range of conceptual, historical and interpretive approaches that advance the interdisciplinary study of music and dance. This methodological eclecticism is a defining feature, integrating insights from critical theory, cultural studies, the visual arts, phenomenology, cultural anthropology and literary criticism into the study of music and dance.
