No More Cheeks to Turn? Oct 05 2021 How should Christians respond to violence against them? In this practical, Christ-centered book Sunday Agang recounts his own journey from being an angry young pastor eager for revenge to being a peacemaker. He writes about the use and abuse of Scripture in the context of violence and points to Christ as our supreme example. The book also contains many examples of ordinary people working out their theology of peace in practice. Study questions encourage us to reflect on our own experiences of violence and to develop creative strategies for responding to violence without compromising the kingdom values by which we live. The book is intended for pastors and young adults.

*The African Trilogy Mar 10 2022 Here, collected for the first time in Everyman's Library, are the three internationally acclaimed classic novels that comprise what has come to be known as Chinua Achebe's "African Trilogy"—with an introduction by Chimamanda Ngozi Adichie . Beginning with the best-selling *Things Fall Apart*—on the heels of its fiftieth anniversary—*The African Trilogy* captures a society caught between its traditional roots and the demands of a rapidly changing world. Achebe's most famous novel introduces us to Okonkwo, an important member of the Igbo people, who fails to adjust as his village is colonized by the British.*

In No Longer at Ease we meet his grandson, Obi Okonkwo, a young man who was sent to a university in England and has returned, only to clash with the ruling elite to which he now believes he belongs. Arrow of God tells the story of Ezuelu, the chief priest of several Nigerian villages, and his battle with Christian missionaries. In these masterful novels, Achebe brilliantly sets universal tales of personal and moral struggle in the context of the tragic drama of colonization.

Looking for Transwonderland Feb 21 2023 A “remarkable chronicle” of a journey back to this West African nation after years of exile (The New York Times Book Review). Noo Saro-Wiwa was brought up in England, but every summer she was dragged back to visit her father in Nigeria—a country she viewed as an annoying parallel universe where she had to relinquish all her creature comforts and sense of individuality. After her father, activist Ken Saro-Wiwa, was killed there, she didn’t return for several years. Then she decided to come to terms with the country her father given his life for. Traveling from the exuberant chaos of Lagos to the calm beauty of the eastern mountains; from the eccentricity of a Nigerian dog show to the decrepit kitsch of the Transwonderland Amusement Park, she explores Nigerian Christianity, delves into the country’s history of slavery, examines the corrupting effect of oil, and ponders the huge success of Nollywood. She finds the country as exasperating as ever, and frequently despairs at the corruption and inefficiency she encounters. But she also discovers that it is far more beautiful and varied than she had ever imagined, with its captivating thick tropical rain forest and ancient palaces and monuments—and most engagingly and entertainingly, its unforgettable people. “The author allows her love-hate relationship with Nigeria to flavor this thoughtful travel journal, lending it irony, wit and frankness.” —Kirkus Reviews

COVID-19 in the Commonwealth Sep 04 2021 2020 was the first year of the COVID-19 pandemic, the most significant global pandemic since the 'Spanish flu' in 1918-1919. This book provides an analysis of the experience of the COVID-19 pandemic in a range of Commonwealth countries during 2020, covering public health, political, economic and international aspects. The Commonwealth, within which about one quarter of the world's population resides, provides a cross-section of the global experience of COVID-19. The Commonwealth ranges from highly populated countries such as India and Nigeria, to small island states and territories,

encompassing also advanced industrialised countries and developing countries. The grouping also extends into many different regions of the world: Africa, South and Southeast Asia, Europe, the Americas and Oceania. In the first year of the pandemic, vaccines were still under development and national response strategies chosen by Commonwealth countries were diverse, spanning eradication, elimination, suppression and mitigation. The chapters in this book show the ways in which governments from a selection of Commonwealth countries responded to the multiple dimensions of the crisis, pointing to the factors that led to effective or less effective policies. This book originally appeared as a special issue of The Round Table: The Commonwealth Journal of International Affairs. Journalism and Politics in Nigeria Sep 23 2020 This book explores the legacy of colonial heritage on Nigerian political activities and journalistic practices. It asserts that journalism and multi-party politics were introduced into the country during British colonial rule, and, while they have become domesticated and indigenised, they still exhibit traces of their roots because they emerged in a different socio-cultural and political environment. Taking as its point of departure the view that, without the colonial intervention, the Nigerian state may not have come into being or survived in its present form, this book offers fresh insight into the impact of British colonial rule on contemporary journalistic practices and political activities more than 100 years after the 'creation' of Nigeria. It draws attention to the enduring effect of colonial inheritance on Nigeria and how the 'creation' process of the country produced unintended consequences that remain problematic. Using press

coverage of the politics of transition-to-civil-rule programmes during periods of military dictatorship as a case study, the book identifies trends and patterns of influence from the past that have been interlaced into the present.

State, Economy, and Society in Post-Military Nigeria Jan 28 2021

Civil Society, Conflict Resolution, and Democracy in Nigeria Sep 16 2022
African nations have watched the recent civic dramas of the Arab Spring and Occupy Wall Street asking if they too will see similar civil society actions in their own countries. Nigeria—Africa's most populous nation—has long enjoyed one of the continent's most vibrant civil society spheres, which has been instrumental in political change. Initially viewed as contributing to democracy's development, however, civil society groups have come under increased scrutiny by scholars and policymakers. Do some civil society groups promote democracy more effectively than others? And if so, which ones, and why? By examining the structure, organizational cultures, and methods of more than one hundred Nigerian civil society groups, Kew finds that the groups that best promote democratic development externally are themselves internally democratic. Specifically, the internally democratic civil society groups build more sustainable coalitions to resist authoritarian rule; support and influence political parties more effectively; articulate and promote public interests in a more negotiable fashion; and, most importantly, inculcate

democratic norms in their members, which in turn has important democratizing impacts on national political cultures and institutions. Further, internally democratic groups are better able to resolve ethnic differences and ethnic-based tensions than their undemocratically structured peers. This book is a deeply comprehensive account of Nigerian civil society groups in the late twentieth and early twenty-first centuries. Kew blends democratic theory with conflict resolution methodologies to argue that the manner in which groups—and states—manage internal conflicts provides an important gauge as to how democratic their political cultures are. The conclusions will allow donors and policymakers to make strategic decisions in their efforts to build a democratic society in Nigeria and other regions.

Why Organised Violence Thrives in Nigeria Nov 06 2021 *For most of its history, Nigeria has witnessed sporadic episodes of insecurity; a phenomenon traditionally manifested in political, electoral, religious and ethnic violence, and, more recently, terrorism. This book investigates the core issues that have led to, and shaped the development and sustenance of, organised political violence in Nigeria. Focusing on elite political culture and State governance, it examines important elements of the socio-political environment, including zero-sum politics, identity politics, and the politicisation of social cleavages. As such, it represents an invaluable resource on the issue of organised political violence too often glossed over in research on insecurity in Nigeria. Scholars in security studies and national security policy analysts will find this text enlightening.*

Nollywood Dec 07 2021 *How did Nigeria create the second largest movie industry in the world? Nollywood began in Nigeria in the 1990s and has grown into the second largest film industry in the*

world in the number of films produced annually, behind only Bollywood and ahead of Hollywood. Reporter Emily Witt travels to Nigeria to offer a vivid, rollicking tour of the industry today. She meets with young filmmakers and actors trying to break into the industry, covers start-ups trying to digitalize what has been largely an economy based on piracy, and documents the shooting of a historic epic in the northern city of Jos, which is emerging after years of civil conflict and a brutal attack by Boko Haram. The Nigerian movie industry, like Nigeria itself, is an organized chaos, but amid electricity cuts, fuel scarcity, and countless other obstacles its producers are pursuing the very real possibility that Nigerian movies could become a global brand as recognizable as the Bollywood musical, the Hong Kong kung fu flick, or the Hollywood blockbuster.

Looking for Transwonderland Jan 20 2023 Noo Saro-Wiwa returns to Nigeria for the first time since her activist father died there, a trip on which she is struck by the level of government corruption but also by the country's unique geography and captivating population.

Decentralization and Economic Development in Nigeria Jun 20 2020 This is the only book of its kind to address the effect of agricultural decentralization on the Nigerian national economy. In his effort to demonstrate how decentralization promotes development that can economically empower individuals, Uwadibia thoroughly analyzes three key aspects of Nigeria's decentralization policy. These are the Local Government Reform Act of 1976, the creation of new states, and the implementation of the Structural Adjustment Program (SAP). Together, these policies reduced the overall role of the federal government in the national economy by

diverting revenue to states and dissolving the federal government's direct ownership of agricultural enterprises. Based on his extensive research, Uwadibia concludes by making a number of additional policy recommendations that he believes are essential for Nigeria to become self-sufficient in food production. Those with an interest in African studies, economic development, or agricultural production will find much to their liking in this work.

Relief Problems in Nigeria-Biafra Dec 15 2019

Federal Presence in Nigeria. The 'Sung' and 'Unsung' Basis for Ethnic Grievance Jul 14 2022 Minorities of the oil-producing states are seriously disturbed by the inequity that is apparent from the existing principles of revenue allocation in Nigeria. In taking issues with them and other southern advocates of new revenue allocation criteria, the dominant north's organic intellectuals have always relied on the obvious concentration of economic and commercial activities in southern Nigeria to refute the argument that the north is the greater beneficiary of Nigeria's wealth. Scholarly contribution to the ethno-regional debate on the equity of resource allocation has been anchored to the same popular platform, namely, the criteria for inter-governmental revenue allocation. It is as if they absolutely embody the revelation about equity or inequity of resource allocation in Nigeria where the federal government has retained between 48.5 per cent and 56 per cent of the federation account, let alone revenues unpaid into this account. This study marks a departure from the orthodox focus on Nigeria's ethnic problems, including the contentious demand of the southern minorities for an increase in the weight assigned the principle of derivation, by examining federal expenditures to determine the distribution of federal presence, and thus winners and losers, bearing in mind that

the entire country is federal government's coverage.

British Enterprise in Nigeria May 20 2020 First published in 1965. Public Management and Sustainable Development in Nigeria Feb 15 2020 This title was first published in 2003. How was public policy and economic development in Nigeria affected under the period of military control between 1966 and 1999? What is the nature and scale of change that Nigeria will have to undergo in order to achieve its current development goals? Initially providing a history of Nigeria along with a framework for understanding the nature, scope and magnitude of the military and public management problems within the country, this timely and rewarding book

addresses both of these questions. It analyzes the institutions that make and implement public policy in the Nigerian political arena, and examines the route that Nigeria could take in order to enhance its public management capacities. Although the specific focus is on Nigeria, the mode of analysis used is transferable to a wide variety of developing nations. The book will foster an understanding among scholars, development planners, military officers and policy makers of the tasks and challenges facing Nigeria and many sub-Saharan African nations in the twenty-first century.

Power Relations in Nigeria Feb 26 2021 This is the first study of slavery and its legacy in the Yoruba and incompletely Islamicised periphery of the Sokoto caliphate and of northern Nigeria. It shows the decline of slavery and the emergence of a small-scale peasantry at the end of the nineteenth century, and takes the story into the late-colonial and post-independence periods. Focusing on Ilorin, the city and emirate on the southern fringe of the caliphate, now in Nigeria, it shows how relations between the city elite and the ex-slaves and peasants they controlled have fluctuated during the long process of oppression and reaction. ANN O'HEAR is Co-ordinator of Intercultural Studies at Niagara University, New York.
