"A masterpiece of contemporary Bible translation and commentary."—Los Angeles Times Book Review, Best Books of 1999 Acclaimed for its masterful new translation and insightful commentary, *The David Story* is a fresh, vivid rendition of one of the great works in Western literature. Robert Alter's brilliant translation gives us David, the beautiful, musical hero who slays Goliath and, through his struggles with Saul, advances to the kingship of Israel. But this David is also fully human: an ambitious, calculating man who navigates his life's course with a flawed moral vision. The consequences for him, his family, and his nation are tragic and bloody. Historical personage and full-blooded imagining, David is the creation of a literary artist comparable to the Shakespeare of the history plays. The sizzling-hot Caldwell Brothers series—perfect for readers of J. S. Scott and Emma Chase—hits the Vegas strip as a bad-boy gambler from Detroit Rock City shows a single mom what it means to play for keeps. For Morrison Caldwell, life is a game of chance. A high roller with a legendary poker face, he's the wild card of the family, always chasing the next thrill and never staying put for long. The one place that always lures him back is Las Vegas, with its hot tables and even hotter women. He's perfectly content to live his life as a series of one-night stands. But when a parking lot confrontation with a cocktail waitress takes a naughty turn, she leaves Morrison aching for another round. After a long losing streak in Sin City, Hailey Poe is ready to get lucky. A steamy tryst with a cocky, mysterious stranger is the kind of no-strings encounter she's been craving . . . until Morrison Caldwell asks for more than she's willing to offer. But when Hailey's controlling, soon-to-be ex-husband tries to take her daughter away, she can't afford to turn down a helping hand. In this winner-takes-all game, Morrison is gambling with Hailey's life—and her heart. Praise for Morrison "MJ Fields and Chelsea Camaron really know how to steam things up—with sizzling romance, pulse-pounding excitement, and bad boy heroes to die for!"—New York Times bestselling author Tracy Wolff "MJ Fields and Chelsea Camaron's Caldwell brothers are addictive. If you're a fan of dominant alpha bad boys with hearts of gold, don't miss this series!"—New York Times bestselling author Virna DePaul "With a sexy bad boy, insanely hot chemistry, and heart-melting romance, Morrison has it all!"—Stacey Kennedy, USA Today bestselling author of the Club Sin series "Sexy and gritty, with all the feels."—Stina Lindenblatt, author of *This One Moment* "I loved this book! I never wanted the story to end. Morrison is most certainly an alpha male; he does not take no for an answer. But he is also a softy. I love the nicknames that he gives the ones he loves. I cannot wait to read about Jagger!"—NightWolf Book Blog "Oh my god, what a book! I loved this one even more than Hendrix's book."—Kimmie Sue's Book Review "I am so enjoying this series and love the collaboration of Chelsea and MJ. They do a good job telling a wonderful story and keeping you right there with all the characters."—Twinsie Talk Book Reviews "I really did love watching Morrison fall in love with not only Hailey but her little girl. It was really beautiful to see such a tough guy

becoming putty in her hands.”—Escape N Books “I loved this story and will be waiting for the next one. Highly recommend for readers who enjoy a strong couple who simply belong together whether they’re ready to see that yet or not.”—Keeper Bookshelf Includes an excerpt from another Loveswept title. *** From USA Today Bestselling author MJ Fields*** From bedroom performances to center stage, Memphis Black's dreams have come true. Together with his band mates-Finn, River, and Billy B-he takes some time for fun in the sun in Miami while gathering inspiration to finish their first full-length album. Some down time before hitting the road to tour the country, spreading their kind of rock like an STD. Tallia Priest, a preacher's daughter grew up next door to Madison Black, her polar opposite and very best friend. Tallia has harbored a crush on Madison's older brother Memphis for a lifetime. A boy like him would never notice a girl like her, yet he did ... once. After a tough freshman year of college, Madison invites Tallia to join her in Miami for a much needed break. Madison fails to mention they will be staying with 'Steel Total Destruction.' When Tallia arrives, there is no way for a stunned Memphis to miss the transformation of the once awkward, innocent girl next door. Forbidden desires must be hidden, lines cannot be blurred, and no one can ever know. Will the heat in Miami tempt them even further? Will buried secrets destroy lives? Can a broken heart ever be mended? It's all fun and games until someone gets rocked. Essential Cell Biology provides a readily accessible introduction to the central concepts of cell biology, and its lively, clear writing and exceptional illustrations make it the ideal textbook for a first course in both cell and molecular biology. The text and figures are easy-to-follow, accurate, clear, and engaging for the introductory student. Molecular detail has been kept to a minimum in order to provide the reader with a cohesive conceptual framework for the basic science that underlies our current understanding of all of biology, including the biomedical sciences. The Fourth Edition has been thoroughly revised, and covers the latest developments in this fast-moving field, yet retains the academic level and length of the previous edition. The book is accompanied by a rich package of online student and instructor resources, including over 130 narrated movies, an expanded and updated Question Bank. Essential Cell Biology, Fourth Edition is additionally supported by the Garland Science Learning System. This homework platform is designed to evaluate and improve student performance and allows instructors to select assignments on specific topics and review the performance of the entire class, as well as individual students, via the instructor dashboard. Students receive immediate feedback on their mastery of the topics, and will be better prepared for lectures and classroom discussions. The user-friendly system provides a convenient way to engage students while assessing progress. Performance data can be used to tailor classroom discussion, activities, and lectures to address students' needs precisely and efficiently. For more information and sample material, visit <http://garlandscience.rocketmix.com/>. The global popularity of herbal supplements and the promise they hold in treating various disease states has caused an unprecedented interest in understanding the molecular basis of the biological activity of traditional remedies. Herbal Medicine: Biomolecular and Clinical Aspects focuses on presenting current scientific evidence of biomolecular ef The Blue Valley series is not your typical love story. It is a journey through one's past ? maybe even a story resembling someone close to you.It's our story.Welcome to the college years ? Love has not been easy for Tessa Ross and Lucas Links, but they have managed to overcome situations that so many others in their lives haven't. And through all of their difficulties, neither have ever denied the love they have for one another. But sometimes love isn't enough ? What new joys, pains, and decisions will they make as they take their first steps into adulthood?This is love, not a fairy tale.Warning: Highly Emotional!This book contains volatile characters in real-life situations that may be triggers to some readers. This book examines the complex interplay between employees and management, to determine how a psychologically healthy workplace is constructed and maintained. This book presents the first unified conceptual and statistical framework for understanding the evolution of reproductive strategies. Using the concept of the opportunity for sexual selection, the authors illustrate how and why sexual selection, though restricted to one sex and opposed in the other, is one of the strongest and fastest of all evolutionary forces. They offer a statistical framework for studying mating system evolution and apply it to patterns of alternative mating strategies. In doing

so, they provide a method for quantifying how the strength of sexual selection is affected by the ecological and life history processes that influence females' spatial and temporal clustering and reproductive schedules. Directly challenging verbal evolutionary models that attempt to explain reproductive behavior without quantitative reference to evolutionary genetics, this book establishes a more solid theoretical foundation for the field. Among the weaknesses the authors find in the existing data is the apparent ubiquity of condition-dependent mating tactics. They identify factors likely to contribute to the evolution of alternative mating strategies--which they argue are more common than generally believed--and illustrate how to measure the strength of selection acting on them. Lastly, they offer predictions on the covariation of mating systems and strategies, consider the underlying developmental biology behind male polyphenism, and propose directions for future research. Informed by genetics, this is a comprehensive and rigorous new approach to explaining mating systems and strategies that will influence a wide swath of evolutionary biology.

What happens at De La Porte's annual Labor Day weekend party in the Hamptons— never stays in the Hamptons. After my marriage to my high school sweetheart ended, I made a list of all the things I "desired" the next time around. After all, marrying for love had failed me. One year single, and I had all the love I needed in an amazing career and great new friends — the ex got the old ones in the divorce. I was only lacking in one department ... Hot, passionate sex -Taller than me -Fit, bulging, biteable arms -Six-pack abs -Suit and tie -Chiseled features -Tattoos -Gentleman on the streets, freak between the sheets -Oral AF -Smells delicious -Gives me chills -Can buy the occasional meal out -Not an employee of De La Porte That's it. That's all I wanted. Easy, huh? WRONG! Have you ever tried online dating? Shit. Show. No one's honest or up front, and when you are, they slither back into the dark hole they momentarily climbed out of to rub one out. Standing at the bar with my best friend, the weekend of our annual Hamptons company getaway, a man who checked all my boxes magically appeared. I will admit it was the best weekend of my life ... Until I found out he was still in college ... and that his father was on the board of trustees. An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students. Living by my father's rules has never been easy. Who does he think he is anyway? Jase Steel has broken every rule he tries to make me live by. The Four Ds: No Dating (Thanks to Carly and Momma Joe, that was nixed at sixteen.) No Drinking (Shots of Jack at prom.) No Drugs (College frat party and a bear-shaped bong named Smokey.) The last one though, that last D, ruined my virgin skin, my relationship with my father, and changed my whole life. No Decorating I should have listened to him ? but I didn't. Tag - I'm it. A veteran music reporter offers a sweeping and vivid portrait of the King of Pop, from his first on-stage appearance at a local talent show in 1965, to his record-breaking album sales, Grammy awards, dance moves and years of scandal and controversy. --Publisher's description. The second edition of the Impact Evaluation in Practice handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates real-world examples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate and why; Part Two presents the main impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence around what works in development. Telemedicine—the use of information and telecommunications technologies to provide and support health care when distance

separates the participants" is receiving increasing attention not only in remote areas where health care access is troublesome but also in urban and suburban locations. Yet the benefits and costs of this blend of medicine and digital technologies must be better demonstrated before today's cautious decision-makers invest significant funds in its development. Telemedicine presents a framework for evaluating patient care applications of telemedicine. The book identifies managerial, technical, policy, legal, and human factors that must be taken into account in evaluating a telemedicine program. The committee reviews previous efforts to establish evaluation frameworks and reports on results from several completed studies of image transmission, consulting from remote locations, and other telemedicine programs. The committee also examines basic elements of an evaluation and considers relevant issues of quality, accessibility, and cost of health care. Telemedicine will be of immediate interest to anyone with interest in the clinical application of telemedicine. One trip down the stairs, caused by a lone Lego, while wrapped in a towel, spewing a plethora of profanities, and my cell phone went flying. I landed on my ass, and then the ER. Between those two occurrences was a FaceTime call, placed by a bouncing phone, to the number of a man I didn't even truly look at. A man who had now seen more of my body than anyone had since my Tinder days, over a year ago. Three declined calls later, I limped out the door to get myself to the ER before starting my hectic day. The ER was packed, but when I saw Nurse Bridget, one of my students' mothers, I pleaded my case and she hurried me into an examination room. An hour later, I left on crutches with a bruised ass, a fractured ankle, and an appointment to see an orthopedic surgeon at four p.m. Arriving fifteen minutes late for that appointment, I heard the sexy yet very brash accent of a man who clearly had an obsession with punctuality and, apparently, no bedside manner. Dr. Ethan Stewart, tall, copper-haired, sinfully sexy ? was a total ass. After a tongue-lashing about how irresponsible I was to, first, leave the ER with such an injury, and second, be late, I put him in his place ? or so I thought. Turned off by his arrogant attitude, turned on by the roguish glint in his green eyes and the way he spoke, I left his office a hot ? and wet mess. Upon exiting, my phone rang again. It was the same number from before, and I couldn't help answering to give the caller a piece of my mind. Once in my car, I hung up, tossed my phone on the passenger seat, and then looked out the window to see him with his phone to his ear and a grin spread across his far too handsome face. It couldn't be ? Could it?

University Physics is a three-volume collection that meets the scope and sequence requirements for two- and three-semester calculus-based physics courses. Volume 1 covers mechanics, sound, oscillations, and waves. Volume 2 covers thermodynamics, electricity and magnetism, and Volume 3 covers optics and modern physics. This textbook emphasizes connections between theory and application, making physics concepts interesting and accessible to students while maintaining the mathematical rigor inherent in the subject. Frequent, strong examples focus on how to approach a problem, how to work with the equations, and how to check and generalize the result. The text and images in this textbook are grayscale. Experts estimate that as many as 98,000 people die in any given year from medical errors that occur in hospitals. That's more than die from motor vehicle accidents, breast cancer, or AIDS" three causes that receive far more public attention. Indeed, more people die annually from medication errors than from workplace injuries. Add the financial cost to the human tragedy, and medical error easily rises to the top ranks of urgent, widespread public problems. To Err Is Human breaks the silence that has surrounded medical errors and their consequence" but not by pointing fingers at caring health care professionals who make honest mistakes. After all, to err is human. Instead, this book sets forth a national agenda" with state and local implications" for reducing medical errors and improving patient safety through the design of a safer health system. This volume reveals the often startling statistics of medical error and the disparity between the incidence of error and public perception of it, given many patients' expectations that the medical profession always performs perfectly. A careful examination is made of how the surrounding forces of legislation, regulation, and market activity influence the quality of care provided by health care organizations and then looks at their handling of medical mistakes. Using a detailed case study, the book reviews the current understanding of why these mistakes happen. A key theme is that legitimate liability concerns discourage reporting of errors" which

begs the question, "How can we learn from our mistakes?" Balancing regulatory versus market-based initiatives and public versus private efforts, the Institute of Medicine presents wide-ranging recommendations for improving patient safety, in the areas of leadership, improved data collection and analysis, and development of effective systems at the level of direct patient care. *To Err Is Human* asserts that the problem is not bad people in health care—it is that good people are working in bad systems that need to be made safer. Comprehensive and straightforward, this book offers a clear prescription for raising the level of patient safety in American health care. It also explains how patients themselves can influence the quality of care that they receive once they check into the hospital. This book will be vitally important to federal, state, and local health policy makers and regulators, health professional licensing officials, hospital administrators, medical educators and students, health caregivers, health journalists, patient advocates—as well as patients themselves. First in a series of publications from the Quality of Health Care in America, a project initiated by the Institute of Medicine Originally published: Great Britain: Blink Publishing, 2015.

Maddox Hines walked away from the things he took comfort in, sex, drugs, and rock and roll. Things that helped dull the pains from his past and allowed him to continue waking up each day and push forward. He set out to win back the love of the girl who held his heart for five years. A girl who he knew was too good for him, deserved better than him, but it no longer mattered. Maddox set out to win her back. When he found her a life changing secret was revealed. One he felt was a blessing not a curse. Harper Abrahams fear of disappointing her family came to fruition and Maddox was her rock. When their family left to return to their homes Maddox stayed behind believing things were going as planned and determined to earn her trust back. Harper pushes him away to guard her heart from what only he was capable of doing to it. Harper loves Maddox but can no longer trust him, there was too much to loose. Pushing him away she hangs onto Blake her friend, confidant, and the man who she knows would be perfect for her. He had never let her down, and she knew he never would. Maddox holds strong in his fight, he won't lose her again. His persistence pays off but will it get them through what lies ahead. Will the sins of his past annihilate his dreams for his future with Harper? Will he be strong enough for her when she needs him the most? I don't play by the rules. I'm wild. Pierced. Tatted from head to toe. People say I'm a bad boy, but what's so bad about wanting to have a good time? Straight up, I don't really care what you, or anyone else thinks about it. There's this blonde chick who has had my eye for awhile. Her name is Carly. She's HOT, but innocent. I'm going for it. I'm going to make her bow to the prince. In true Steel style. Forever Steel, baby. Divorce. Divide. Gage Falcon's life is turned upside down. When backed against a wall, he does what men with 'Steel' convictions do...take control. Fight. Strength. Phoenix Star knows it's going to take everything inside her to be who she is destined to be. Fresh out of college and knowing she can't go home and get where she wants to get, she takes the path less traveled. Redefining life sends them both down a long dirt road to...become. What happens when two people starting over in life and needing to find some control come face to face? They get...HAMMERED! Before they found love, Cyrus, Jase, Zandor, and Xavier Steel work at their family owned tattoo shop, Forever Steel, during the day and sometimes into the night. When the shop closes these tattooed, pierced, alpha, bad boys play hard. Real hard. To celebrate Xavier's birthday and Cyrus becoming a home owner they decide to throw a party. But first they need to come up with the house rules. No shoes, No sleepovers, No bullshit. With rules set in place it's time to get the party started. It's BYOB, bring your own batteries, because they ain't providing them. Get ready you're in for one hell of a party. Raise your glass for a toast to Forever Steel. Book 1 in the Men of Steel series Jase Steel is a twenty two year old hot tattooed and pierced bad boy who works at his family's tattoo shop FOREVER STEEL with his brothers. His good looks will tempt anyone to walk on the wild side and that's exactly where he wants to be. But his interest is immediately peeked when he meets Carly, his best friend's cousin. And even though his friend will not approve, Jase can't help himself. After tricking Carly to "fake date" him, he realizes that there is so much more to the beautiful girl, as the situations that surround Carly at all times are hysterical, yet heart warming. Jase falls hard and fast for her, but some painful secrets from his past may keep him away until it's too late. The death of a child is a

special sorrow. No matter the circumstances, a child's death is a life-altering experience. Except for the child who dies suddenly and without forewarning, physicians, nurses, and other medical personnel usually play a central role in the lives of children who die and their families. At best, these professionals will exemplify "medicine with a heart." At worst, families' encounters with the health care system will leave them with enduring painful memories, anger, and regrets. When *Children Die* examines what we know about the needs of these children and their families, the extent to which such needs are—and are not—being met, and what can be done to provide more competent, compassionate, and consistent care. The book offers recommendations for involving child patients in treatment decisions, communicating with parents, strengthening the organization and delivery of services, developing support programs for bereaved families, improving public and private insurance, training health professionals, and more. It argues that taking these steps will improve the care of children who survive as well as those who do not—and will likewise help all families who suffer with their seriously ill or injured child. Featuring illustrative case histories, the book discusses patterns of childhood death and explores the basic elements of physical, emotional, spiritual, and practical care for children and families experiencing a child's life-threatening illness or injury. From earlier ecological studies it has become apparent that simple univariate or bivariate statistics are often inappropriate, and that multivariate statistical analyses must be applied. Despite several difficulties arising from the application of multivariate methods, community ecology has acquired a mathematical framework, with three consequences: it can develop as an exact science; it can be applied operationally as a computer-assisted science to the solution of environmental problems; and it can exchange information with other disciplines using the language of mathematics. This book comprises the invited lectures, as well as working group reports, on the NATO workshop held in Roscoff (France) to improve the applicability of this new method numerical ecology to specific ecological problems. When Lucas Links finds out his wife has been cheating on him his world is rocked. Ashley, his wife, blames him for her nearly five year affair with Senator Robert Robertson. Ashley says she has lived for twenty years knowing her husband is in love with his high school sweetheart Tessa Ross. Tessa Ross Abrahams, husband Collin, was murdered in an attempt to save their daughters life. She grieved silently. She wanted to show her grown children that she was alright and that even after a devastating loss life can go on. Secretly it was something she doubted. When Lucas lends his support will the passion they once shared resurface? Can Tessa forgive the sins of the past and take a chance on the boy who once shattered her heart? Their strong sexual desires makes ignoring each other difficult but maybe comfort can be found in each others arms...and beds. A new adult / college standalone sports romance novel from USA Today bestselling author, MJ Fields. *Their First Fall* Keeka Alone in the world, after her mother's death, she tries to find the life she dreamed of as a child. *Trucker* Alone in the world the family he felt part of began to fall apart, as his dreams of being an NFL quarterback become his reality. What happens when everything you had is gone, everything you wished for seems to be in arms reach, and your world begins to spin in circles? *You Fall* This approachable introduction to doing data science in R provides step-by-step advice on using the tools and statistical methods to carry out data analysis. Introducing the fundamentals of data science and R before moving into more advanced topics like Multilevel Models and Probabilistic Modelling with Stan, it builds knowledge and skills gradually. This book: Focuses on providing practical guidance for all aspects, helping readers get to grips with the tools, software, and statistical methods needed to provide the right type and level of analysis their data requires Explores the foundations of data science and breaks down the processes involved, focusing on the link between data science and practical social science skills Introduces R at the outset and includes extensive worked examples and R code every step of the way, ensuring students see the value of R and its connection to methods while providing hands-on practice in the software Provides examples and datasets from different disciplines and locations demonstrate the widespread relevance, possible applications, and impact of data science across the social sciences. Every love story has a breaking point... From the author of *Paperweight* comes the star-crossed romance of two high school friends in a tale rife with deeply buried secrets and shocking revelations. *BEFORE: Bridge and Wil*

have been entangled in each other's lives for years. Under the white-hot Florida sun, they went from kids daring each other to swim past the breakers to teenagers stealing kisses between classes. But when Bridge betrayed Wil during their junior year, she shattered his heart and their relationship along with it. AFTER: When Wil's family suffers a violent loss, and Bridge rushes back to Wil's side. As they struggle to heal old wounds and start falling for each other all over again, Bridge and Wil discover just how much has changed in the past year. Though they once knew each other's every secret, they aren't the same people they used to be. Bridge can't imagine life without Wil, but sometimes love isn't enough. Can they find their way back to each other, or will this be the end of their story? USA TODAY BESTSELLER • Full of swagger and sensuality, the Caldwell Brothers series—perfect for fans of Katy Evans and Emma Chase—packs an emotional punch as the last bachelor standing fights for a woman who's worth every ounce of trouble. Jagger Caldwell is no one's hero. With a reputation for busting heads and breaking hearts on the underground MMA circuit, he lives for easy cash and easier women. But when he stumbles upon an all-too-familiar scene, painful memories awaken Jagger's sensitive side and compel him to act. As a kid, he stood helplessly as his old man beat his mom. Now, Jagger won't let seventeen-year-old Tatiana Rand suffer the same fate. Nothing matters except saving her. Tatiana is a prisoner in her own home, at the mercy of her violent father—until an unlikely savior bursts through her door and into her life. Six-foot-plus of tattooed muscle and raw power, Jagger is no prince charming—but Tatiana stopped believing in fairy tales long ago. Despite their differences in age and, well, everything else, the sexy bad boy sparks a fire that Tatiana never knew she had—and desires that only Jagger can quench. Praise for Jagger “The youngest of the Caldwell brothers packs a good punch! In this fast-paced story, Jagger falls for the girl cowering in the corner—and claims his legacy along the way.”—New York Times bestselling author Heidi McLaughlin “The Caldwell brothers never disappoint. Jagger will fight for your heart and win it a thousand times over!”—Stacey Kennedy, USA Today bestselling author of the Club Sin series “Heartwarming and humorous, Jagger gives us the modern-day hero everyone needs.”—Ryan Michele, author of Ravage Me “Chelsea Camaron and MJ Fields find that cool mix between beauty and beast with Jagger. He was born to be a fighter, and Tatiana needs him in her corner.”—S. M. Donaldson, author of the Game Time series “The word flow of these books is so good and melodic. . . . The drama, when looked at in the context of the whole story, fits in with the general tone the story sets.”—The Romance Factor “Jagger brought me to my knees emotionally and had me falling hard for three of the sexiest heroes and the strong women who make them better men.”—Rochelle's Reviews “A successful final installment. . . . [Jagger Caldwell is] probably my favorite of the three.”—Carlene Inspired “I absolutely love this series about the Caldwell Brothers. I couldn't wait to read Jagger's story.”—She Hearts Books (4 hearts) “I found Jagger to be an excellent conclusion to the story (and I still loved the overlap from the other books, seeing scenes in Jagger's and Totty's eyes), and found Baby Caldwell to have just as much emotional capacity as his brothers.”—Mignon Mykel Reviews “Thank you, Chelsea and MJ, for this wonderful series about fighting for a better life.”—Ripe for Reader “What a wonderful finish to this series. The Caldwell Brothers are not to be missed. I have read each book in this series and I have enjoyed each one in its own way.”—DRC Promotions Includes a special message from the editor, as well as an excerpt from another Loveswept title. In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities

can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome. "I let my inhibitions go, and they fell in the wrong place. I didn't know he would be my unraveling. I didn't know he was twenty-five." A single mother often lives by certain rules, and Angela Petrov has made certain to adhere to hers: Mom first, career second, and no man will meet her child unless they will be in her life long-term. However, with her daughter now in college, the company she has worked at for over a decade facing major changes, and no lover in sight, Angela's life has lost all its carefully construed and configured organization. When news that the annual, employee, Labor Day party in the Hamptons will still be held, Angela tries to bail out. However, her best friend and coworker, Autumn, convinces her otherwise. Turns out that, while attempting to enjoy the elite Hampton nightlife with her coworkers, she meets a much-younger, tall, dark, and sexy man who offers her an escape for the long weekend. So, throwing caution to the ocean breeze, she accepts his offer of a true time-out in life, focusing only on time between the sheets with no ... strings attached. What happens when you allow yourself to let go of life's stresses, release inhibitions, and embrace desire? You chase regret
