Just a few days after she gives birth alone in the Northwoods, a recently widowed young Chippewa woman stumbles into a nearby lumber camp in search of refuge and sustenance. Come summer, the camp owner sends Skypilot, his most trusted friend, to accompany Moon Song and her baby on the long and treacherous journey back to her people. But when tragedy strikes off the shore of Michigan's Upper Peninsula wilderness, Moon Song and Skypilot must depend on each other for survival. With every step they take into the forbidding woods, they are drawn closer together, until the tough questions must be asked. Will she leave her culture to enter his? Will he leave his world to enter hers? Or will they walk away from a love that seems too complicated to last? With evocative descriptions of a breathtaking landscape, *Under a Blackberry Moon* will sweep readers into a wild realm where beauty masks danger and only the truly courageous survive, even as the sweet love story along the way tightly grips their hearts. A list of the sailing and power yachts, yacht clubs, and yacht owners of the United States, the Dominion of Canada and the nations of the Caribbean. Records management helps users address evolving governance mandates to meet regulatory, legal, and fiduciary requirements. Proactive adherence to information retention policies and procedures is a critical facet of any compliance strategy. IBM® Enterprise Records helps organizations enforce centralized policy management for file plans, retention schedules, legal preservation holds, and auditing. IBM Enterprise Records enables your organization to securely capture, declare, classify, store, and dispose of electronic and physical records. In this IBM Redbooks® publication, we introduce the records management concept and provide an overview of IBM Enterprise Records. We address records management topics, including the retention schedule, file plan, records ingestion and declaration, records disposition, records hold, and Enterprise Records application programming interfaces (APIs). We also use a case study to describe step-by-step instructions to implement a sample records management solution using Enterprise Records. We provide concrete examples of how to perform tasks, such as file plan creation, records ingestion and declaration, records disposition, and records hold. This book helps you to understand the records management concept, the IBM Enterprise Records features and capabilities, and its use. George and Serena Pemberton arrive in the wilds of the North Carolina mountains to build a life together in a rural logging town. Unlike any woman the timber empire has ever seen, Serena oversees crews, hunts rattlesnakes and saves her husband's life in the wilderness. But when Serena learns that she will never bear a child, the Pemberton's intensely passionate marriage begins to unravel. A course of events unfolds that will change the lives of everyone in their rural community and bring this riveting tale of love and revenge to its shocking reckoning. The *Kenya Gazette* is an official publication of the government of the Republic of Kenya. It contains notices of new legislation, notices required to be published by law or policy as well as other announcements that are published for general public information. It is published every week, usually on Friday, with occasional releases of special or supplementary editions within the week. This, the 11th issue of *Transactions on Large-Scale Data- and Knowledge-Centered Systems*, contains five selected papers focusing on Advanced Data Stream Management and Processing of Continuous Queries. The contributions cover different methods for avoiding unauthorized access to streaming data, modeling complex real-time behavior of stream processing applications, comparing different event-centric and data-centric platforms for the development of applications in pervasive environments, capturing localized repeated associative relationships from multiple time series, and obtaining uniform and fresh sampling strategies over input data streams generated by large open systems containing malicious participants. The # 1 New York Times bestseller--now in trade paperback for the first time! In this #1 New York Times bestseller (originally published as *My Beef with Meat*), Rip Esselstyn arms readers with the 36 most powerful facts that prove, once and for all, that a plant-based diet can save your life. Do you want to: Prevent cancer, heart attacks, stroke, and Type 2 Diabetes? Eat plants! Have stronger bones than milk could ever give you? Eat plants! Avoid dangerous carcinogens and contaminants? Eat plants! Lose weight and look great? Eat plants! On top of these arguments are 150 other reasons why plants rule--as in 150 delicious, mouth-watering Engine 2 recipes, including 10 that are exclusive to this new edition. Prepare to eat well, be healthy, and live plant-strong! As the Industrial Revolution roils London, “a daring pair of Regency sleuths tackle a series of coldblooded murders” in this historical mystery (*Kirkus Reviews*). When the eminent scientist Lord Wrexford discovers the body of a gifted inventor in a dark London alley, he promptly alerts the authorities. But Wrexford soon finds himself drawn into the murder investigation when the inventor’s widow tells him that the crime was no random robbery. Her husband’s designs for a new steam-powered engine went missing the night of his death. The plans could be worth a fortune . . .and very dangerous in the wrong hands. Joining Wrexford in his investigation is Charlotte Sloane, who publishes scathing political cartoons under the pseudonym A. J. Quill. Her extensive network of informants is critical for her work—and for tracking down the occasional killer. The suspects include ambitious assistants, greedy investors, and even the inventor’s widow. And when another victim falls, Wrexford and Sloane know they are on the trail of a cunning and deadly foe. “Penrose deftly combines a Regency romance with a tricky mystery that delves into social unrest and the darker side of this storied period.” —*Kirkus Reviews* USA Today Bestseller “Stellar...vibrant and witty writing.” - Booklist “Another smart pairing and a genuinely romantic ending.” —*Publishers Weekly* A sparkling new love story from a historical romance legend, perfect for *Bridgerton* fans and readers of *Sabrina Jeffries*, *Eloisa James*, and *Grace Burrowes*. In one life-changing windfall, Rosamund Jameson goes from struggling shopkeeper to heiress—and co-owner of a new business. Not only will her sudden fortune allow her to move her millinery shop to fashionable London, but Rosamund will be able to

provide her younger sister with a proper entry into society. The only hitch for resourceful Rosamund is her arrogant, infuriatingly handsome business partner... Kevin Radnor is shocked that his late uncle, the Duke of Hollinburgh, bequeathed half his company to a total stranger—worse, a beguiling beauty who can only hinder his enterprise. But Rosamund insists on an active, equal partnership, so Kevin embarks on a plan: a seduction that will lead to a marriage of convenience, giving Rosamund the social status she needs, and guaranteeing him the silent partner he desires. Yet as this charismatic gentleman sets his flirtation in motion, he begins to wonder who is seducing whom—and if he can learn to share himself body and mind, without losing his heart . . . “A book that hooked right into my emotions and gave me what I wanted and needed from a story right now.” —Smart Bitches, Trashy Books “Romance and mystery combine to entertain.” —Fresh Fiction An extensive history of enemy fleets following both World Wars, featuring never-before-seen archival and archaeological materials. Spoils of War traces the histories of navies and ships of the defeated powers from the months leading up to the relevant armistices or surrenders to the final execution of the appropriate post-war settlements. In doing so, it discusses the way in which the victorious powers reached their final demands, how these were implemented, and to what effect. The later histories of ships that saw subsequent service, either in their original navies or in those navies which acquired them, are also described. Much use is made of archival materials, and in some cases archaeological, sources, some of which have never previously been used. Ultimately, a wide range of long-standing myths are busted, and some badly distorted modern views are set right. The fascinating narrative is accompanied by lists of all major navy-built (and certain significant ex-mercantile) enemy ships in commission at the relevant date of the armistice or surrender, or whose hulks were specifically listed for attention in post-Second World War allied agreements. These include key dates in their careers and their ultimate fates. This original book, featuring numerous photographs, is sure to become an essential reference tool for all those interested in the naval history of the two World Wars. Praise for Spoils of War “Most highly recommended.” —Firetrench “For those who need to finally know the ultimate fate of the often gallant ships that strove against the Allies in both world wars, this is the book.” —Julian Stockwin, author of the Thomas Kydd series A cursed prince sits alone in a secluded castle. Few have seen him, but those who claim they have say his hair is wild and nails are sharp—like a beast's! But how did this prince, once jovial and beloved by the people, come to be a reclusive and bitter monster? And is it possible that he can ever find true love and break the curse that has been placed upon him? Lose weight, lower cholesterol, significantly reduce the risk of disease, and become physically fit—in just 4 weeks. Professional athlete-turned-firefighter Rip Esselstyn is used to responding to emergencies. So, when he learned that some of his fellow Engine 2 firefighters in Austin, TX, were in dire physical condition—several had dangerously high cholesterol levels (the highest was 344!)—he sprang into action and created a life-saving plan for the firehouse. By following Rip's program, everyone lost weight (some more than 20 lbs.), lowered their cholesterol (Mr. 344's dropped to 196), and improved their overall health. Now, Rip outlines his proven plan in this book. With Rip as your expert coach and motivator, you'll transform your body and lifestyle in a month. His plant-powered eating plan is based on a diet of whole foods, including whole grains, fresh fruits, vegetables, legumes, nuts, and seeds. This invaluable guide features: Dozens of easy, mouthwatering recipes—from pancakes to pizza, Tex-Mex favorites to knockout chocolate desserts—that will keep you looking forward to every bite Pantry-stocking tips will take the panic out of inevitable cravings and on-the-fly meals Guidelines on menu choices that will allow you to eat out, wherever and whenever you want Rip's simple, firefighter-inspired exercise program that will boost your metabolism and melt your fat away. Medically approved, easy-to-follow, and amazingly effective, this diet is designed for anyone who wants to make heroic strides in his or her health, weight, and well-being—all without heroic effort. “Want to be as strong as a Texas firefighter? Or as healthy as a professional triathlete? Then follow the wonderful advice of Rip Esselstyn, who is both. His book can save your life—whether you're a man or a woman. Highly recommended!” —Dean Ornish, M.D., Founder and President, Preventive Medicine Research Institute, Clinical Professor of Medicine, U of California, SF, author, Dr. Dean Ornish's Program for Reversing Heart Disease The Lloyd's Register of Shipping records the details of merchant vessels over 100 gross tonnes, which are self-propelled and sea-going, regardless of classification. Before the time, only those vessels classed by Lloyd's Register were listed. Vessels are listed alphabetically by their current name. “Jason Gurley will be a household name one day.” —Hugh Howey Book 2 of The Movement Trilogy Earth has become an artifact of history. Children are no longer taught that it is the birthplace of mankind. For them, history begins with the Citadel, the enormous institution that governs the system with a heavy, vicious fist. Three hundred years have passed since the events of Book 1. The Machine class, oppressed and broken, has scattered throughout the system, building outposts and colonies on every surface they can find. They rely upon the Onyx class, the privileged ones, for sustenance. But the most brutal attack in human history relights the fuse of war between the two classes, and rebellions break out on every moon, planet and rock between Earth and the stars. And somewhere in the chaos, Tasneem Kyoh and David Dewbury still fight for mankind's future... a new Earth, and a new beginning. The Colonists, the second title in Jason Gurley's Movement Trilogy, continues the epic story of humanity's greatest struggle, and its desperate battle with its most powerful enemy: itself.
