Independent consulting is a potentially lucrative enterprise—but the reality seldom matches the dream. Most solo consultants and boutique consulting firms are perpetually within six months of bankruptcy due to the sputtering unreliability of their new business engines. The problem, according to international consulting expert David A. Fields, is twofold: 1) lack of a consistent, proven plan, and 2) fundamental misunderstanding about what clients want in a consultant. Fields, who has helped hundreds of consultants and boutique firms worldwide build profitable, sustainable practices, replaces the typical consultant’s mindset of emphasizing expertise and differentiated processes with a focus on building relationships, engendering trust, and solving clients’ existing problems. In *The Irresistible Consultant’s Guide to Winning Clients*, Fields synthesizes his decades of experience into a step-by-step approach to winning more projects from more clients at higher fees. From nuts-and-bolts business advice and tactics to a deeply insightful breakdown of the human side of a very human profession, Fields, named one of *Advertising Age* magazine’s “Marketing Top 100,” delivers a comprehensive guidebook that is at once highly approachable and satisfyingly detailed. “If I could have just one book on client strategy, this book would be it.” —Marshall Goldsmith, #1 New York Times–bestselling author of *Triggers*

The Nobel Prize-winning medical researcher recounts his unlikely career journey in a memoir that "opens the vault to the world of science" (Nature). Beginning with his humble origins in Australia, Peter Doherty tells how he developed an interest in immunology and describes his award-winning, influential work with Rolf Zinkernagel on T-cells and the nature of immune defense. In prose that is both amusing and astute, Doherty reveals how his nonconformist upbringing and search for different perspectives have shaped his life and work. Doherty offers an insider's look at the life of a research scientist. He lucidly explains his own scientific work and how research projects are selected, funded, and organized; the major problems science is trying to solve; and the rewards and pitfalls of a career in scientific research. He also explores the stories of past Nobel winners and considers some of the crucial scientific debates of our time, including the safety of genetically modified foods and the tensions between science and religion. He concludes with some "tips" on how to win a Nobel Prize, including advice on being persistent, generous, and culturally aware. From creating winning strategies to leading and managing others *The Real Life MBA* acts as an essential guide for every person in business today - and tomorrow. Originally written in 1936 by two young Cambridge Fellows, *A Guide to the Classics* is a light-hearted manual on how to pick the Derby winner. However, as the tongue-in-cheek title suggested, there is more to the book than meets the eye, especially as one of the young dons went on to become, according to his 1990 Telegraph obituary, 'the greatest political philosopher in the Anglo-Saxon tradition since Mill - or even Burke'. The book takes the abstraction out of the Derby by attacking the systems which had been developed by generations of 'form' experts. It exposes theoretical solutions as fraudulent – instead it applies hard-headed empirical and historical analysis. Oakeshott went on to apply this methodology

to his famous critique of 'rationalism' in politics. This long-awaited edition of Griffith and Oakeshott's classic text includes a new preface and foreword by horse racing journalist and author Sean Magee, and political commentator Peter Osborne. Most men today are sent off into society with a broken belief system, which they use to make choices, that get them terrible results with life and women. Men have been conditioned to be the quintessential "nice guy." They're trained to be overly humble, kind to a fault, and that just "being themselves" is enough to attract and keep the woman of their dreams. Men are told to believe that conventional masculinity is toxic, and to put women ahead of their own interests, passions, and purpose. This has led to an entire generation of men forming very unhealthy attachments to women that they, unfortunately, often make their sole focus of their lives. The playbook to women and life has changed, but most men missed the memo. Do you want to succeed, and level up in every area of your life? If so, then this book explains: - The importance of maximizing your looks, money, social status, and game. - Why it's essential to get genuine burning desire from a woman who wants to date you. - The top 20 red flags that you must vet women for a long term relationship. - How to become one of the top 20% of men that women swipe right for on online dating. - Why smart men avoid marriage. And much more. This book exposes the comforting lies you've been told throughout your life for what they really are. Enabling you to become a truly authentic Alpha that chases excellence, and leads a successful passion-filled life. Discover the common misconceptions about what it means to exercise biblical authority and understand the role of submission in the marriage relationship. This groundbreaking work can help men grasp and apply essential but often overlooked principles for marital leadership. Ever wonder why you play great one day and terrible the next? Did your physical ability change? Not likely, but your mental game was probably different. Your mindset and mental preparation can be the difference between winning and losing. Whether you are a high school player, professional coach or top executive, Winning the Mental Way provides the tools necessary to help you achieve peak performance on a more consistent basis. No matter what your endeavors are, the goal is the same - peak performance. The mind plays such an important role in whether you will be successful or not. Craig will also look at examples from the Bible, including our good buddy Samson. Yep, the dude with the rippling biceps and hippie hair and a thing for Delilah. You may be surprised how much we have in common with this guy. By looking at his life, you'll learn how to defeat the demons that make strong men weak. You'll become who God made you to

be: A man who knows how to fight for what's right. And don't you dare show up for this fight unarmed. Learn how to fight with faith, with prayer, and with the Word of God It's time to fight like a man. For God's Sake, FIGHT. Today's hypercompetitive economy has created tense, overextended workplaces, forcing managers to choose between results and relationships. Executives set aggressive goals, so managers drive their teams to deliver, resulting in burnout. Or, employees seek connection and support, so managers focus on relationships . . . and fail to make the numbers. The fallout is stress, frustration, and disengagement--for both team members and managers. But in order to succeed, managers need to achieve both. They must get their workers to achieve while creating an environment that makes them truly want to. Winning Well offers managers a quick, practical action plan--complete with examples, stories, and online assessments. Managers will learn how to:

- Stamp out the corrosive win-at-all-costs mentality
- Focus on the game, not just the score
- Reinforce behaviors that produce results
- Sustain energy and momentum
- Be the leader people want to work for
- And more

To prevent burnout and disengagement, while still achieving the necessary success for the company, managers must learn how to get their employees productive while creating an environment that makes them want to produce even more.
