Retired Navy SEAL, Clint Backwater, enjoys his solitary life as owner of the Ask Questions Later gun range. It's the kind of place you find because you know a guy. So when Leila Ortiz, a petite woman with a "baby on board" sticker on the back of her car—and an 18-month-old boy in her arms—shows up at the range, panicked and desperate for a gun, he knows something is wrong. Having grown up in the foster system, Clint has seen what happens when you let yourself get too invested—things get messy, people leave. He made himself a promise to never get emotionally involved again, but the former SEAL in him feels the tug to help this woman and her child. Leila's ex-husband is being released from prison early on good behavior and she found out too late. He was supposed to serve five years, not two, and Leila is unprepared to protect herself and her son. She promised him they'd never run again—they've made a nice life for themselves and the last thing she wants to do is leave it all behind. When Clint refuses to give Leila a gun without lessons, she agrees to return to the range to learn. At first, Leila won't say why she's so desperate for protection, but when the threats from her ex escalate, it becomes clear what she's afraid of. Clint is a loner. Always has been, always will be. So when Leila and her little son enter his life, it hits him—hard— maybe being alone isn't what he needs. Still, having his solitary life disrupted when he invites the little family into his home is a bit tougher to take than he thought. With Leila and her son in danger, though, he'll do whatever it takes to keep them safe—even putting up with stray toys and changing a nappy or two. But the biggest danger might be to his heart, when it starts to look like the safest thing for Leila and her baby might be to leave her problems—and her budding relationship with Clint—behind. (Book). A fitting tribute to the troubled genius who revolutionized electric bass playing and bridged the gaps between jazz, R&B, rock and funk. From his early days in R&B club bands through his international stardom with fusion group Weather Report and on to his solo career and tragic death at age 35, this book portrays the life and music of Jaco Pastorius, the self-proclaimed "world's greatest bass player." This special anniversary edition features new interviews with Jaco's childhood friends, prominent bass players of Jaco's era and afterward, and girlfriend Teresa Nagell, who was with Jaco in the last few years of his life. Some incidents from the first edition have been further researched and expanded to become full chapters. Exclusive to this edition, the CD features newly revealed music tracks from Jaco's early years along with spoken testimonials from Jaco's friends and colleagues. The book also contains new, never-before-seen photos acquired from the Pastorius estate. His songs were better when he had a broken heart. That sentence would change my life after my dream job was dished to me on a shiny, silver platter. All I had to do? Hurt Nash Pierce enough to get him writing good music again. The pop icon's songs were no longer the phenomena they used to be. His team needed another breakthrough album--like the first he'd penned, using his heartbreak as fuel. The plan was simple: I'd go on tour with him as a backup dancer...and make him fall in love with me. I was hired to inspire--to become embedded into every lyric he wrote. Then, I was to set fire to it all--to destroy every feeling we hoped he'd develop for me. It seemed simple enough. Easy, even. I didn't expect to be consumed myself--to see so much in the man displayed in the tabloids. I didn't foresee falling for him. It didn't occur to me that, while attempting to break his heart, I might just shatter my own. Most of all, I never thought I'd fight so hard to hold on to a relationship that had always been founded on goodbye. They say hate is a strong word, but Eileen Parker is certainly no stranger to it. Parker hates her first name, hates her apartment, hates her life. Which, sure, sounds a bit cynical, but after the life that she's led so far, you really can't blame her. With her sophomore year of college overshadowed by circumstances that she never expected, Parker just wants to keep her head down, pass her classes, and take care of the responsibilities that are threatening to destroy her. And then she meets Ash. Ashton Carter is working to fix the messes that he's made, but he's still struggling with dark memories of a night

that changed his life. He's definitely not looking for someone to spend forever with, but when he meets Parker, his life changes once again. It doesn't bother him that Parker adamantly refuses to admit to the chemistry between them, or that she's determined to keep him at arms length. Ash is convinced that Parker is everything he never knew he needed, and he's not about to let her slip away. Fighting against overwhelming insecurities and secrets that feel too big to share, the two must make a choice. They can keep running from their pasts, or they can confront them and face their future together. ***This is the first book in a series of standalone novels. Due to adult language/situations and mild drug use, this book is recommended for readers 18+. Contains biographical information on pan players in Trinidad and Tobago

The first book of its kind, this discography covers the history of steel band and pan music on recordings from their beginnings. In more than 775 entries, it comprises all known recordings on phonograph records, cassettes, and compact disks in which one or more steel pans is featured or used in an accompanying role. This includes steel bands of any size and configuration, pan soloists, and small ensembles in a variety of settings. For each entry, information is provided on the location of the recording session/studio, release date, record company catalog number, and complete contents. Indexes facilitate access to artists, arrangers/conductors/musical directors, record titles, years of release, and compositions; and appendices provide additional information on record manufacturers and distributors, calypsonians, and sources. A reference bibliography completes the work. The creation, teaching, and performance of most of the pan music of the past belongs to an oral tradition. There is therefore little written preservation of this work and audio recordings often provide the only documentation of the art of many gifted composers, arrangers, performers, and tuners. These recordings constitute a primary source of information regarding past performance practices, evolving playing styles and techniques, and pan tuning innovations. While serving as a guide for locating these recordings, this discography also will function as a research tool to aid researchers into many other aspects of the steel pan movement. As such, it will be a valuable resource for scholars, performing artists, educators, instrument builders, composers, arrangers, and enthusiasts. (Book). Now back in print, this bestseller by Mel Torme is a brilliant biography of his friend of forty years, Buddy Rich, who was one of the most famous drummers of the Swing Era, having starred in the Artie Shaw and Tommy Dorsey bands. His career started when he was two years old in his parents' Vaudeville act, and by the time he was four he was the highest paid child performer in the world. The Buddy Rich story is a fascinating one, as much for what it says about the world of American music and entertainment as for the remarkable life it portrays. Drawing from interviews and many personal reminiscences, Torme packs this biography with vivid, often funny, anecdotes. His personal touch and his in-depth knowledge of jazz make for a moving, insightful, and often hilarious biography. 233 pages, 6-1/2 x 9-1/2 Softcover

When he defends Lauren Cunningham from her no-good ex-husband who is trying to gain access to her trust fund, small-town lawyer Ty Sullivan starts thinking of her as more than a client and must convince her that her mistake wasn't getting married, but marrying the wrong guy. Original. 125,000 first printing. Original. This book lays the foundations for an exciting new area of research in descriptive set theory. It develops a robust connection between two active topics: forcing and analytic equivalence relations. This in turn allows the authors to develop a generalization of classical Ramsey theory. Given an analytic equivalence relation on a Polish space, can one find a large subset of the space on which it has a simple form? The book provides many positive and negative general answers to this question. The proofs feature proper forcing and Gandy–Harrington forcing, as well as partition arguments. The results include strong canonization theorems for many classes of equivalence relations and sigma-ideals, as well as ergodicity results in cases where canonization theorems are impossible to achieve. Ideal for graduate students and researchers in set theory, the book provides a useful springboard for further research.
