Space and Time in Epic Theater May 05 2021 The development of epic theater before, during, and after Brecht's time, and analysis of epic productions, showing the form's continued relevance. Bertolt Brecht and the director Erwin Piscator developed epic theater in the 1920s because they found Western realism limited to the single perspective of an individual, and thus unable to confront the new realities: technological warfare, revolution, the metropolis, and the mass media, among others. The epic stage juxtaposed the old media of actors and scenery with new media, including film, photography, and electronic sound. Bryant-Bertail provides analyses of theatrical productions in the epic tradition from before, during, and after Brecht's lifetime: Hasek's *The Good Soldier Schwejk* directed by Piscator; *Mother Courage* written and directed by Brecht; Lenz's *The Tutor* directed by Brecht; Ibsen's *Peer Gynt* in productions directed by Peter Stein and Rustom Bharucha; Büchner's *Leon and Lena* (& Lenz) directed by JoAnne Akalaitis; and *Les Atrides* (*The House of Atreus*) from Aeschylus and Euripides, directed by Ariane Mnouchkine. Bryant-Bertail shows that epic theater's relevance for politically engaged artists lies in its discovery that history, fate, and human nature are spatio-temporal constructs that may be reconstructed on stage. Sarah Bryant-Bertail is associate professor in the School of Drama at the University of Washington.

The Best of the Argonauts Jan 01 2021 This revelatory exploration of Book One of the *Argonautica* rescues Jason from his status as the ineffectual hero of Apollonius' epic poem. James J. Clauss argues that by posing the question, "Who is the best of the Argonauts?" Apollonius redefines the epic hero and creates, in Jason, a man more realistic and less awesome than his Homeric predecessors, one who is vulnerable, dependent on the help of others, even morally questionable, yet ultimately successful. In bringing Apollonius' "curious and demanding poem" to life, Clauss illuminates two features of the poet's narrative style: his ubiquitous allusions to the poetry of others, especially Homer, and the carefully balanced structural organization of his episodes. The poet's subtextual interplay is explored, as is his propensity for underscoring the manipulation of the poetry of others through ring composition.

Allegory and Epic in English Renaissance Literature Feb 26 2023 Challenging conventional notions that literary allegorism declined precipitously around 1600, Kenneth Borris reassesses the Renaissance relations between allegory and heroic poetry, particularly in the major texts of Sidney, Spenser and Milton. Through wide-ranging consideration of Homeric and Virgilian reception and its influence on both continental and English literary theory, he shows that allegorical epic tended to double for and displace epic throughout the sixteenth and seventeenth centuries. Borris offers a fresh approach to the interaction of allegory with literary genres; focusing on epic, he further analyses the distinctive codes and conventions that constituted the generic repertoire of Renaissance allegorical epic poetry. Whereas standard literary history assumes Sidney opposes allegory, and that Milton minimises or rejects it in following Spenser, Borris's detailed readings demonstrate that Sidney and Milton are also major allegorists, and that Spenser remained so even in the latter books of *The Faerie Queene*. This book was first published in 2000.

A State of Intrigue Jan 25 2023 This is the first English translation of a traditional history of the eighteenth- and nineteenth-century Bamana kingdom of Segu, which flourished in an area that was once part of the Mali Empire and which far outlasted its neighbors in resistance to Islam. The story, which is one of Africa's great epic traditions, offers a view of daily life in Bamana Segu. Tayiru Banbera adds to this, providing invaluable information on such diverse topics as military strategy, culinary practices, taxation, law enforcement, and seduction.

The Odyssey May 17 2022 Homer's two great epic poems, the *Iliad* and the *Odyssey*, stand as cornerstones not only of Western literature but also of Western thought and culture, for although readers of two millennia have imitated or opposed these works' paradigm of character and action, few have ignored it. Where the *Iliad* strikes a heavy tone of tragic grandeur, the *Odyssey* evokes an atmosphere of adventure and fate. The latter work's key figure, Odysseus the restless wanderer, pervades our language and our thinking: his self-defining journey of experience and maturation has remained one of the world's most explored subjects of artistic expression. In his cogent reading of the *Odyssey* William G. Thalmann argues that, like its hero, the text is impossible to reduce to a single summary or set of oppositions. As presented in Homer's narrative, the polarities of nature versus civilization, war versus peace, action versus word, and force versus metis (intelligence) are fraught with ambiguity. Thalmann singles out in particular the precarious nature of metis, which imbues Odysseus with constructive intelligence but also a dangerous duplicity. Similarly, Thalmann contends that in all his travels Odysseus both inflicts pain and himself suffers after having saved his own life via his cleverness. Aside from its explorations of human character, however, the poem quite simply tells a wonderful story. Odysseus's myriad adventures during his 10-year struggle to get home to Ithaka have the powerful appeal of folktale and fairy tale: the poem's narrative, Thalmann asserts, offers the pleasure of desiring an end that is delayed by obstacles in the outer world and the necessity for intrigues on Ithaka, with the simultaneous assurance that the end will come, and that it will be a happy one. Thalmann perceptively identifies traces of class and gender inquiry in Homer's epic. The poem seems to open up questions about the upholding of a system by which those at the top of society are maintained by the labor of those below, Thalmann maintains; in due course, however, these questions are closed off with the ideal solution of the return of the righteous king, promising prosperity for all. Additionally, Thalmann detects in Penelope an independence and importance rarely accorded women in Greek literature or Greek life; her like-mindedness with Odysseus is emphasized and their marriage characterized as a collaboration between them. What makes Homer's text so relevant to our times, Thalmann concludes, is its suffusion with contradiction and elusiveness. Odysseus, after all, is a hero with a constantly deferred future, and the poem's ending preserves the tension between his two conflicting sides, for when peace is at hand our hero, overcome with battle fury, assaults the relatives of his enemies. Ultimately, Thalmann finds that, happy ending notwithstanding, Homer's masterpiece depicts man's complex and often insidious relationship with the world - a world wherein that which passes for truth seems like fantasy, and lies contain no monsters or miracles but are indistinguishable from the reality of experience.

The 4G Learning Community Apr 16 2022 Developing learning communities across generations is essential in today's business, industry, and educational settings. The 4G Learning Community: Teaching, Learning, and Leading across Four Generations will assist you as you seek to develop these communities. In this book, you will find answers to such questions as: • What is a 4G learning community, and how might it be encouraged? • What are the expectations of Traditionalists, Boomers, Generation Xers, and Millennials for the learning environment? • What shaping factors contribute to the unique perspectives of the different generations? • How and why do generational cohorts view technology use, leadership, mentoring, and employee evaluation differently? • What methods can be implemented in the learning community to effectively teach multiple generations? • How do the different generations view effective teaching, learning, and leading? • What does current research in learning tell us about how to better teach all generations? Included in each chapter are important chapter takeaways, professional reflection questions, and suggested activities that may be used for individual and organizational improvement. In the 4G Learning Community, you will gain important insights in how to design environments where research in leadership and learning is applied and where different generations are carefully considered as you attempt to teach, learn, and lead across four generations.

Poets Historical Feb 20 2020 This book is the first thorough study of imitatio covering theory and practice in full range of Renaissance poets. More than this, however, it is a book that addresses the perennial problems of literary change, of historical understanding, and of the authority of the past, problems that are of concern to every student of literature.

A Grammar of Epic Sanskrit Nov 11 2021 Die beiden großen Epen des (alten) Indiens, das Mahabharata und das Ramayana, sind in einer Sprache verfasst, die sich in vielen Einzelheiten von der Hochsprache des sog. klassischen Sanskrit unterscheidet. Bei der immensen Bedeutung, die beide Texte bis zum heutigen Tag in Indien und darüber hinaus besitzen, wurde das Fehlen einer Grammatik, in der möglichst alle Eigenarten des epischen Sanskrit beschrieben sind, immer schmerzlich beklagt. Die Grammar of Epic Sanskrit soll nun diese Lücke schließen.

Jews and Medicine Aug 20 2022 From the Middle East B.C.E. to medieval Spain through the end of WWII, Frank Heynick traces the relationship between a people and a science in *Jews and Medicine: An Epic Saga*. The ancient ritual of circumcision, Maimonides, the Bavarian Jacob Henle and Nobel-winner Otto Loewi make appearances in this sweeping history of literary, religious and professional links between Judaism and medical practice. Heynick, a scholar of medical history and linguistics, discusses the sale of mummified remains as a cure for disease, the ascendancy of psychoanalysis and hundreds of other famous and obscure historical moments. -Publisher's Weekly.

Epic Journeys of Freedom Feb 02 2021 "During the American Revolution, thousands of slaves fled their masters to find freedom with the British. *Epic Journeys of Freedom* is the story of these runaways and the lives they made on four continents. Having emancipated themselves, with the rhetoric about the inalienable rights of free men ringing in their ears, these men and women struggled tenaciously to make liberty a reality in their own lives."--BOOK JACKET.

The Iliad, the Odyssey, and the Epic Tradition Sep 21 2022 Research into the Homeric epics has considerably enlarged our understanding of the "Iliad" and the "Odyssey" and the cultures that produced them. The two poems have been studied from every point of view by specialists in a variety of disciplines. Out of this material, [the author has] attempted to draw information that is relevant to any critical understanding of the "Iliad" and the "Odyssey" as poetry. Therefore, [the author has] tried to give some account of the nature of oral poetry to help the reader formulate an aesthetic different from that which he would employ for literate poetry. Moreover, [the author has] discussed some of the common techniques of oral epic narration so that the reader may more easily notice when Homer is using these often routine devices for effects that are especially pertinent to his poem. -- From preface

Diego Rivera Sep 28 2020 Art historian David Craven presents a sustained and highly original interpretation of Diego Rivera's particular version of "epic modernism," while offering a probing and coherent account of the artist's lifelong political activism. Drawing on both new primary documents and the best of recent secondary literature, Craven considers what Rivera's work in the public sphere has come to signify, and examines the artist's ongoing legacy for "post-colonial" discourse ; The study features a careful formal analysis of Rivera's most important paintings. Besides addressing his rediscovery of pre-Columbian art, Craven analyzes the artist's use of narrative, iconographic programs and the fresco technique for most well-known mural cycles, which continued to draw structurally on his early avant-garde work

Epic and Romance in the Argonautica of Apollonius Aug 28 2020 Apollonius' *Argonautica* "is almost universally ignored, yet according to John Gardner in his Foreword, this great epic of third-century Alexandria is astoundingly modern in spirit and applicable to today's problems. Understanding the work as Beyé explains it, Gardner notes, we can see why it apparently failed with most of the sorrowful, lawful Romans; why only a few passages were allegorically acceptable to the Middle Ages; why the Victorians scarcely noticed it; and why now, in our time, it has resurfaced as an important work. In an age of nihilism and cynicism, it satisfies all our needs, yet it is not finally nihilistic or cynical. After sketching Apollonius' life, Beyé delves deeply into the intellectual and literary currents that spawned the "Argonautica." He notes that Apollonius remains the poet who showed the Roman the way to translate the oral poetry of heroism into a complicated literary expression freighted with symbol. Beyé continues: More than anything else, however, the "Argonautica" is entertaining in itself. By turns witty, humorous, perverse, sad, even tragic, the narrative is itself a voyage; the narrator asks us to embark with him to gain not only the fleece and Medea but a style and a chastened sensibility as well. And then, of course, there is the love story, one of the first in the Western tradition and one of the best."

The Specter of Dido Oct 10 2021 This book dismantles the stereotype of Spenser as one who blurs earlier epic traditions. John Watkins's examinations of Spenser's major poetry reveal a poet keenly attuned to dissonances among his classical, medieval, and early modern sources. By bringing Virgil into an intertextual dialogue with Chaucer, Ariosto, and Tasso, and several Neo-Latin commentators, Spenser transformed the most patriarchal of genres into a vehicle for praising the Virgin Queen.

The First Book of Grabinoulor Mar 03 2021 Like its author, Grabinoulor has been rediscovered only in the last few decades. Originally published in SIC in 1919 and praised by such writers as Apollinaire, Celine, Max Jacob, and Raymond Queneau, it did not appear in English until 1986. Smart, joyous, playfully philosophical and completely without despair, the novel follows the character Grabinoulor--"the happiest man in the world"--a child-like, satyric, and comical Parisian as he visits other planets, travels through time, and finds poetry wherever he goes.

Zheng He Jun 25 2020 Over 28 years during the beginning of the 15th century, Admiral Zheng He made seven voyages, visiting 30 countries. With his fleet of hundreds of junks, he travelled from Southeast Asia to Africa, from India to the Middle East, gathering riches, scientific knowledge, fame, and power for his emperor. He came close to conquering the world, until the Ming Dynasty's power shrivelled and the explorer's accomplishments were all but forgotten. In this volume, acclaimed photojournalist Michael Yamashita traces each journey made by Zheng He, and pays tribute to the remarkable achievements of this early intrepid explorer. Following an insightful historical introduction, Yamashita presents the details of each voyage, chronicling the interactions and commercial exchanges, and documenting, through his exceptional photographs, the diverse locales Zheng He discovered over close to three decades of intense exploration.

Job, Boethius, and Epic Truth Apr 04 2021 Calling into question the common assumption that the Middle Ages produced no secondary epics, Ann W. Astell here revises a key chapter in literary history. She examines the connections between the Book of Job and Boethius' *Consolation of Philosophy* - texts closely associated with each other in the minds of medieval readers and writers - and demonstrates that these two works served as a conduit for the tradition of heroic poetry from antiquity through the Middle Ages and into the Renaissance. As she traces the complex influences of classical and biblical texts on vernacular literature, Astell offers provocative readings of works by Dante, Chaucer, Spenser, Malory, Milton, and many others. Astell looks at the relationship between the historical reception of the epic and successive imitative forms, showing how Boethius' *Consolation* and Joban biblical commentaries echo the allegorical treatment of "epic truth" in the poems of Homer and Virgil, and how in turn many works classified as "romance" take Job and Boethius as their models. She considers the influences of Job and Boethius on hagiographic romance, as exemplified by the stories of Eustace, Custance, and Griselda; on the amatory romances of Abelard and Heloise, Dante and Beatrice, and Troilus and Criseyde; and on the chivalric romances of Martin of Tours, Galahad, Lancelot, and Redcrosse. Finally, she explores an encyclopedic array of interpretations of Job and Boethius in Milton's *Paradise Lost*, *Paradise Regained*, and *Samson Agonistes*.

Epic Films Dec 12 2021 "Epic" films, those concerned with monumental events and larger-than-life characters, cover the period from the Creation to the A.D. 1200s and have been churned out by Hollywood and overseas studios since the dawn of filmmaking. Arguably the master of the genre, Cecil B. DeMille hit upon the perfect mixture of sex, splendor, and the sacred to lure audiences to his epic productions. Each of the 355 alphabetically arranged entries in this book includes casts and credits, plot synopsis, and narratives on the making of the films. This second edition is accompanied by all new photographs.

What Kind of Nation Jul 07 2021 Fought in private as well as in full public view, their struggle defined basic constitutional relationships in the early days of the republic and resonates still in debates over the role of the federal government vis-a-vis the states and the authority of the Supreme Court to interpret laws."

Daredevils of Sasun Aug 08 2021 "Passed down by word of mouth through the magic of live performance art for a millennium and a half till its scholarly transcription in the late 19th century, the Armenian epic *Daredevils of Sasun* presents a rich legacy of accumulated folk wisdom. This monograph is an introduction to the epic, maintaining a balance between the needs of a scholarly and more popular readership. Contextualizing his subject within the epic production of Western Europe, the Slavic lands, Anatolia and the Caucasus, and Central Asia, the author not only provides a summation of research on the epic, but is cogent in defining his own positions, probing new areas, and approaching some old from a new perspective."--BOOK JACKET.

[Inventing the Electronic Century](#) Mar 15 2022 In his new book, acclaimed historian Alfred Chandler recounts the history of the consumer electronics and computer businesses from a global perspective. It is clear that world wars, depressions and cultural developments impacted twentieth-century economics profoundly, but very little is known about exactly when, where and by whom computer and electronic technologies were initially commercialised...and how they were further transformed by changing markets. In an innovative and authoritative interpretation, Chandler masterfully explains the rise of the Information Age, describing in detail the little-known role that IBM played in technology's evolution. At the same time, he recounts the collapse of RCA and the American electronics industry and illustrates how Japan, not as down and out as everyone thinks, has completed its conquest of the global electronics market. Insightful and balanced, this analysis of the history and direction of these two important industries will well serve managers and investors in today's growing high-technology fields.

Proverbs, Songs, Epic Narratives, Folktales of East Asia Nov 18 2019 This book offers a comparative analysis of the Canadian and American health care systems, and it also explicates and criticizes both Norman Daniels' fair equality of opportunity argument for a right to health care and Allan Buchanan's enforced beneficence argument for a right to a decent minimum of health care. Cust advances an argument, based on David Gauthier's *Morals by Agreement*, that people have a right to a just minimum of health care. The significance of Cust's book is that the main argument is based on four important notions central to contemporary social, moral, and political theory: namely, the notions of liberty, equality, consent, and mutual advantage.

The Ramakien: the Thai Epic Oct 18 2019 "The Ramakien is the Thai version of the most important myth of Southeast Asia--a myth that appears in varying forms in India, where it originated and is known as the Ramayana ... It is a story that closely parallels Western myths, such as those of the Iliad, recounting the struggle between the forces of good and evil, personified in the divine Phra Ram and the King of the Demons, Totsagan ... the central episodes of this story ... are depicted in the bas-reliefs of the temple of Wat Phra Jetubon in Bangkok ... it is a complete set of the rubbings (one hundred and fifty-two) of these bas-reliefs that is presented in this book"--Dustjacket.

[The Alexandreis](#) Mar 23 2020 Walter of Châtillon's Latin epic on the life of Alexander the Great was a twelfth- and thirteenth-century "best-seller:" scribes produced over two hundred manuscripts. The poem follows Alexander from his first successes in Asia Minor, through his conquest of Persia and India, to his progressive moral degeneration and his poisoning by a disaffected lieutenant. The *Alexandreis* exemplifies twelfth-century discourses of world domination and the exoticism of the East. But at the same time it calls such dreams of mastery into question, repeatedly undercutting as it does Alexander's claims to heroism and virtue and by extension, similar claims by the great men of Walter's own generation. This extraordinarily layered and subtle poem stands as a high-water mark of the medieval tradition of Latin narrative literature. Along with David Townsend's revised translation, this edition provides a rich selection of historical documents, including other writings by Walter of Châtillon, excerpts from other medieval Latin epics, and contemporary accounts of the foreign and "exotic."
