If your child enjoys these titles, why not look at more titles in our DK Workbooks range, which includes DK Workbooks: Science, DK Workbooks: Math and DK Workbooks: Language Arts. This little book is confined to very simple “reading lessons upon the Form and Motions of the Earth, the Points of the Compass, the Meaning of a Map: Definitions.” The shape and motions of the earth are fundamental ideas—however difficult to grasp. Geography should be learned chiefly from maps, and the child should begin the study by learning “the meaning of map,” and how to use it. These subjects are well fitted to form an attractive introduction to the study of Geography: some of them should awaken the delightful interest which attaches in a child’s mind to that which is wonderful—incomprehensible. The Map lessons should lead to mechanical efforts, equally delightful. It is only when presented to the child for the first time in the form of stale knowledge and foregone conclusions that the facts taught in these lessons appear dry and repulsive to him. An effort is made in the following pages to treat the subject with the sort of sympathetic interest and freshness which attracts children to a new study. A short summary of the chief points in each reading lesson is given in the form of questions and answers. Easy verses, illustrative of the various subjects, are introduced, in order that the children may connect pleasant poetic fancies with the phenomena upon which “Geography” so much depends. It is hoped that these reading lessons may afford intelligent teaching, even in the hands of a young teacher. The first ideas of Geography—the lessons on “Place”—which should make the child observant of local geography, of the features of his own neighbourhood, its heights and hollows and level lands, its streams and ponds—should be conveyed viva voce. At this stage, a class-book cannot take the place of an intelligent teacher. Children should go through the book twice, and should, after the second reading, be able to answer any of the questions from memory. Charlotte M. Mason 180 Days of Geography is a fun and effective daily practice workbook designed to help students learn about geography. This easy-to-use sixth grade workbook is great for at-home learning or in the classroom. The engaging standards-based activities cover grade-level skills with easy to follow instructions and an answer key to quickly assess student understanding.

Each week students will explore a new topic focusing on map skills, applying information and data, and connecting what they have learned. Watch students build confidence as they learn about location, place, human-environment interaction, movement, and regions with these quick independent learning activities. Parents appreciate the teacher-approved activity books that keep their child engaged and learning. Great for homeschooling, to reinforce learning at school, or prevent learning loss over summer. Teachers rely on the daily practice workbooks to save them valuable time. The ready to implement activities are perfect for daily morning review or homework. The activities can also be used for intervention skill building to address learning gaps. Includes the lyrics to 33 songs to help learn about 225 countries, continents, landmarks, maps, etc. Perfect for children ages 11 and 12, this workbook extends the geography knowledge and map-reading skills of sixth graders and contains curriculum-aligned objectives that include using different map projections and informational maps, locating the world's major physical features, and reinforcing knowledge about the United States, the continents, and specific world regions. Level by level, the write-in DK Workbooks: Geography series offers at-home practice that kids actually enjoy—making them ideal supplements to schoolwork. Designed to support curriculum standards, this series is developed with leading educational experts to build confidence and understanding. Each leveled workbook, for children ages 3–9, is packed with activities and challenges, offering the beneficial repetition and cumulative learning that lead to mastery. Fact boxes on each page give a simple overview of the topics being covered, review the basics, and often offer an example of the task at hand. The exercises themselves reinforce key geography topics including map reading, compass directions, continents, countries and states, borders, bodies of water, and more. ready for them to continue studying. For other subjects they enjoy, look at our DK Workbooks range, which includes DK Workbooks: Science, DK Workbooks: Math and DK Workbooks: Language Arts. From treasure maps to state maps, this fun and colorful map skills primer covers symbols, cardinal directions, the globe-map connection, and more. Learn the basic geographic layout of Africa, the Middle East, and the Holy Land in Geography Workbook, Cycle One, Africa, Middle East and the Holy Land. Each outline map is presented in two ways, one page has the map with corresponding cities, capitals and physical features and the next page has the blank outline without any of the information. Students can trace the outlines of the map, study and highlight cities, capitals and features, and finally review by filling in the pertinent data on the blank map. This book also includes homework assignments and blank review pages for each section. This book corresponds with the Cycle 1 Geography curriculum for the Aquinas Learning Program. Black outline maps included in the book are: World Map, Continents and Oceans, the Fertile Crescent, Africa, Egypt & the Nile, the Aegean Peninsula, the Middle East, the Holy Land, Northern Africa, Arabian Peninsula, the Aegean Peninsula, Athens & Sparta, Greece & Turkey, Alexander's Conquest, Asia, Italian Peninsula, the Holy Land, Caesar's Conquest, Augustus Caesar's Empire, the Holy Land ? Jesus? Birth Place, Italy & Vatican City, Map of Paul's Journey, Turkey, and a Map of the Barbarian Invasions The blank outline maps in this handbook can be freely printed and photo copied by a by a mentor or parent for use in their classroom or in their home school. Aquinas Learning is a classical home education mentoring program guiding students toward wisdom and virtue. Peers meet once a week for instruction, discussions and oral presentations, led by trained mentors at local, independently owned centers licensed to use the Aquinas Learning program. Materials and online support are provided for parents to continue the lessons in their home schools throughout the week. The Aquinas Learning program provides the students with the building blocks necessary for a liberal arts education that blends the Great Books and the Scholastic Inquiry approach. Our 3-cycle curriculum is the framework from which parents can base their lesson plans throughout the school year across PK-10th grade, forming a harmonious comprehensive home education, benefiting the entire family. Get to Know the Earth's Many Forms with Dozens of Fun and Easy Projects From finding directions by the stars, to mapping your neighborhood, to making an earthquake in a box, you'll have a great time learning about the world with The Geography Book. You'll find out how to determine location on the Earth, how maps can provide us with a wide range of information, how different landforms were created, how water has helped shape the Earth, and much more. Using simple materials you'll be able to find around the house or in your neighborhood, you'll be able to create things like a giant compass rose, a balloon globe, a contour potato, a map puzzle, and a tornado in a jar. So get ready for a fascinating trip around the globe. Explore the world with
