Lost in the Forest Jan 28 2021 For nearly two decades, since the publication of her iconic first novel, *The Good Mother*, Sue Miller has distinguished herself as one of our most elegant and widely celebrated chroniclers of family life, with a singular gift for laying bare the interior lives of her characters. In each of her novels, Miller has written with exquisite precision about the experience of grace in daily life—the sudden, epiphanic recognition of the extraordinary amid the ordinary—as well as the sharp and unexpected motions of the human heart away from it, toward an unruly netherworld of upheaval and desire. But never before have Miller's powers been keener or more transfixing than they are in *Lost in the Forest*, a novel set in the vineyards of Northern California that tells the story of a young girl who, in the wake of a tragic accident, seeks solace in a damaging love affair with a much older man. Eva, a divorced and happily remarried mother of three, runs a small bookstore in a town north of San Francisco. When her second husband, John, is killed in a car accident, her family's fragile peace is once again overtaken by loss. Emily, the eldest, must grapple with newfound independence and responsibility. Theo, the youngest, can only begin to fathom his father's death. But for Daisy, the middle child, John's absence opens up a world of bewilderment, exposing her at the onset of adolescence to the chaos and instability that hover just beyond the safety of parental love. In her sorrow, Daisy

embarks on a harrowing sexual odyssey, a journey that will cast her even farther out onto the harsh promontory of adulthood and lost hope. With astonishing sensuality and immediacy, *Lost in the Forest* moves through the most intimate realms of domestic life, from grief and sex to adolescence and marriage. It is a stunning, kaleidoscopic evocation of a family in crisis, written with delicacy and masterful care. For her lifelong fans and those just discovering Sue Miller for the first time, here is a rich and gorgeously layered tale of a family breaking apart and coming back together again: Sue Miller at her inimitable best.

Finding the Mother Tree May 20 2020 NEW YORK TIMES BEST SELLER • From the world's leading forest ecologist who forever changed how people view trees and their connections to one another and to other living things in the forest—a moving, deeply personal journey of discovery Suzanne Simard is a pioneer on the frontier of plant communication and intelligence; her TED talks have been viewed by more than 10 million people worldwide. In this, her first book, now available in paperback, Simard brings us into her world, the intimate world of the trees, in which she brilliantly illuminates the fascinating and vital truths—that trees are not simply the source of timber or pulp, but are a complicated, interdependent circle of life; that forests are social, cooperative creatures connected through underground networks by which trees communicate their vitality and vulnerabilities with communal lives not that different from our own. Simard writes—in inspiring, illuminating, and accessible ways—how trees, living side by side for hundreds of years, have evolved, how they learn and adapt their behaviors, recognize neighbors, compete and cooperate with one another with sophistication, characteristics ascribed to human intelligence, traits that are the essence of civil societies—and at the center of it all, the Mother Trees: the mysterious, powerful forces that connect and sustain the others that surround them. And Simard writes of her own life, born and raised into a logging world in the rainforests of British Columbia, of her days as a child spent cataloging the trees from the forest and how she came to love and respect them. And as she writes of her scientific quest, she writes of her own journey, making us understand how deeply human scientific inquiry exists beyond data and technology, that it is about understanding who we are and our place in the world.

Things Fall Apart Apr 18 2020 THINGS FALL APART tells two overlapping, intertwining stories, both of which center around Okonkwo, a "strong man" of an Ibo village in Nigeria. The first of these stories traces Okonkwo's fall from grace with the tribal world in which he lives, and in its classical purity of line and economical beauty it provides us with a powerful fable about the immemorial conflict between the individual and society. The second story, which is as modern as the first is ancient, and which elevates the book to a tragic plane, concerns the clash of cultures and the destruction of Okonkwo's world through the arrival of aggressive, proselytizing European missionaries. These twin dramas are perfectly harmonized, and they are modulated by an awareness capable of encompassing at once the life of nature, human history, and the mysterious

compulsions of the soul. THINGS FALL APART is the most illuminating and permanent monument we have to the modern African experience as seen from within.

Nineteen Eighty-Four Oct 25 2020 “*Nineteen Eighty-Four: A Novel*”, often published as “1984”, is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, “*Nineteen Eighty-Four*” centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.
