Human Sexuality examines the psychology and science of sexuality, emphasizing diversity, critical thinking, responsible decision-making, and sexual health, all in a uniquely Canadian context. It draws upon the work of scholars in such fields as psychology, sociology, medicine, anthropology, theology, and philosophy and incorporates a multicultural, multiethnic perspective. Concise and clear without sacrificing scholastic rigour, it emphasizes theory and research as well as practical applications that are relevant

to students' lives. From the prehistoric cave paintings to Andy Warhol's soup cans, this lively chronicle surveys the rich history of artistic expression. INSTANT ART HISTORY examines such geniuses as Michelangelo, da Vinci, Rembrandt, Renoir, van Gogh, and the Impressionists as well as Dali, Matisse, Picasso, Kandinsky, and Lichtenstein. With INSTANT ART HISTORY you'll learn: * How Mona Lisa's smile changed forever the grim face of portrait sitters. * The differences between Analytic and Synthetic Cubism. * How the avant-garde movements of Constructivism, Dadaism, and Surrealism of the 1920s redefined how society viewed art. * How the action paintings of the Abstract Expressionists allow the viewer to "feel" a painting, not just see it. A long-respected standard in the psychology of adjustment, Psychology and the Challenges of Life, Eleventh Edition has been thoroughly updated and contemporized to provide students the ability to reflect on how psychology relates to

the lives we live and the roles that psychology can play in helping us with the challenges we face. Authors Jeffrey Nevid and Spencer Rathus explore the many applications of psychological concepts and principles used to meet the challenges of daily life, while encouraging students to apply concepts to themselves through active learning exercises, self-assessment questionnaires, and journaling exercises. DRUGS ACROSS THE SPECTRUM encourages you to examine the motivation for drug use, social implications of drug use, legal ramifications, and factors affecting how drugs interact with the human body. It provides a look at the history and culture surrounding drug use and abuse, key information regarding specific types of drugs, and a review of drug treatment, education, and prevention approaches and programs. Utilizing active learning features like Fact or Fiction and Thinking Critically questions, Goldberg offers an engaging book that helps

readers personally understand the issues of drugs in society. Available with InfoTrac Student Collections

The Sociology of Mental Illness is a comprehensive collection of readings designed to help students develop a nuanced and sophisticated appreciation of the most important, heated--and fascinating--controversies in the field. Drawing primarily from sociological sources, the text features both classical and contemporary selections that cover the full range of sociological topics, perspectives, and debates, including the social construction of mental illness, the social origins of mental illness, and contemporary mental health treatment. This rich, varied assortment gives students a "roadmap" to the evolution and development of sociological research over time and insight into key

controversies in the field. Selections include such classical readings as Scheff's original statement of labeling theory, contemporary reports on the prevalence of mental illness in countries around the world, and recent analyses of the changing treatment system. The readings are organized progressively in order to help students recognize the dynamic character of mental health research and the important role that controversies play in advancements in the field; this organization also gives students the tools they need to formulate their own views and opinions on crucial matters. A versatile, engaging text, *The Sociology of Mental Illness* is ideal for undergraduate and graduate courses in the sociology of mental illness. The SAGE Encyclopedia of Psychology and Gender is an innovative exploration of the intersection

of gender and psychology—topics that resonate across disciplines and inform our everyday lives. This encyclopedia looks at issues of gender, identity, and psychological processes at the individual as well as the societal level, exploring topics such as how gender intersects with developmental processes both in infancy and childhood and throughout later life stages; the evolution of feminism and the men’s movement; the ways in which gender can affect psychological outcomes and influence behavior; and more. With articles written by experts across a variety of disciplines, this encyclopedia delivers insights on the psychology of gender through the lens of developmental science, social science, clinical and counseling psychology, sociology, and more. This encyclopedia will provide librarians, students, and professionals with ready access to up-to-date information that informs some of today’s key contemporary issues and debates. These are

the sorts of questions we plan for this encyclopedia to address: What is gender nonconformity? What are some of the evolutionary sex differences between men and women? How does gender-based workplace harassment affect health outcomes? How are gender roles viewed in different cultures? What is third-wave feminism? Packed with hundreds of examples of classic and contemporary art, **FOUNDATIONS OF ART AND DESIGN, 2E** delivers a comprehensive guide to basic design that provides the ideal foundation to design principles. Appealing to readers at every ability level, the text’s logical and structured organization moves from micro to macro topics, enabling learners to build on ideas and concepts of design and better understand the material. A running glossary defines key terms in the margins of the text, while two Visual Glossaries at the end of the book focus on styles and mediums. In addition, new Theory and Practice boxes help readers more deeply analyze

artwork, and Artists on Art boxes offer insight from professional artists. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This book reviews one of the first organizations to be established in support of indigenous peoples. IWGIA was founded in 1968 by anthropologists concerned at the atrocities being committed against Indians in South America. Within a few years, a small group of dedicated scholars working on a voluntary basis established a documentation centre that

became well-known to concerned people all over the world. Out of these beginnings grew a professional organization, which while still being involved in documentation embarked on international human rights activities, empowerment projects, publishing, and information dissemination. Social Problems explores the consequences of symbolic interactionism in society, a theory which contends that people attach meanings to symbols such as language or gestures and base their behaviors on their interpretations of these meanings. Norman A. Dolch, Linda Deutschmann, and Helen Powell compile a number of critical and innovative essays that explore different aspects of society including mental illness, race relations, terrorism, and family life. Why does our memory of our first birthday differ from our memory of our last birthday? What makes children with the same parents have different characters? At what age are

children likely to become involved in cyberbullying? Developmental Psychology 1st edition provides a clear and lively coverage of the main topics and concepts required by the British Psychological Society (BPS). The book takes a broadly topical organisation addressing the social and cognitive strands of development, providing an intuitive pathway through the core topics, and a final section which focuses on the clinical and applied aspects of the subject The text has been pedagogically developed to encourage the reader to engage with empirical research as well as theory, to make links between different areas of development, and to recognise common themes.
