For many teachers, gender issues related to role models, image and expectations have an effect upon the behaviour and achievement of both boys and girls, often to their disadvantage. This innovative and practical resource, for teachers of students aged 14-19 provides:

- o a programme to promote gender equality and inclusivity in schools and colleges
- o a rationale for the programme based on social justice
- o a practical set of classroom activities to implement the programme

The book adopts an "action inquiry" methodology - engaging students and staff in the processes of investigating what is currently happening, and planning, implementing and reviewing improvements. This contributes to the development of the school or college as a self-evaluating organisation which listens to the voice of the young person. The programme also supports teachers and other school staff in developing as reflective practitioners, and children and young people in developing as reflective learners. "A real strength of the resource is the inclusion of practical activities that have been carefully designed for pupils. These are excellent and lend themselves for use in a variety of ways. This is a thoroughly recommended resource." - SENCO Update

Critical Thinking provides language teachers with a dynamic framework for encouraging critical thinking skills in explicit, systematic ways during their lessons. With the proliferation of fallacious arguments, "fake news," and untrustworthy sources in today's multimedia landscape, critical thinking skills are vital not only in one's native language, but also when engaged in the task of language learning. Written with the language teacher in mind, this book provides a springboard for teaching critical thinking skills in multicultural, multilingual classrooms. Suitable for graduate students, in-training teachers, and language curriculum developers interested in purposeful applications of critical thinking pedagogy for the second-language classroom, this volume presents classroom activities, suggestions for lesson planning, and ideas for researching the impact of critical thinking activities with second-language learners. This book is ideal as an invaluable resource for teacher-directed classroom investigations as well as graduate dissertation projects.

Do you ever feel stressed, anxious, or overwhelmed? As a teen girl, you're under a lot of pressure. Mindfulness can help. Being You explores mindfulness as a simple but powerful way to center oneself and tap into one's own inner wisdom and strength.

This book: This book is designed to be of value to anyone who is studying management, whether as a subject in its own right or as a module forming part of any business-related degree or diploma. However, it provides complete coverage of the topics listed in the Edexcel Guidelines for Units 15 (Managing Business Activities to Achieve Results) and 16 (Managing Communications, Knowledge and Information), of the BTEC Higher Nationals in Business (revised 2010). The book contains these sections: * Managing activities to achieve results * Managing communications, knowledge and information. Features include summary diagrams, worked examples and illustrations, activities, discussion topics, chapter summaries and quick quizzes, all presented in a user friendly format that helps to bring the subject to life. This first edition focuses on probability and the Bayesian viewpoint. It presents basic material on probability and then introduces inference by means of Bayes' rule. The emphasis is on statistical thinking and how one learns from data. The objective is to present the basic tenets of statistical inference. Unique in its format, the text allows students to discover statistical concepts, explore statistical principles, and apply statistical techniques. In addition to the numerous activities and exercises around which the text is built, the book includes a basic text exposition for each topic, and data appendices. The process of finding and making the best possible match is not an easy one. On the contrary, from an emotional perspective finding, making, maintaining, and enriching an intimate partnership is one of the most challenging tasks an adult faces. There must be an attraction or a "spark" for a true match to be made. When a couple comes for counseling, they come with the hope that their relationship can be renewed—that they can capture the heat and the emotion that they once had together. *The Couple's Match Book: Lighting, Rekindling, or Extinguishing the Flame* explores relationship theory and research. Including self-assessment activities to help determine what actions to take to improve relationships, this guide offers information that focuses on understanding and respecting personality differences, role perceptions, communication, and problem-solving. The balance of the book shares personal stories written by couples detailing their own experiences in an effort to help others in improving their intimate relationships. *The Couple's Match Book: Lighting, Rekindling, or Extinguishing the Flame* can be used as a supplemental text in marriage and family courses, as well as a primary resource in couples counseling and marriage and family therapy. With this fourth edition, accountants will acquire a practical set of tools and the confidence they need to use them effectively in making business decisions. It better reflects a more conceptual and decision-making approach to the material. The authors follow a "macro- to micro-" strategy by starting with a discussion of real financial statements first, rather than starting with the Accounting Cycle. The objective is to establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. This motivates accountants by grounding the discussion in the real world, showing them the relevance of the topics covered to their careers. The complex problems of education and technological development and information demands, then takes its main innovations in learning. The purpose of this Education is Innovation in order to improve the quality, effectiveness, efficiency, relevance and productivity, making the learning process more meaningful and fun for children. So is innovation technology-based learning, make learning be fun so that children become active and creative ideas, thoughts, research related to the innovation of education can be presented in International Conference Education, Culture and technology is preferred. The theme of this Conference: Innovation of Education to Improve Character Value for Childern. Earlier book entitled "Women and women's issues: a handbook of test and measures" has over 235 measures of which only 6 are included in this volume of 197 measures. This practical, user-friendly guide consists of 100 original activities that have been designed to inspire and support educators of research ethics and integrity at undergraduate and postgraduate level. Focussing on eight key areas, activities include: □ Respecting human dignity, privacy and rights □ Obtaining informed consent in the digital world □ Capturing data on sexual orientation and gender identity □ Recognizing and addressing bias when collecting data □ Creating social change through research practice □ Assessing the ethical implications of data sharing. Complete with detailed teaching notes and downloadable student handouts, as well as guidance on the type and level of each activity, 100 Activities for Teaching Research Ethics and Integrity is an essential resource for both online and face-to-face teaching. Grab your passport to discover primary sources related to each of eight different cultures with activities to help teach important fluency strategies. While learning about people and cultures from around the world, students make content-area connections, develop fluent and meaningful oral reading, and develop vocabulary and word decoding skills. Included with each text is a history connection, a vocabulary connection, and extension ideas. This resource is aligned to the interdisciplinary themes from the Partnership for 21st Century Skills and supports Common Core State Standards. 192pp. Shorn of all subtlety and led naked out of the protective fold of educational research literature, there comes a sheepish little fact: lectures don't work nearly as well as many of us would like to think. -George Cobb (1992) This book contains activities that guide students to discover statistical concepts, explore statistical principles, and apply statistical techniques. Students work toward these goals through the analysis of genuine data and through interaction with one another, with their instructor, and with technology. Providing a one-semester introduction to fundamental ideas of statistics for college and advanced high school students, Warkshop Statistics is designed for courses that employ an interactive learning environment by replacing lectures with hands on activities. The text contains enough expository material to stand alone, but it can also be used to supplement a more traditional textbook. Some distinguishing features of Workshop Statistics are its emphases on active learning, conceptual understanding, genuine data, and the use of technology. The following sections of this preface elaborate on each of these aspects and also describe the unusual organizational structure of this text. Great Ideas is a unique collection of absorbing and enjoyable fluency practice activities designed to improve listening and speaking abilities. The Teacher's Manual contains detailed notes on the activities, as well as vocabulary suggestions, glossaries, answer keys (where appropriate), listening scripts, and suggestions for follow-up activities. This reference provides basic information concerning the laws, regulations, and policies affecting labor and employment in Ohio. It may be used in the development of a personnel policy and as a resource for answers to questions on employment law issues. It offers solid guidance on important new procedures and potential sources of liability and keeps you

abreast of important regulations governing all aspects of the employer-employee relationship - from hiring to termination or retirement. Talk is the medium through which children learn; and yet children may not realise why their contributions to classroom talk are so important.
