Handbook of Research on Seismic Assessment and Rehabilitation of Historic Structures Oct 22 2022 Rehabilitation of heritage monuments provides sustainable development and cultural significance to a region. The most sensitive aspect of the refurbishment of existing buildings lies in the renovation and recovery of structural integrity and public safety. The Handbook of Research on Seismic Assessment and Rehabilitation of Historic Structures evaluates developing contributions in the field of earthquake engineering with regards to the analysis and treatment of structural damage inflicted by seismic activity. This book is a vital reference source for professionals, researchers, students, and engineers active in the field of earthquake engineering who are interested in the emergent developments and research available in the preservation and rehabilitation of heritage buildings following seismic activity.

Mechanical Properties of Bamboo Apr 16 2022 In this book I have collected many reports on the properties of bamboo. Since I started bamboo research in 1974, I have collected many publications on bamboo. However, in contacts with other researchers I became aware of the fact that several of these publications were unknown to them. Consequently their activities in research or in bamboo projects had to start at a lower level than if they had known some of these publications. Therefore, I discussed the need for a book like this with several colleagues, and I decided to start writing. In this book I present data on properties, as published by researchers. Certainly it is not complete; e.g. the proceedings of the bamboo workshop in Cochin in November 1988 are not included; they arrived just too late to be taken into account. On the other hand, in writing this preface I realize I have forgotten my own thesis. I do apologize to any colleague whose relevant report is not taken into account as well. I like to express my feelings of respect to the board of my faculty: they allowed me to spend so much time on this book, and they gave a considerable financial support for the printing costs.

Harun Farocki Jan 01 2021 Filmmaker, film essayist, installation artist, writer: the Berlin artist Harun Farocki has devoted his life to the power of images. Over the thirty-plus years of his career, Farocki has explored not the images of life but rather the life of images that surrounds us in newspapers, cinema, books, television, and advertising. Harun Farocki examines, from different critical perspectives, his vast oeuvre, which includes three feature films, critical media pieces, children's television features, "learning films" in the tradition of Brecht, and installation pieces. Interviews, a selection of Farocki's own writings, and an annotated filmography complete a valuable biography of this pioneering artist and his legendary career.

The Art of Fear Mar 15 2022 A revolutionary guide to acknowledging fear and developing the tools we need to build a healthy relationship with this confusing emotion—and use it as a positive force in our lives. We all feel fear. Yet we are often taught to ignore it, overcome it, push past it. But to what benefit? This is the essential question that guides Kristen Ulmer's remarkable exploration of our most misunderstood emotion in *The Art of Fear*. Once recognized as the best extreme skier in the world (an honor she held for twelve years), Ulmer knows fear well. In this conversation-changing book, she argues that fear is not here to cause us problems—and that in fact, the only true issue we face with fear is our misguided reaction to it (not the fear itself). Rebuilding our experience with fear from the ground up, Ulmer starts by exploring why we've come to view it as a negative. From here, she unpacks fear and shows it to be just one of 10,000 voices that make up our reality, here to help us come alive alongside joy, love, and gratitude. Introducing a mindfulness tool called "Shift," Ulmer teaches readers how to experience fear in a simpler, more authentic way, transforming our relationship with this emotion from that of a draining battle into one that's in line with our true nature. Influenced by

Ulmer ' s own complicated relationship with fear and her over 15 years as a mindset facilitator, The Art of Fear will reconstruct the way we react to and experience fear—empowering us to easily and permanently address the underlying cause of our fear-based problems, and setting us on course to live a happier, more expansive future.

Blabac Photo May 17 2022 "It's rad what I do." -Mike Blabac Blabac Photo: The Art of Skateboarding Photography is an stunning chronicle of a youth movement as seen through the lens of Mike Blabac, a man who is as dedicated to his craft as he is to the skateboarding lifestyle that inspired it. For millions of people around the world, skateboarding is more than a mere hobby or a sport—it's a way of life that has shaped everything from fashion and music, to videogames and art. Blabac Photo proves that point with 300 awe-inspiring images that communicate the stories and exploits of some of the most creative athletes to ever step on a skateboard including Eric Koston, Stevie Williams, Colin McKay, Rob Dyrdek, and Danny Way. As skateboarding evolved over time, from a hobby for kids on the Venice boardwalk into a global culture, skate legends were born, records were broken, titans of industry materialized—and Mike Blabac was there to document the history of the movement as it developed before his eyes.

Brave Enough Aug 08 2021 Travel with Olympic gold medalist Jessie Diggins on her compelling journey from America ' s heartland to international sports history, navigating challenges and triumphs with rugged grit and a splash of glitter Pyeongchang, February 21, 2018. In the nerve-racking final seconds of the women ' s team sprint freestyle race, Jessie Diggins dug deep. Blowing past two of the best sprinters in the world, she stretched her ski boot across the finish line and lunged straight into Olympic immortality: the first ever cross-country skiing gold medal for the United States at the Winter Games. The 26-year-old Diggins, a four-time World Championship medalist, was literally a world away from the small town of Afton, Minnesota, where she first strapped on skis. Yet, for all her history-making achievements, she had never strayed far from the scrappy 12-year-old who had insisted on portaging her own canoe through the wilderness, yelling happily under the unwieldy weight on her shoulders: “ Look! I ' m doing it! ” In Brave Enough, Jessie Diggins reveals the true story of

her journey from the American Midwest into sports history. With candid charm and characteristic grit, she connects the dots from her free-spirited upbringing in the woods of Minnesota to racing in the bright spotlights of the Olympics. Going far beyond stories of races and ribbons, she describes the challenges and frustrations of becoming a serious athlete; learning how to push through and beyond physical and psychological limits; and the intense pressure of competing at the highest levels. She openly shares her harrowing struggle with bulimia, recounting both the adversity and how she healed from it in order to bring hope and understanding to others experiencing eating disorders. Between thrilling accounts of moments of triumph, Diggins shows the determination it takes to get there—the struggles and disappointments, the fun and the hard work, and the importance of listening to that small, fierce voice: I can do it. I am brave enough.
